III. CHAIRMAN'S COMMENTS

Chairman Mercer commented that CFX had voted to proceed with the PD&Es for the Osceola Parkway east project and the Poinciana Parkway connection to I-4 to see if the projects are viable. He added that these projects are critical legs for the beltway around Central Florida. Chairman Mercer noted that Florida's Turnpike Enterprise will be holding a workshop on the extension to SR 50 on May 10th at the Doubletree UCF. He called attention to an Orlando Sentinel article which stated that Central Florida Expressway Authority was conducting their own study on a SR 50 extension, which seemed like a waste of resources on duplicate efforts.

IV. AGENDA REVIEW

Ms. Cynthia Lambert reported that under agenda item VII.C, Mr. Nick Lepp would be the presenter. She welcomed back Ms. Kellie Smith, FDOT, and welcomed Mr. Doug Robinson, LYNX, who was filling in for Mr. Myles O'Keefe. Committee members, she noted also received a Florida High Tech magazine in which Mr. Eric Hill, MetroPlan Orlando staff member, was quoted.

V. CONFIRMATION OF QUORUM

Ms. Cathy Goldfarb confirmed that a quorum was present.

VI. PUBLIC COMMENTS ON ACTION ITEMS

None.

VII. ACTION ITEMS

A. Approval of February 28, 2018 Meeting Minutes

Approval was requested of the February 28, 2018 meeting minutes, which were provided. Mr. Jeff Piggrem called attention to the omission of a CAC request to have an update on financials for SunRail. Ms. Lambert told CAC members that she is working on securing a presentation on SunRail for a future meeting.

MOTION: Mr. Jeffrey Campbell moved for approval of the February 28, 2018 meeting minutes as amended. Ms. Theresa Mott seconded the motion, which passed unanimously.

B. FDOT Amendment to FY 2017/18 - 2021/22 Transportation Improvement Program

Mr. Keith Caskey, MetroPlan Orlando staff, requested CAC recommend that the FY 2017/18 - 2021/22 Transportation Improvement Program (TIP) be amended to provide additional funding for three existing projects in the TIP and add three new projects. The existing projects included:

- railroad quiet zone project in Maitland
- Wekiva Parkway project in Seminole County
- Pomegranate Avenue safety project in Sanford

The new projects included:

- Orange County Advanced Traffic Management Phase 4
- UCF Automated Shuttle Service
- Emory Canal Bike Trail in Kissimmee

A letter from FDOT explaining the amendment request was provided, along with a fact sheet prepared by MetroPlan Orlando staff and the draft resolution which was presented at the May 9th MetroPlan Orlando Board meeting. Mr. Caskey reviewed the projects included in the request. He called attention to a typo for the UCF shuttle project noting that the amount should be \$840,000 not \$340,000. Mr. Rob McKey asked if Mr. Caskey could explain what a quiet zone was and how does it protect roadway users if no warning horn is blown. Mr. Caskey responded that the horn in a quiet zone can be sounded if there is an emergency and additional safety features are added for a quiet zone. Ms. Kellie Smith, FDOT, added that the signals are updated and quad gates are installed as part of quiet zone safety features and the whistle use needs to be justified. Mr. McKey asked about ADA accommodations at the crossings. Ms. Smith responded that FDOT looks into ADA accommodations that might be needed on all projects.

MOTION: Mr. Tony Tizzio moved for approval of the FDOT Amendments to FY 2017/18 - 2021/22 Transportation Improvement Program. Mr. Tom O'Hanlon seconded the motion, which passed unanimously.

C. Approval of Final Fiscal Year 2018/19-2019/20 Unified Planning Work Program

Action was requested by Mr. Nick Lepp, MetroPlan Orlando staff, to recommend approval of the final version of the FY 2018/19 - 2019/20 Unified Planning Work Program (UPWP). The UPWP executive summary was provided, and the full document could be reviewed online at <https://metroplanorlando.org/wp-content/uploads/DRAFT-FY2019-FY2020-UPWP-AS-OF->

[2018-02-28.pdf](#). Mr. Lepp told CAC members that the draft UPWP had been presented at the February meeting and since then minor comments had been received from the reviewing agencies. He noted that the final approved UPWP was required to be sent to FDOT by May 15, 2018.

MOTION: Mr. Brindley Pieters moved for approval of the FY 2018/19 - 2019/20 Unified Planning Work Program. Mr. Tom O'Hanlon seconded the motion, which passed unanimously.

