A short video was shown of the visit.

**IV. AGENDA REVIEW**

Ms. Cynthia Lambert, MetroPlan Orlando informed the committee that she was the staff liaison for the meeting today in the absence of Ms. Mary Ann Horne, who will return for the next meeting. She reiterated the need for a quorum of 16 members in the room.

Ms. Lambert continued to share there will be an action item today, establishing a subcommittee to select officers for 2024. She asked if any members would like to put themselves forward for an officer role, to please advise Ms. Mary Ann Horne, prior to November 1<sup>st</sup>. She also confirmed how the subcommittee will meet.

Ms. Lambert reported the start of the Brightline service which began on September 22, running 30 trains a day between Orlando and Miami. She then introduced Ms. Maria Padovani, the new Fiscal Manager at MetroPlan Orlando. Following on, Ms. Lambert shared that MetroPlan Orlando had undergone their Federal Certification and received no corrective actions. She thanked Committee Members who had contributed.

As is required after the Census every ten years, Ms. Lambert detailed the adjustments to the Board makeup due to changes in population. Two voting seats were added to the Board – an additional one for Orange County and also St. Cloud. In addition, the Board agreed to add a new non-voting seat to the Orlando Executive Airport. She confirmed the process with the plan now going to the Governor's office for sign off.

Ms. Lambert highlighted FDOT mobility week which begins on October 27 and runs through November 4 and shared where to find more information.

Mr. Mighk Wilson presented this month's Safety Moment and stated that October is Pedestrian Safety Month. Mr. Wilson shared statistics of Pedestrian Crash Factors. He reported that on-going research at the University of Western Michigan studies found a significant number of nighttime crashes were happening in areas with dark spots. He identified that speed and darkness are the biggest challenge in pedestrian safety. Mr. Wilson then gave pedestrian safety recommendations when walking in the dark, including using the light on your cell phone to alert drivers of your presence. A comment was made by the committee regarding people driving in the rain and without headlights. Another concern raised was the language used by the media and law enforcement after crashes, so avoiding the appearance of victim blaming and highlighting there are usually many contributing factors to any crash.

A committee member inquired if policy changes were being considered, for example stopping traffic on both sides of the street to allow Lynx bus passengers to cross safely. In addition, a discussion ensued inquiring if projects currently funded were included in the Vision Zero plan, and if from recent discussions those plans were adjusted to positively impact safety. Further clarification was requested with regards to policy changes and if that meant transportation design, zoning etc. Discussions continued with regards to identifying or recording when ebikes were involved in crashes and the need for regulation of ebikes.

A comment was made requesting a breakdown of the corridors which made up the High Injury Network. Also, the need for Poinciana to be included in the plans, particularly because of the significant increase in population and crashes. # 2045 Metropolitan Transportation Plan (MTP)

## Overview of Proposed Plan Revisions

December 2023

### Reason for Amendment / Modification:

The Federal Highway Administration (FHWA) and the Florida Department of Transportation (FDOT) have provided guidance relating to “consistency between planning documents” and the relationship of the MTP to the Transportation Improvement Program (TIP) and FDOT Work Program. Per FHWA guidance, a snapshot of the adopted TIP, including state and federal projects funded in advance of 2026, must be included in the Cost Feasible Plan’s budget allocation tables.

To proactively maintain compliance with state and federal long range planning requirements, MetroPlan Orlando staff is proposing the following revisions to the 2045 MTP to include fully funded TIP projects in the existing-plus-committed network consistent with the current TIP. In addition, new federal revenue allocations and discretionary funding grants awarded to the region will be incorporated. MetroPlan Orlando staff is also taking this opportunity to address feedback and requests received from agency partners.

### Changes to Technical Reports / Documentation:

Requested amendments and modifications will be made to the *Cost Feasible Plan: Strategies, Programs, and Projects* documentation of the adopted 2045 Metropolitan Transportation Plan, as follows:

1. **Modification** – Federal and state funded projects within the TIP were added to the Cost Feasible Plan’s budget allocation tables. The TIP projects were included in Table 6, 9, 11, 12, and 13, and are identified by an MTP ID that begins with “EC”. The update and addition of these TIP projects did not impact existing cost feasible projects.
2. **Amendment** – Table 18 (Osceola County and Municipality Locally Funded projects) – A Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Discretionary Grant of \$1,200,000 has been awarded to the City of St. Cloud and has been included in the Cost Feasible Plan for planning consistency (MTP ID#8147).

