2045 Metropolitan Transportation Plan (MTP)

Overview of Proposed Plan Revisions

February / March 2022

Reason for Amendment / Modification:

MetroPlan Orlando staff is proposing these Plan Revisions to better reflect rising transportation infrastructure costs in the 2045 MTP's Cost Feasible Plan. In addition, based on project implementation best practices, federally funded TSM&O projects were bundled following Federal Highway Administration guidance. MetroPlan Orlando staff is also taking this opportunity to address feedback and requests received from agency partners.

Changes to Technical Reports / Documentation:

Requested amendments and modifications will be made to the *Cost Feasible Plan: Strategies, Programs, and Projects* documentation of the adopted 2045 Metropolitan Transportation Plan, as follows:

- 1. Amendment** – Tables 9, 11, 12, 13, 15, 16, 17, and 18 updated based on unit/project phase cost changes to each tables' Cost Model. Table 4 also updated to reflect updated cost parameters. The existing project Cost Model (an excel look-up calculation based on a project's length, type, and phase) found in each budget allocation table currently generates lower than average design and construction phase costs. MPO staff identified this issue during routine monitoring of the FDOT Work Program then conducted an analysis to determine more refined phase/unit costs based on observations of the FDOT Work Program; and then updated the 2045 MTP's Cost Model parameters. No changes to project rankings / implementation order with the exception of Table 11 as described in amendment #4 below. As a result of the cost increases, 50 federal/state funded projects moved from Plan Period 1 (2026-2030) and Plan Period 2 (2031-2035) to Plan Period 3 (2036-2045) while only one federal/state funded project is no longer cost feasible by 2045.
- 2. Modification** – Table 6 (SIS projects) and Table 9 (SHS projects) – SR 60 from Grape Hammock Rd to Kissimmee River Bridge (ID# 2255) was moved from Table 9 to Table 6 to reflect the project's status on the Strategic Intermodal System (SIS) and associated funding eligibility.
- 3. Amendment** – Table 8 (Florida's Turnpike Enterprise projects) revised to include eight new fully funded projects and one unfunded need to reflect the Turnpike Enterprise's Work Program. Projects are funded utilizing toll revenues, resulting in no impacts to existing cost feasibility of state or federally funded projects. Letter requesting changes enclosed for additional information and project specifics.
- 4. Amendment** – Table 11 (TMA-TSM&O) updated to include new project bundles considering FHWA project bundling/implementation guidance and feedback received from local agency partners. Project costs also revised based on unit/project phase cost changes to the table's project cost model (referenced in #1). Project bundling procedure resulted in changes to cumulative rankings and associated costs which impacted the Plan's existing cost feasibility.
- 5. Modification** – Table 11 (TMA-TSM&O) revised to include project limits consistent with the Osceola County TSM&O Strategic Plan. The purpose of this request was to update the Old Canoe Creek Rd & Canoe Creek Road (ATMS 7) project limits to be 1) Canoe Creek Rd from US 192 to Deer Run Rd, and 2) Old Canoe Creek Rd from US 192 to Pine Tree Dr.

6. **Modification** – Table 12 (TMA-Complete Streets) revised to include updated project limits for North St Complete Streets project. Based on a recently completed study, the project has been split into two phases: 1) from Raymond Ave to Palm Spring Dr, and 2) from Palm Springs Dr to CR 427/Ronald Reagan Blvd.
7. **Amendment** – Table 13 (TMA-Pedestrian/Bicycle) revised to include one new unfunded project: Wekiva Trail Phase 4b from Wekiva Parkway to Kelly Park Rd. No changes to existing project rankings.
8. **Amendment** – Tables 15 (Transit projects) expanded to include local initiative and service development projects. City of Altamonte Springs' ITS/CAV Shuttle projects removed from Table 11 (TMA-TSMO) and added to Table 15. In addition, Orange County's I-Drive Transit Lanes project was added to Table 15 with PD&E funded in the existing TIP, while Preliminary Engineering (PE), project construction, and operations/maintenance remain unfunded needs. Costs based on the projected construction and O&M costs defined in the final Orange County study report. No changes to existing project rankings or impacts to cost feasibility.
9. **Modification** – Table 16 (Orange County locally funded projects) revised to be consistent with local plans to include two new local projects: 1) Complete Street w/ Transit Lanes - Tradeshow Blvd from Universal Blvd to Destination Pkwy with Preliminary Engineering (PE) funded in the existing TIP while all other phases remain unfunded based on existing sources. Costs per phase based on the project costs defined in the County's final study report. 2) New 4-Lane Roadway - All American Blvd from Clarcona-Ocoee Rd to Kennedy Blvd. In addition, due to funding eligibility requirements, non-state highway system projects located on John Young Parkway were removed from Table 9 (SHS projects) and added to Table 16. No changes to existing project rankings.
10. **Modification** – Table 18 (Osceola County locally funded projects) revised to include project limits consistent with the Osceola County TSM&O Strategic Plan. The purpose of this request was to update project specific Intelligent Transportation System (ITS) infrastructure needs. No changes to existing project rankings.

