MetroPlan Orlando  
ATTN: Mr. Gary Huttman, Executive Director  
250 South Orange Ave., Suite 200  
Orlando, FL 32801

Dear Mr. Huttman:

**RE: Request to Modify Adopted Transportation Improvement Program (TIP) for Fiscal Years (FY) 2021/22 – 2025/26**

The Florida Department of Transportation (FDOT) requests MetroPlan modify the Adopted TIP for FY 2021/22–2025/26 to match the project information provided below. Since this increase is more than \$2M and 20% of the total project phase cost, an amendment to the TIP is needed.

An additional \$3.2M (approximately) of federal (ACNP) was added to the construction phase (phases 52 and 62) of this project in the current fiscal year due to a cost estimate increase for construction, materials, maintenance of traffic, and mobilization. Please note other in-house state and local funds are included with the information in the table below, which are not presently reflected in the TIP and do not impact fiscal constraint of the TIP.

FM#	Project Description	Phase	Phase Group	Fund Code	Year	Current TIP	Proposed Amount
432193-5	Hicks Avenue (formerly Terry Avenue) Extension	CST	52	ACNP DDR LF	2022	\$5,788,000	\$8,117,091
							\$ 85,486
			59	DIOH			\$ 115,488
						\$ 304,442	
			61	DIH		\$ 26,000	\$ 5,650
			62	ACNP			\$ 957,625
						\$ 39,297	
						\$9,645,079	

The project limits have been adjusted to support the water management district permitting. FDOT is currently reevaluating necessary fees to Reedy Creek Improvement District (RCID) to have an agreement signed for the additional water directed to RCID. It was determined that we will not be able to meet the deadline for this reevaluation with the addition of the west-bound express lane.

FM#	Project Description	Current TIP Project Length	Proposed Project Length
441113-1	I-4 (SR 400) at Daryl Carter Parkway Interchange	3.03	1.78

Please make sure that the date the TIP is amended is reflected on the cover page of the adopted TIP document. The project page should display the amended project information, the amendment date and a page number.

As always, feel free to contact me with any questions.

Sincerely,

Anna Taylor

Additional enhancements include upgraded LED lighting, roadway narrowing and installation of speed bumps to ease traffic flow and security fencing. Currently five bus routes (Links 9, 23, 106, 302 and 443) use the site daily. Before the COVID-19 pandemic there were roughly 1,000 riders using the transfer facility each weekday.
