RE: Request to Amend Fiscal Year (FY) 2022/23-2026/27 Transportation Improvement Program (TIP)

Dear Mr. Huttman:

Florida Department of Transportation requests MetroPlan Orlando amend the FY 2022/23-2026/27 TIP to reflect project changes as described below.

Project #246572-2 is a transit project funded through the FTA 5307 program. The project has received additional funding in FY 2023 and therefore a TIP amendment is needed so authorization on the funds can be obtained.

To prepare for the new state fiscal year beginning on July 1, 2023, we have identified projects programmed in FY 2024 also requiring amendments to the current TIP. FDOT is requesting the TPO act on amending the additional FY 2024 projects listed in the table below.

Project #445694-1 received an additional funding increase of more than \$2M and 20% to adjust for cost estimate increases and inflationary factors. Authorization for use of federal funds is needed during the first quarter of FY 2024 to keep the project on schedule in production.

Projects #450531-1 and #450583-1 are projects programmed in FY 2024 and are requested to be added to the current TIP and prevent delay of production. Authorization for use of federal funds is needed during the first quarter of FY 2024 to keep the projects moving forward. These projects are included in the FY 2024-2028 TIP.

Please use the information below to revise the TIP pages for these projects accordingly:

Note: The value for NO₂ in 2023 is due to construction occurring in the area during a three-day period. According to the Orange County Environmental Protection Division, this is considered a valid exceedance with acceptable rationale. Because attainment is derived from a three-year average, the outlier should not impact the region's attainment status.