Board Action Fact Sheet

Meeting Date: March 9, 2022

Agenda Item: IX.C (Tab 4)

Roll Call Vote: No

Action Requested:	Approval of the Draft Unified Planning Work Program (UPWP)
Reason:	The UPWP is a two year document that represents the MetroPlan Orlando working budget. It is one of the required documents that all MPOs must prepare and receive Board approval.
Summary/Key Information:	MPOs in the State of Florida are required to prepare a UPWP every two years. The UPWP defines in very general terms the work that the MPO staff will be doing over the planning period. Some of the tasks will be done with the assistance of our General Planning Consultants. For those tasks a more detailed Scope of Services is approved by the Federal Highway Administration before any work can be done.
MetroPlan Budget Impact:	The UPWP is the MetroPlan Orlando working budget
Local Funding Impact:	None
Committee Action:	CAC: N/A TSMO: N/A TAC: N/A MAC: N/A
Staff Recommendation:	Recommends approval of Draft UPWP for submittal to FDOT.
Supporting Information:	Staff will present the Draft UPWP with updated tasks

Board Action Fact Sheet

Meeting Date: March 9, 2022

Agenda Item: VIII.G. (Tab 1)

Roll Call Vote: No

Action Requested: Acknowledgement of MetroPlan Orlando's Annual Certification Report prepared by FDOT/D5.

Reason: MetroPlan Orlando undergoes a certification review each year. This is to ensure that MetroPlan Orlando is complying with all federal and state laws governing the transportation planning process, to identify noteworthy practices, to identify areas requiring additional attention and to evaluate the federal-state-regional partnership.

Summary/Key Information: The report covers a range of topics selected by FDOT/D5. A new format was implemented creating more dialogue between within the certification. This and the fact that MetroPlan Orlando staff can now provide responses to questions electronically are very positive steps that have been taken by the Department.

Another feature with this new format is the Risk Assessment Process pertaining to finances and invoicing. Based on the criteria established by the Department and with the business practices established by MetroPlan Orlando, we were given a Risk Assessment Point Total of "0" which is the best possible score. This will result in monitoring our invoices on an annual basis, rather than more frequently as will be done with higher risk organizations.

Local Funding Impact: None

[Home](#) | [News and Events](#) | LYNX to Receive \$300,000 Federal Transit Administration Grant
The Central Florida Regional Transportation Authority (LYNX) has been notified it will receive a \$300,000 grant from the Federal Transit Administration (FTA) Pilot Program for Transit-Oriented Development (TOD) Planning.

This nationwide funding program of \$11 million has been awarded to 20 projects in 12 states. Each project will support President Joe Biden's call to combat climate change, advance environmental justice and promote equitable delivery of benefits to underserved communities.

LYNX will use the grant funding to construct nine proposed bus rapid transit stations along 6.25 miles of SR 436 near Orlando.

"The Central Florida community will be extremely grateful that we received this grant award for our bus rapid transit stations project," said LYNX CEO, James (Jim) E. Harrison, Esq., P.E. "This grant funding will play a pivotal role in our continued commitment to improving the efficiency of our services, and we are confident that it will prove beneficial to increasing our access in the communities we serve."

Funding through the FTA's TOD program will help organizations nationwide plan for transportation projects connecting communities and improving access to transit and affordable housing.

Support from U.S Reps. Stephanie Murphy (FL-07), Darren Soto (FL-09) and Val Demings (FL-10) has helped LYNX secure the grant funding through a competitive process.