# Fiscal Year 2022/23

## Federally Obligated Funds

*for Orange, Osceola, and Seminole Counties, Florida*

November 2023

# Transportation Projects for Which Federal Funds Were Obligated During Fiscal Year 2022/23

This document contains a list of transportation projects in the MetroPlan Orlando region (Orange, Osceola, and Seminole Counties) for which federal funds were obligated during Fiscal Year 2022/23 (FY 2022/23) and may indicate funds spent or removed/reduced on certain projects. This has no impact on funding of projects in the current Transportation Improvement Program (TIP). This was prepared to meet a federal requirement for Metropolitan Transportation Organizations (MPOs) under Title 23, Chapter 1, Subchapter E, Part 450.334 of the Code of Federal Regulation, which states:

*(a) In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a list of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C Chapter 53 were obligated in the preceding program year.*

*(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.*

*(c) The listing shall be published or otherwise made available in accordance with the MPO's public participation criteria for the TIP.*

This pertains to the fact that the federal fiscal year runs from October through September while the fiscal year of most MPOs runs from July through June. As a result, those projects for which funds were obligated during July through September 2023 would be shown as programmed during FY 2022/23 according to the federal fiscal year but would be shown as programmed during FY 2023/24 according to the MPO fiscal year. Therefore, this legislation ensures that the projects in each MPO's TIP for which federal funds were obligated during the preceding fiscal year are published in a list that matches the federal fiscal year time period.

Projects can be found on the following pages of this report, organized by County:

- Interstate Projects ..... pages 5-6
- State Highway Projects ..... pages 7-9
- Toll Road Projects..... pages 10
- Traffic Operations and Safety Projects ..... pages 11-13
- Bicycle and Pedestrian projects ..... pages 14-15
- Planning projects ..... pages 16
- Aviation projects, Transit and Transportation Disadvantaged projects, and Commuter Rail projects ..... pages 17-19

The amounts of federal funding for these projects and the funding sources (codes) are shown in separate columns on the spreadsheets. Many of these projects also utilized funds from state and local sources, which are not shown in this document. The explanations for the funding codes and project phases contained in this document are shown on pages 3-4.

A REGIONAL TRANSPORTATION PARTNERSHIP

November 21, 2023

**To:** Board and Committee Members  
**From:** Gary Huttman AICP, Executive Director  
**Subject:** 2023 Population Estimates

The official 2023 population estimates were recently released by the University of Florida's Bureau of Economic and Business Research (BEBR).

The attached table compares the 2022 population estimates with the 2023 population estimates for our three-county region, as well as for our neighboring counties and the State of Florida. The original BEBR statewide 2023 population estimates are available at <https://bebr.ufl.edu/population/population-data/>, and archived population estimates and associated data can be accessed at <https://www.bebr.ufl.edu/population/population-data-archive/>.

Highlights are as follows:

- From 2022 to 2023, there was a 1.20% increase in the population of our three-county area – roughly half the percentage increase for the 2021-2022 report. This is an increase of more than 28,694 new residents – which is nearly the current population of the City of Casselberry.
- In our three-county region, Osceola County continued to have the highest rate of growth (3.36%).
- The Orange County municipality with the largest percentage increase was the City of Belle Isle (2.80%, 197 residents), and the municipality with the largest numerical increase was the City of Orlando (1.58%, 5,084 residents).
- The Osceola County municipality with the largest percentage increase and numerical increase was the City of St. Cloud (1.09%, 666 residents).
- The Seminole County municipality with the largest percentage increase was the City of Longwood (3.23%, 514 residents), and the municipality with the largest numerical increase was the City of Sanford (2.11%, 1,336 residents).

The 2023 population figures will be used to develop our Unified Planning Work Program and budget for the upcoming year.
