Dear Mr. Huttman:

Florida Department of Transportation requests MetroPlan Orlando amend the FY 2022/23-2026/27 TIP to reflect project changes as described below.

Project #443548-1 has been supplemented with additional federal funding for the construction phase to cover cost estimate increases the industry is experiencing nationwide on items such as asphalt, drainage pipe and concrete. This project will make improvements to the intersection of Fortune Road and Simpson Road by completely reconstructing approximately .627 miles of Simpson Road, milling and resurfacing approximately .78 miles of Fortune Road, installing mast arms for traffic signals at the intersection, adding curb and gutter sections, drainage improvements, sidewalk and thermos striping.

Please use the following project information to amend the TIP:

FM#	Project Description	Project Limits	Length	Phase	Fund Source	Amount	FY
443548-1	Fortune Road and Simpson Road Intersection Improvement Project	Extends north, south, east and west of intersection	1.407 miles	PE CST	HSP ACSS LF SU <b>Total</b>	\$ 4,985 \$4,881,988 \$6,340,203 <u>\$5,304,000</u> <b>\$ 16,531,176</b>	2023

**RE: Moving Florida Forward Infrastructure Initiative**

On behalf of the MetroPlan Orlando Board, I'm conveying our members' enthusiastic support for the *Moving Florida Forward Infrastructure Initiative*. Our Board urges you to please fund this initiative in the state budget during the legislative session to advance critical transportation projects.

The timing on this proposal could not be better. Recently, the Florida Department of Transportation (FDOT) successfully completed the I-4 Ultimate reconstruction, which has alleviated traffic flow on this important spine through Central Florida. I-4 connects the major activity centers of our region and carries traffic from 2.5 million residents, millions of visitors, and freight trucks that deliver goods and services. It also connects the greater Orlando area's central business district to other regions of Florida. All market indicators show that strong growth will continue, with more than one million new residents expected by the year 2045.

*Moving Florida Forward* can jumpstart two costly Central Florida projects that have been in our plans for years with little movement, based on a lack of available funds:

- I-4 from ChampionsGate to Osceola Parkway: This segment of I-4 in Osceola County, which is a hotspot for growth in the state, experiences some of the worst recurring congestion in the corridor. Through traditional funding, the project won't be cost feasible for another two decades. The initiative would allow the project to be constructed within approximately the next five years.
- Poinciana Parkway Extension Connector from CR 532 to SR 429: Poinciana residents have some of the longest commute times in the country, with limited options for how they get in and out of their community. This new toll road would provide much-needed access. The project is in early phases of study, and the initiative would significantly advance construction.

Sound planning, major investments, and advances in technology are required to handle our region's needs. The *Moving Florida Forward Infrastructure Initiative* proposes an unexpected and welcome major investment in transportation. The MetroPlan Orlando Board supports additional funding for transportation and would welcome your assistance in making this proposal a reality for Central Florida. We look forward to working in partnership with FDOT to complete the above projects.

Sincerely,

Orange County Commissioner Mayra Uribe

The Honorable Pete Buttigieg  
Secretary  
U.S. Department of Transportation  
1200 New Jersey Ave., SE  
Washington, DC 20590

Dear Secretary Buttigieg,

On behalf of MetroPlan Orlando, the Metropolitan Planning Organization for Orange, Osceola and Seminole Counties, I am pleased to provide this letter of support for Osceola County's 2023 RAISE Grant request for the Buenaventura Boulevard Corridor Improvement Project.

Osceola County is using a Complete Streets design and Safe Streets approach to enable improved travel options for pedestrians, bicyclists, and motorists. Based on safety records, from 2016-2022, there have been five fatalities and 167 injuries in 428 reported crashes along this roadway. Osceola County will use proven strategies to address the deficiencies and safety issues of Buenaventura Boulevard by installing two roundabouts, textured intersections, a 12-foot shared use path along the west side of the boulevard, along with several other improvements that will enhance both quality of life and safety. The project will also encourage and provide residents with alternative forms of transportation which will reduce the number of vehicles on the road, thereby having potential carbon-reduction impacts as well.

