Chairwoman Elbadri said that she had shared CAC members' concerns regarding a Turnpike widening project in West Orange County at the September MetroPlan Orlando Board meeting. She noted board members received a Brightline presentation, along with an I-4 Ultimate presentation. Chairwoman Elbadri called attention to the new board room AV equipment, because some members in attendance had not yet had the opportunity to use it. Some brief instruction was provided on using the equipment.

IV. AGENDA REVIEW

Ms. Mary Ann Horne noted that due to the current pandemic situation, the decision was made to conduct hybrid meetings with a quorum in person for the remainder of the year. Ms. Horne called attention to the legislative priorities document in the agenda packet. She told CAC Members that Ms. Virginia Whittington was not able to give a presentation on the priorities at the meeting due to a scheduling conflict. Ms. Horne reported that the Florida AV Summit was being held November 29th to December 1st at the Rosen Shingle Creek, not at CFX. She told CAC members that Mr. Douglas Henley had resigned from CAC due to new employment commitments. New CAC member recruitment

would be taking place at the end of the year, and she asked if any members were not able to continue serving to please let staff know. Ms. Horne noted there were some changes in the order of the agenda that Chairwoman Elbadri would help walk members through.

V. CONFIRMATION OF QUORUM

Ms. Lisa Smith conducted the attendance roll call and confirmed that an in-person quorum was not in attendance at that time.

VI. PUBLIC COMMENTS ON ACTION ITEMS

None.

VII. ACTION ITEMS

Ms. Chacon provided background on the project noting that FDOT was looking at critical areas that needed to be advanced. She told CAC members that there were new tools available to evaluate opportunities to add capacity such as managed lane policy versus

the express lane policy, options with managed lane separation and size and cost of projects. Ms. Chacon added that projects were identified through the process, and some were already planned. She said a potential westbound bottleneck had been identified, and an interim solution was being called the “tube,” a continuous westbound express lane that would bypass interchanges. Ms. Chacon provide a graphic illustration of a typical section of the interim single westbound express lane, along with information about other identified projects and the delivery plan. Mr. Todd Helton provided additional information on the individual projects and the design-build procurement process. Discussion ensued regarding whether construction would be temporary, possible use of the tube lane before project completion, why the tube is only westbound, effect of tube project on business access and transit stops, the reasons for expediting the amendment request, and whether the project would preclude a rail corridor.

C. Presentation on Federal Stimulus Projects - taken out of order

FDOT staff, he added, looked at projects that were ready and each district compiled its own list. Mr. Tyler noted that District 5 received \$300 million in stimulus funds, and the MetroPlan Orlando tri-county area received \$125 million of that funding. He reported that once the list is announced, FDOT will be working on procurement. Local projects include I-4 Beyond the Ultimate South projects and two interchange projects in I-4 Beyond the Ultimate North. Discussion ensued regarding vehicle-miles-traveled fee funding, response numbers overall and among the three counties, future dissemination and uses of survey information, and strategies for reducing the number of drivers who engage in unsafe behavior. Additional discussion ensued regarding inadequacy of gas tax funding, the future of self-driving vehicles, transit riders' access to jobs, lack of dedicated funding for transit, lack of knowledge of transit options in more remote areas such as Poinciana, and media reporting on self-driving vehicles' crashes and safety factors.

B. Presentation on Florida's Turnpike Widening PD&E Study

Ms. Jazlyn Heywood, Atkins, gave a presentation on the Project Development and Environment (PD&E) study for the widening project on Florida's Turnpike from SR 408 to SR 50. Board Action Fact Sheet

Meeting Date: December 8, 2021

Agenda Item: X - A

Roll Call Vote: Yes

Action Requested:

The Florida Department of Transportation (FDOT) requests approval of an amendment to the 2045 Metropolitan Transportation Plan (MTP).

Reason:

The project, Hicks Avenue (formerly Terry Avenue) Extension, located in the Griffin Park Historic District, was originally included as part of the I-4 Ultimate project because the Ultimate configuration removed/relocated ramps and now provides the opportunity to construct an extension of Hicks Avenue from Gore Street to Anderson Street with complete street features, including two roundabouts, bicycle and pedestrian facilities, and drainage ponds.

