## **LYNX to Receive \$1.9 Million Federal Transit Administration Grant**

ORLANDO, Fla. (July 26, 2019) – The Central Florida Regional Transportation Authority (LYNX) has been notified it will receive a Low or No Emission (Low-No) Grant for \$1.9 million from the Federal Transit Administration (FTA). The funding when distributed will allow for the purchase or lease of zero-emission and low-emission transit buses, including acquisition, construction, and leasing of required supporting facilities such as recharging, refueling and maintenance facilities.

LYNX will use the grant to purchase seven battery electric buses, which will be procured through Proterra Inc. The buses will operate on the LYMMO Grapefruit, Lime and North Quarter lines.

Support from the Center for Transportation and the Environment (CTE), the City of Orlando, the Orlando Utilities Commission (OUC—The *Reliable One*) and bus manufacturer Proterra, Inc. was instrumental to the grant application's success.

“All of us here in the Central Florida community are pleased that the FTA recognized the importance of this project,” said LYNX CEO Jim Harrison. “It is unique partnerships such as this that show LYNX shares in Mayor Dyer and our Board's vision for a future-ready city.”

“We are proud to work with LYNX and the City of Orlando to electrify transportation across our region. We've worked hard to create a robust charging infrastructure for residents and now we're excited to make an even greater impact with mass transit,” said Clint Bullock, General Manager & CEO, OUC—The *Reliable One*.

Additionally, OUC is assisting in the procurement of charging stations and batteries to help LYNX successfully deploy the project. The Governing Board for OUC approved providing LYNX up to \$900,000 toward this program. The city is also providing \$850,000 in matching funds.

RE: First Quarter Variance Report (July 2019 – September 2019)

Dear Mr. Huttman:

This letter is in reference to a request made by MetroPlan Orlando Metropolitan Planning Organization (MPO) regarding the quarter variance report for the period of July 2019 through September 2019. This quarter's variance report compares the July 1, 2019 adopted work program with changes made to the adopted work program in the first quarter of Fiscal Year 2019/2020. The project(s) listed below includes a cost increase that is equal to or greater than the minimum parameters set by MetroPlan Orlando.

**ORANGE COUNTY PROJECT(S)**

## **LYNX to Receive \$1.9 Million Federal Transit Administration Grant**

ORLANDO, Fla. (July 26, 2019) – The Central Florida Regional Transportation Authority (LYNX) has been notified it will receive a Low or No Emission (Low-No) Grant for \$1.9 million from the Federal Transit Administration (FTA). The funding when distributed will allow for the purchase or lease of zero-emission and low-emission transit buses, including acquisition, construction, and leasing of required supporting facilities such as recharging, refueling and maintenance facilities.

LYNX will use the grant to purchase seven battery electric buses, which will be procured through Proterra Inc. The buses will operate on the LYMMO Grapefruit, Lime and North Quarter lines.

Support from the Center for Transportation and the Environment (CTE), the City of Orlando, the Orlando Utilities Commission (OUC—The *Reliable One*) and bus manufacturer Proterra, Inc. was instrumental to the grant application's success.

“All of us here in the Central Florida community are pleased that the FTA recognized the importance of this project,” said LYNX CEO Jim Harrison. “It is unique partnerships such as this that show LYNX shares in Mayor Dyer and our Board’s vision for a future-ready city.”

“We are proud to work with LYNX and the City of Orlando to electrify transportation across our region. We’ve worked hard to create a robust charging infrastructure for residents and now we’re excited to make an even greater impact with mass transit,” said Clint Bullock, General Manager & CEO, OUC—The *Reliable One*.

Additionally, OUC is assisting in the procurement of charging stations and batteries to help LYNX successfully deploy the project. The Governing Board for OUC approved providing LYNX up to \$900,000 toward this program. The city is also providing \$850,000 in matching funds.
