A REGIONAL TRANSPORTATION PARTNERSHIP

**Transportation Projects for Which Federal Funds
Were Obligated During FY 2018/19**

November 2019

(This page intentionally left blank)

Transportation Projects for which Federal Funds Were Obligated During FY 2018/19

This document contains a list of transportation projects in the MetroPlan Orlando region (Orange, Osceola and Seminole Counties) for which federal funds were obligated during FY 2018/19. This was prepared in order to meet a federal requirement for MPO's under Title 23, Chapter 1, Subchapter E, Part 450.334 of the Code of Federal Regulations, which states:

(a) In metropolitan planning areas, on an annual basis, no later than 90 calendar days following the end of the program year, the State, public transportation operator(s), and the MPO shall cooperatively develop a listing of projects (including investments in pedestrian walkways and bicycle transportation facilities) for which funds under 23 U.S.C. or 49 U.S.C. Chapter 53 were obligated in the preceding program year.

(b) The listing shall be prepared in accordance with §450.314(a) and shall include all federally funded projects authorized or revised to increase obligations in the preceding program year, and shall at a minimum include the TIP information under §450.326(g)(1) and (4) and identify, for each project, the amount of Federal funds requested in the TIP, the Federal funding that was obligated during the preceding year, and the Federal funding remaining and available for subsequent years.

(c) The listing shall be published or otherwise made available in accordance with the MPO's public participation criteria for the TIP.

This pertains to the fact that the federal fiscal year runs from October through September while the fiscal year of most MPOs runs from July through June. As a result, those projects for which funds were obligated during July through September 2019 would be shown as programmed during FY 2018/19 according to the federal fiscal year, but would be shown as programmed during FY 2019/20 according to the MPO fiscal year. Therefore, this legislation ensures that the projects in each MPO's TIP for which federal funds were obligated during the preceding fiscal year are published in a list that matches the federal fiscal year time period.

The highway projects are shown on pages 4-7, Transportation Systems Management and Operations projects are shown on pages 8-9, bicycle and pedestrian projects are shown on pages 10-11 and planning projects are shown on page 12. These categories of projects are all listed by county. In addition, the transit and aviation projects are shown on pages 13 and 14 respectively. The amounts of federal funding for these projects and the funding sources (codes) are shown in separate columns on the spreadsheets. (Many of these projects also utilized funds from state and local sources, which are not shown in this document.) The explanations for the funding codes and project phases contained in this document are shown on pages 2-3.

Federal Funding Sources (Codes)

CM	Congestion Mitigation
DU	State Primary/Federal Reimbursement funds
ER17	Emergency Recovery FY 2016/17
FAA	Federal Aviation Administration funds
FTA	Federal Transit Administration funds
GFSA	General Funds STP – Any Area
HSP	Highway Safety Program funds
NH	National Highway System funds for principal arterials
NHEX	National Highway Performance Program Exempt funds
NHPP	National Highway Performance Program funds
NHRE	Resurfacing Set-Aside from NHPP funds
PL	Federal planning funds
RED	Redistribution of Federal Allocation
REPE	Repurposed Federal Earmarks
RHH, RHP	Federal Rail-Highway Crossings funds
SA	Surface Transportation Program funds with no population restrictions
SE	Surface Transportation Program Enhancement funds
SP	Federal Railroad Protective Device funds

SR2S	Safe Routes to School Infrastructure funds
SU	Surface Transportation Program funds for urban areas of over 200,000 population
TALT/TALU	Federal Transportation Alternative Funds
TIMP	Transportation Improvements
TSM	Transportation System Management and Operations

Project Phases

CST	Construction -- highway project phase
ENV	Environmental Mitigation – FDOT highway project phase pertaining to filing permits with the St. Johns Water Management District and the Florida Department of Environmental Protection regarding the acquisition of environmentally sensitive land for highway improvements.
MISC	Miscellaneous
MNT	Maintenance
PD&E	Project Development and Environmental Study -- the project phase scheduled prior to preliminary engineering for highway projects
PE	Preliminary Engineering (design) -- highway project phase
PLN	Planning
ROW	Right-of-Way Acquisition
RRU	Railroad Utility Construction