FDOT has determined that the project will now be let and constructed as a separate project outside the I-4 Ultimate Concessionaire Agreement. As described in the letter found in the Supporting Information, FDOT has requested the Hicks Avenue project be added to the 2045 MTP's Cost Feasible Plan. To ensure planning consistency, Table 6 (Interstate Highway/Strategic Intermodal System) of the Cost Feasible Plan will be revised to include the new reasonably available revenue and associated project listing.

Summary/Key Information:

Requested amendments to be made exclusively to Table 6 found in the *Cost Feasible Plan* documentation of the adopted 2045 MTP. Items of particular significance for Committees and the Board are as follows:

- New reasonably available revenue/funds in the amount of \$6,028,242 added to Table 6 within 2020-2025 planning period.
- New fully-funded project to be included in Table 6:
 - Hicks Avenue (formerly Terry Avenue Extension) from Gore Street to Anderson Street. Project Description: Extension of Hicks Ave including Complete Streets design, two (2) roundabouts, and drainage ponds. Construction funded in 2020-2025 planning period.

Dear Mr. Huttman:

RE: Request to Amend Adopted 2045 Metropolitan Transportation Plan (MTP)

The Florida Department of Transportation (FDOT) requests MetroPlan Orlando amend the Adopted 2045 MTP to accommodate changes to project as part of the I-4 Ultimate Program. Hicks Avenue (formerly Terry Avenue) Extension **FM# 432193-5** was first added to the I-4 Ultimate project in 2013 as requested by the City of Orlando. This project will help reconnect the Griffin Park Historic District, which had previously been surrounded by the SR 408 interchange ramps which separated it from neighboring communities and neighborhoods. This project is possible since the I-4 Ultimate project will remove the ramps and provide the opportunity to construct an extension of Hicks Avenue from Gore Street to Anderson Street with complete street features, including two roundabouts, bicycle and pedestrian facilities, drainage ponds, and the much needed and desired connection between neighborhoods. During 2020, FDOT worked closely with the City of Orlando as it planned and designed this project to achieve the goal of creating complete streets and enhancements to reconnect these neighborhoods and community which will support further residential development and continuity.

The project will be constructed as its own segment outside of the I-4 Ultimate Concessionaire Agreement and has gone through extensive public engagement and community outreach since 2015 when the City of Orlando developed the Parramore Comprehensive Neighborhood Plan. The project has received support from the Parramore Community Engagement Council and City Commissioner Regina Hill. A community outreach and education plan has been developed which includes a website containing videos, images, and handouts. A media release about the improvements has been planned in conjunction with the City of Orlando's community event. Community Open House dates are scheduled for December 7, 9, and 14, 2021. The City of Orlando will also participate in the outreach.

Details about this project should be reflected in the LRTP as follows:

FM #432193-5

Project Name	Project Limits	Description	Phase	Cost and Funding Source	Time Band

Please make sure that the amendment date is reflected on the cover page of the adopted LRTP document, and the amended information is reflected in the Cost Feasible Plan and other affected pages regarding these projects.

Mr. Huttman reported on continued coordination efforts with FDOT Leadership and Work Program staff on stimulus funding. Mr. Huttman informed Board Members that late on Friday, November 5, 2021, the US House of Representatives approved the \$1.2 trillion bipartisan infrastructure bill. He stated that the BIF, among other things, contains a full reauthorization of the federal surface transportation program (currently called the FAST Act). The President is expected to sign the bill into law soon. There is a lot to the Bill and more will be learned in the coming weeks. He noted that he will participate in an educational session on the Bill with the NARC team after today's Board meeting. Mr. Huttman touched upon an email forwarded to Board members earlier in the week from Mr. Charles Small, from Intergovernmental Affairs with the Office of the US DOT Secretary, with highlights of the BID. He mentioned key elements of the Deal that is of particular interest to staff: safety, public transportation and rail, EV charging, roads, coordinating housing and transportation, and pilot programs to replace the gas tax. Mr. Huttman reported that the FDOT on-line work program was held during the week of October 25-29. He mentioned that he attended the in-person hearing at the District Office on October 28. Mr. Huttman informed that staff was not able to reach consensus on a date/time that worked for our Executive Committee members to meet and discuss legislative issues but that he and Ms. Virginia Whittington, Director of Regional Partnerships, did meet with each of the members individually to go over legislative items. He announced that the automated vehicle summit is scheduled in Orlando from November 29-December 1. He briefly reviewed the information placed in the supplemental folders, which included a corrected set of the September meeting minutes which did not properly reflect Board members that were physically in attendance.