As one of the fastest growing regions in the nation, having safe and resilient transportation infrastructure is critical to support our growth and improve the quality of life of the broader community. The project is consistent with the region's adopted 2045 Plan. MetroPlan Orlando supports this proposed RAISE project and urges your full and fair consideration.

Sincerely,

RE: **FLORIDA STATIONS PROGRAM – Kissimmee, Orlando, DeLand**  
Amtrak FY22 Federal-State Partnership for Intercity Passenger Rail Program – National Network (FSP – National Program) Grant Application

Dear Mr. Bose:

On behalf of MetroPlan Orlando, the federally designated Metropolitan Planning Organization for Orange, Osceola and Seminole Counties, it is my pleasure to provide this letter of support for Amtrak's FY22 Federal Railroad Administration (FRA) FY22 Federal-State Partnership for Intercity Passenger Rail Program – National Network Grant. The area of focus for this proposed application is to fund Final Design efforts for three Amtrak served stations in Central Florida: 1) Kissimmee, 2) Orlando and 3) DeLand. The Kissimmee and Orlando Stations are in the MetroPlan Orlando Study Area. The DeLand Station is outside the MetroPlan Orlando Study Area but is included in the River to Sea Transportation Planning Organization Study Area, our neighbors to the north. The stations allow passenger access to the Silver Service Route which is a 1,522-mile line that runs between Miami, Florida, and New York City.

The proposed project will improve passenger rail assets by reducing Amtrak's state of good repair backlog, improve passenger rail operations and performance, enhance rail safety by upgrading stations and grounds to meet ADA compliance, and making platform improvements that meet Amtrak current standards. The upgrades will increase passenger safety health and well-being along with promoting economic development and increased ridership.

Existing station equipment and component deficiencies will be addressed as part of this project. All market indicators show that strong growth will continue, with more than one million new residents expected by the year 2045. This is in addition to the 2.5 million residents already calling Central Florida home, millions of visitors, and freight trucks that deliver goods and services in our region. Transportation options, especially those that are designed to move people efficiently are encouraged by the MetroPlan Orlando Governing Board.

MetroPlan Orlando is fully supportive of the project, is confident that it will have a positive impact and improve intercity passenger rail service in our region.

If you have any questions or concerns, please feel free to contact me.

Re: MetroPlan Orlando Letter of Commitment for U.S. DOT SBIR Phase II Proposal

To the Members of the Review Committee:

SplusM LLC is submitting a Phase II proposal application entitled “22-FT2: Connecting Individuals in Food Deserts to Healthy Food” to the U.S. Department of Transportation’s SBIR program. This letter confirms the planned collaboration of MetroPlan Orlando to the deployment of the Foodways Digital Suite.

MetroPlan Orlando, the Metropolitan Planning Organization for Orange, Osceola, and Seminole Counties, supports enhancing the connectivity of Central Floridians living in food deserts to fresh food through transit options. We recently completed the Health Strategic Plan which looks at the relationship between transportation and health, including access to healthy food. Our staff has also done work on accessibility modeling to provide greater access to essential services.

In an online meeting, SplusM LLC demonstrated to MetroPlan Orlando the alpha versions of the digital suite composed of one decision support software and one mobile application. During the demonstration, SplusM LLC presented the main features and capabilities of the digital suite to address accessibility to healthy food sources in an inclusive and sustainable manner and help prevent obesity and diabetes. Such a technology could help local and regional agencies like ours better engage and collaborate with residents to develop preventative policies. We see merit in the proposed solution to help reduce food insecurity and enhance nutrition in our community.

Therefore, MetroPlan Orlando is pleased to endorse SplusM LLC’s grant proposal for the USDOT SBIR Phase II application, which aims to connect individuals to healthy food sources. We are particularly interested in piloting the proposed digital suite throughout Phase II, MetroPlan Orlando will closely collaborate with SplusM LLC on the deployment of the digital suite in Central Florida throughout Phase II.