VIII. PRESENTATIONS AND STATUS REPORTS

A. Preview of Performance Measures

Mr. Nick Lepp, MetroPlan Orlando staff, presented a preview of MetroPlan Orlando's transportation performance measures. This will be an action item at the May 23rd CAC meeting. Mr. Lepp reviewed the old planning process along with the new planning process for 2045, which will include the performance measures. He noted that the planning factors needed to match the goals and be consistent with the Long Range Plan. In terms of the new process, he reported that corridors will be identified first, ranked next and then projects will be looked at. Discussion ensued regarding equity issues, advancing of projects, federal versus MetroPlan measures and concerns about allocation of funding. Mr. Lepp told committee members that there will be some balancing of projects among the three counties. He noted that MetroPlan Orlando board and committees will have the opportunity to view the projects and the projects that have already started will advance. Additional discussion ensued in regards to what was environmental justice, adding language that states all will get a fair share and addressing mixed modes. Mr. Lepp explained that environmental justice addresses those that lack vehicles/transportation and movement was towards removing silos and addressing projects more holistically. He added that the goal was to not separate categories of projects, however regional trails and transit would still be separate and the same approved funding percentages would apply, but all projects would be on one list.

B. Presentation on Connected and Autonomous Vehicles

Mr. Eric Hill, MetroPlan Orlando staff, gave a presentation on connected and autonomous vehicles. Mr. Hill told CAC members that safety is an important factor in connected and autonomous vehicles. He reviewed National Highway Traffic Safety Administration (NHTSA) data on traffic fatalities, a majority of which were caused by human error. Mr. Hill noted that technology was constantly evolving. He reviewed the levels of automation, benefits these vehicles provide and federal and state legislation that has been enacted supporting connected and autonomous vehicles, along with USDOT policy guidance. In addition, Mr. Hill reviewed due diligence efforts on the part of locals; connected and autonomous vehicle efforts underway throughout the state of Florida; and some of the uncertainties associated with the technology. Discussion ensued regarding legal driver status, impact the technology could have on people's lives, the UCF shuttle test vehicles, what exemptions encompassed and privacy and litigation issues.

C. Presentation on Bicycle & Pedestrian Crash Data Report

Mr. Mighk Wilson, MetroPlan Orlando staff, gave a presentation on MetroPlan Orlando's latest report on bicycle and pedestrian crash data. Mr. Wilson reviewed data on crashes over the past

ten years, crash typing, safety factors when crossing mid-block, bicyclist trends and numbers, data on safety in numbers and a proposed Safety Action Plan. He requested volunteers from CAC to serve on a Safety Action Plan Working Group. Ms. Lisa Portelli, Ms. Sarah Elbadri and Mr. R. J. Mueller volunteered to serve on the Safety Action Plan Working Group which will meet in May, July and October 2018. Mr. Doug Robinson asked if others could attend the working group meetings and Mr. Wilson indicated that non-members could attend. Requests were made for the data used in the presentation. Mr. Wilson responded that he will make the data available.

D. Presentation on Travel Time Delay Study

Ms. Crystal Mercedes, MetroPlan Orlando staff, gave a presentation on MetroPlan Orlando's FY 2016/17 Travel Time Delay Study. Ms. Mercedes told committee members that 2016/17 was the second year that MetroPlan Orlando was responsible for conducting the retiming in-house. She reported that 23 corridors were retimed in 2017 (over 58 miles) and she provided a breakdown of corridors by county. Ms. Mercedes gave a retiming benefit cost analysis, using a section of Curry Ford road as an example, and provided information on the benefit cost analysis trend data from 2010 to 2017. Chairman Mercer noted that CAC has always been supportive of signal retiming efforts. Discussion ensued in regards to posted versus average speed, use of only current infrastructure, and potential longer wait time on cross streets. Ms. Mercedes responded that actual travel time at the posted speed was used. She added that one or two additional corridors could be added in the future and the city/county engineers determined the corridors that are used. Mr. Eric Hill reported that in regard to longer wait times on cross streets, it was found that any delay on the cross street was made up by the shorter travel time on the main road.