LYNX and Regional Partners to Test Orlando International Airport to Downtown Orlando Zero Emission Trip

[Home](#) | [News and Events](#) | LYNX and Regional Partners to Test Orlando International Airport to Downtown Orlando Zero Emission Trip

The Central Florida Regional Transportation Authority (LYNX) will operate a month long zero-emission pilot project utilizing electric buses between the region's largest airport, convention center and downtown Orlando.

The project will run Nov. 8-Dec. 4 using ABC Companies Van Hool electric bus motor coach with stops at Orlando International Airport, Sand Lake Road SunRail Station (weekdays only), Orange County Convention Center and Destination Parkway SuperStop. This route will operate as FASTLINK ZERO. Customers will be able to transfer to an electric Proterra bus on Link 38 at the Destination Parkway SuperStop and travel downtown to LYNX Central Station, where they can hop on an electric LYMMO Orange Line bus to the Orange County Administration Building or Orlando City Hall.

The project's focus will be to demonstrate the potential of an electric bus zero-emission trip that will enhance the passenger experience with more direct connections throughout the region. Currently, LYMMO buses began transitioning to an all-electric fleet in October 2020. The LYMMO fleet will be fully electric in mid-2022.

A detailed map and schedule is available on golynx.com.

The FASTLINK ZERO route will not operate on Nov. 25, Thanksgiving Day.

Project partners are Orange County Government, City of Orlando, Orange County Convention Center, the Orlando Utilities Commission and the Central Florida Expressway Authority.

A REGIONAL TRANSPORTATION PARTNERSHIP

Memorandum

November 23, 2021

To: Community Advisory Committee
From: Mighk Wilson, Bicycle & Pedestrian Planner
Subject: December 2021 Bicycle & Pedestrian Activity Update

City of Casselberry

Construction of pedestrian projects for Queens Mirror Circle and Quail Pond Circle is underway, with construction to be completed in early 2022. The Quail Pond Circle project features a new shared use path connection between Lake Concord Park and N. Sunset Drive. Queens Mirror Circle will receive speed feedback signs and RRFB's (rectangular rapid flashing beacons).

Construction of the Lake Kathryn Circle Complete Street Improvements project is anticipated to commence in early 2022. This local sales tax funded project will narrow the road to promote traffic calming and free up space for an eight foot wide sidewalk and landscaping improvements.

City of Longwood

Construction has begun on the Cross Seminole Trail Connector Project. The project includes shared lane markings and new sidewalk with some sections of shared use path to connect the Longwood SunRail station to Seminole County's Cross Seminole Trail on General Hutchinson Parkway. The project is approximately 2 miles long and runs along E. Church Ave. and N. Grant Street past the Longwood Candyland Park and Arbor Dog Park, then connects to Timocuan Way and the Cross Seminole Trail. The project cost is \$985,714 and will take about 9 months to complete.

Town of Oakland

The Town is completing a Complete Streets Design Plan for Oakland Avenue and Tubb Street that includes landscape, streetscape, sidewalks, crossings and roundabouts. Also, new, lower speed limits are to be established at 25 MPH for main streets, 20 MPH for local paved streets and 15 MPH for unpaved roads.

Osceola County

The pre-construction meeting for Fortune-Lakeshore Trail is scheduled for December 1, 2021. The construction is expected to last approximately 19 months.

The Kissimmee-St. Cloud Trail project is advancing to 100% plans.
