|--|---------------------------------|---|
| Roadway Needs | Existing Priorities | Includes projects derived from the following datasets: 1. PPL_2021to2040_Point.shp; 2. PPL_2021to2040_Line.shp; 3. PDF Review of PPL and TIP. |
| | Widening | Includes needs and projects derived from the following datasets: 1. Data Model output: Top 100 corridors for widening. corridors which have been identified as a need and have a potential to widen beyond existing segment; 2. Orange County Transportation Initiative - Additions.shp; 3. Orange County Transportation Initiative - LOS_ALL_Needs_2045.shp; 4. PPL_2021to2040_Point.shp; 5. PPL_2021to2040_Line.shp; 6. Central Florida Expressway Authority - Lake_Orange_Express.shp, OsceolaCo_Loop.shp |
| | Complete Streets | Includes needs and projects derived from the following datasets: 1. Data Model output: Top 100 corridors for complete streets. Constrained corridors which score high in access & connectivity, health & environment, or investment & economy; 2. PPL_2021to2040_Line.shp; 3. Widening projects from existing plans which go beyond roadway constraints (2 and 4 lane roadways) |
| | Freight | Includes needs and projects derived from the following datasets: 1. Data Model Output, Freight Congestion Needs - Top 25 freight bottlenecks as identified within the Statewide Plan; 2. Data Model Output, Freight Parking Needs - Includes corridors which serve freight activity centers; 3. PPL_2021to2040_Point.shp |
| TSM&O | Existing Priorities | Includes projects derived from the following datasets: 1. PPL_2021to2040_Point.shp; 2. PPL_2021to2040_Line.shp; 3. PDF Review of PPL and TIP; 4. FDOT Routes of Significance |
| | Safety | Includes needs and projects derived from the following datasets: 1. Data Model output: Top 100 corridors with a safety need. Corridors which score high on safety goal criteria. Corridors may duplicate other project categories. |
| | Operational | Includes needs and projects derived from the following datasets: 1. Data Model output: Top 100 corridors with a performance & reliability need as defined by constraint and high scores on reliability goal criteria.; 2. PPL_2021to2040_Point.shp; 3. PPL_2021to2040_Line.shp; 4. FDOT Routes of Significance; 5. Widen projects from existing plans which go beyond roadway constraints (4 and 6 lane roadways) |
| | ITS / Technology | Includes needs and projects derived from the following datasets: 1. Data Model output: Top 100 corridors with an ITS/Technology need as defined by other than full management of the corridor; 2. PPL_2021to2040_Point.shp; 3. PPL_2021to2040_Line.shp |
| Transit Fixed Route & Enhanced Service | Existing Fixed Route Service | Existing LYNX fixed route system, sourced from 5/7/2020 GTFS network |
| | Potential New Service Area | Opportunities for implementation of transit service to a new area. Includes needs derived from the data-driven MTP model: 0.5-mile buffer surrounding the Top 100 corridors which serve large areas or population or employment, but do not have fixed route access. |
| | Operations Infrastructure | Infrastructure needs, including new facilities. Includes needs and projects derived from the following datasets: 1. MetroPlan Orlando FY 2024/25 - 2039/40 and Draft FY 2025/26 - 2039/40 Prioritized Project Lists; 2. FDOT 2045 SIS Multi-Modal Unfunded Needs Plan; 3. Orange County Transportation Initiative - Projects_Cities |
| | Enhanced Transit Service | Improvements to existing level of transit service, without conversion to a premium mode. Includes needs and projects derived from the following datasets: 1. Orange County Transportation Initiative - Projects_Cities; 2. MetroPlan Orlando Blueprint 2040 LRTP; 3. Orange County Transit Network Plan. Minimum headway up to 20 min R6 G76 B102 35 R9 G111 B148 60 R15 G187 B250 |
| Transit Premium & Commuter Rail Service | Commuter Rail | Regional Commuter rail needs. Includes needs and projects derived from the following datasets: 1. | | Operations Infrastructure | Infrastructure needs, including new facilities. Includes needs and projects derived from the following datasets: 1. MetroPlan Orlando FY 2024/25 - 2039/40 and Draft FY 2025/26 - 2039/40 Prioritized Project Lists; 2. FDOT 2045 SIS Multi-Modal Unfunded Needs Plan; 3. Orange County Transportation Initiative - Projects_Cities |
| | Premium Transit Service | Introduction of premium transit service to an area which has not previously been served by transit at all or by a premium mode. Premium transit services are defined by the Federal Transit Administration as “transit modes that provide higher comfort, capacity, speed and frequency than typical local bus operations or create a positive perception to users.” Projects meeting this definition include commuter rail, light rail, bus rapid transit (BRT), streetcars, etc. Includes needs and projects derived from the following datasets: 1. Orange County Transportation Initiative - Additions, Projects_Cities; 2. FDOT 2045 SIS Multi-Modal Unfunded Needs Plan; 3. MetroPlan Orlando Blueprint 2040 LRTP |
| | High Speed Rail | Includes needs and projects derived from the MetroPlan Orlando Blueprint 2040 LRTP. |
| Pedestrian + Bicycle | Critical Sidewalk Gaps | Includes sidewalk gaps in the top 25 percent based on betweenness score and proximity to amenities such as parks, schools and transit |
| | Trail / Multi-Use Path Gaps | Includes TIP/PPL/Powerline classified as SUP or Trail; Planned Trails not in the Existing Priorities; Trail opportunities identified through utility ROW opportunities |
| | Potential Crosswalk Opportunity | Includes segments that are 1,200' or more away from an existing signalized crossing AND have at least one pedestrian/Bicycle crossing related crash recorded in the past 5 years |
| | Bicycle Connection Opportunity | Includes TIP/PPL that are in street bike facilities and identified Supporting Bike Connections; and utility corridor alternatives |
| | Safety Emphasis Corridors | Includes high crash corridors identified in the Pedestrian-Bicycle Safety Action Plan |