FY 2022/23 - 2039/40 Prioritized Project List
Adopted July 2017 – Updated May 2018 Based on
FY 2018/19 - 2022/23 Tentative Five Year Work Program

This is the list of highway, Transportation Systems Management & Operations (TSMO), bicycle and pedestrian and transit projects from the FY 2022/23 - 2039/40 Prioritized Project List (PPL) that was adopted in July 2017. These project lists were updated in May 2018 to highlight those projects that have had new phases funded by FDOT in the FY 2018/19 - 2022/23 Tentative Five Year Work Program. New phases funded for those projects since last year's PPL are shown in ***bold italic***. This updated list was developed for the purpose of providing a starting point for developing the list of projects to be included in the FY 2023/24 - 2039/40 PPL.

The figures shown in the Estimated Remaining Cost column for the highway projects are present-day cost estimates provided by FDOT.

During even numbered years, the PPL must be adopted by the MetroPlan Orlando Board and submitted to FDOT by September. During odd numbered years, the PPL must be adopted by the MetroPlan Orlando Board and submitted to FDOT by July due to the early start for the Florida legislative session the following year.

FY 2023/24 Funding Allocation Estimates

Surface Transportation Program (SU) funds = Approx. \$27.6 million (Annual average of SU funds programmed from FY 2018/19 through 2022/23)

32% of \$27.6 million for Highway Projects = \$8.8 million

30% of \$27.6 million for Transit Projects = \$8.3 million

21% of \$27.6 million for TSMO Projects = \$5.8 million

17% of \$27.6 million for Bicycle & Pedestrian (Enhancement) Projects = \$4.7 million

District Dedicated Revenue (DDR) funds = Approx. \$99.3 million (Annual average of DDR highway funds programmed from FY 2018/19 through 2022/23) (***Note:** Beginning in FY 2020/21, MetroPlan Orlando will allocate up to 30% of DDR funds for the operation of the premium transit projects specifically identified in the 2040 LRTP that are ready to utilize the funding. The remaining DDR funds will be combined with the SU funds for the highway projects.*)

National Highway System (NHS) funds = Approx. \$157.2 million (Annual average of NHS funds programmed from FY 2018/19 through 2022/23)

Transportation Regional Incentive Program (TRIP) funds = Approx. \$20.9 million (Annual average of TRIP funds programmed from FY 2018/19 through 2022/23)

^① This project would involve providing truck rest stop areas with adequate capacity in suitable locations, either on I-4 or in close proximity to I-4 with convenient access. FDOT is currently conducting a study to identify potential locations for truck rest stop areas along I-4 throughout FDOT District 5 (Orange, Osceola, Seminole and Volusia Counties).

^② Although they are outside the MetroPlan Orlando region, the I-4 Beyond the Ultimate projects from the Seminole/Volusia Co. line to SR 472 in Volusia County and from west of US 27 to the Polk/Osceola County Line in Polk County are included in MetroPlan Orlando's PPL for information purposes in order to show the entire length of the I-4 Beyond the Ultimate improvements.

① Context Sensitive improvements are non-capacity projects designed to improve traffic flow on constrained roadways without adding lanes. These projects can include such improvements as bicycle & pedestrian facilities (bike lanes, wider sidewalks, etc.), transit improvements (bus rapid transit/BRT, designated transit lanes, bus bays and shelters, etc.) as well as minor intersection improvements, landscaping and drainage improvements that help improve traffic flow on existing roads without adding capacity.

① Those projects that are candidates for state funds for only the PD&E and/or design (PE) phases have cost estimates available just for those phases. The full cost estimates for these projects will eventually also include the right-of-way (if applicable) and construction phases, and these full cost estimates will be shown on this list once they have been provided by the local jurisdictions. Once the full cost estimates for these projects have been provided, the projects may eventually be reprioritized in order to maximize funding equity among the three counties.

① The Pine Hills Trail Phase 3 and Clarcona-Ocoee Trail projects will help close the gaps in the Coast-to-Coast Trail system within the MetroPlan Orlando area. As a result, MetroPlan Orlando considers these to be high-priority projects, and has placed these projects at the top of the bicycle & pedestrian section of the PPL without priority numbers, since they are candidates for special funding that could become available and will not be competing for SU funds with the other projects on the list.

② MetroPlan Orlando's policy for School Mobility projects is that 20% of the share of Surface Transportation Program (SU) funds for bicycle & pedestrian projects and Transportation Alternative (TALU) funds be set aside each year for these projects. The TAC has recommended that the School Mobility projects be ranked separately since there is a specific federal funding category for these projects. The statewide and district-wide TALU funds are directed toward regionally significant trail projects.