Sincerely,

Gary Huttman, AICP  
Executive Director

RE: FY2023 City of Apopka - RAISE Grant Program

Dear Secretary Buttigieg,

On behalf of MetroPlan Orlando, the Metropolitan Planning Organization for Orange, Osceola and Seminole Counties, I am pleased to provide this letter of support for the City of Apopka 2023 RAISE Grant request for the Ocoee-Apopka Road Corridor Improvement Project. This is a critical infrastructure investment for this growing community.

The current configuration of the Ocoee-Apopka Road is a two-lane corridor that is regularly traveled by industrial, commercial, and residential vehicles. The road is critical to the area and is becoming more congested as Orange County and the City of Apopka commit to additional developments to serve the community. The Ocoee-Apopka Road Corridor needs significant infrastructure improvements to continue to serve the growing area as a primary means of business and economic distribution.

I am particularly pleased to see that the City of Apopka is planning to design and implement this project using a "Complete Streets" approach. The project is in an underserved area of the city and the addition of safety measures to ensure that all road users can safely travel the Ocoee-Apopka Road is encouraging. Traffic lights, flashing signals, and median islands will go a long way toward lowering speeds and encouraging drivers to pay more attention to pedestrians and bicyclists in the area.

I ask that you give serious and favorable consideration to this application and the regional benefits that this project will provide. Thank you for your leadership in addressing the critical transportation challenges we face.

Sincerely,

Gary Huttman, AICP

Dear Secretary Buttigieg,

On behalf of MetroPlan Orlando, the Metropolitan Planning Organization for Orange, Osceola and Seminole Counties, I am pleased to provide this letter of support for the INVEST Orlando (*Improving Neighborhood's Vitality, Equity, and Safety Today*) RAISE Application.

*INVEST Orlando* is a comprehensive initiative from the City of Orlando aimed at transforming neighborhoods in West Orlando, with a focus on increasing the transportation network and connectivity for non-vehicular users, while improving safety for residents through all forms of mobility. *INVEST Orlando* seeks to redesign the right-of-way with a neighborhood character and implement complete streets principles to create a more livable, walkable, and bikeable community.

Serving to promote transportation safety improvements, *INVEST Orlando* will include lane reallocations/repurposing, expanded pedestrian and bicycle facilities, and streetscape enhancements on key north-south and east-west roads in the neighborhood. *INVEST Orlando* will help stimulate economic development and activity by creating a more vibrant and active streetscape in an area of our city already rich in history and culture.

Thank you in advance for your favorable consideration of the City of Orlando *INVEST Orlando RAISE* grant application as it continues to build upon the initiatives the city has encouraged - equity, sustainability, ease of travel and mobility options.

Sincerely,

Subject: *City of Orlando RAISE Application – STEER Orlando (Solving Transportation Equity for Every Resident)*

Dear Secretary Buttigieg,

On behalf of MetroPlan Orlando, the Metropolitan Planning Organization for Orange, Osceola and Seminole Counties, I am pleased to provide this letter of support for the *STEER Orlando (Solving Transportation Equity for Every Resident)* RAISE Application.

Historically, areas of persistent poverty have been isolated by manmade infrastructure, resulting in limited access to essential goods and services, healthcare, and other neighboring communities not even a 10-minute walk away. This is unacceptable. *STEER Orlando (Solving Transportation Equity for Every Resident)* is a project that addresses this issue by developing a comprehensive set of projects to eliminate the barriers of asphalt and concrete that often silo a community.

STEER will develop a master plan considering recommendations of over 14 previous studies that will evaluate multi-modal connectivity between the high injury network of the western study area, including the neighborhoods of Holden/Parramore, Callahan and Lake Dot, continuing into Creative Village, an area of education options, and economic development. The STEER study area concludes with the northern portion known as Ivanhoe Village Main Street, including the neighborhoods of the North Quarter and North Orange, an area with a nearby SunRail station, shops, and healthcare only steps away.

The City of Orlando has consistently looked to advance the City Beautiful experience through innovative technology and creative solutions for all residents. *STEER Orlando* continues to build upon the initiatives the city has long encouraged - equity, sustainability, ease of travel and options.

Sincerely,

Gary Huttman, AICP
