PROMPT PAYMENT

The Organization will ensure that the following requirements will be placed in every USDOT-assisted contract and subcontract:

(A) Every contract let by the MPO for the performance of work shall contain a provision requiring the prime contractor, before receipt of any progress payment under the provisions of such contract, to certify that the prime contractor has disbursed to all subcontractors and suppliers having an interest in the contract their pro rata shares of the payment out of previous progress payments received by the prime contractor for all work completed and materials furnished in the previous period, less any retainage withheld by the prime contractor pursuant to an agreement with a subcontractor, as approved by the MPO for payment. The MPO shall not make any such progress payment before receipt of such certification, unless the contractor demonstrates good cause for not making any such required payment and furnishes written notification of any such good cause to both the MPO and the affected subcontractors and suppliers.

(B) Every contract let by the MPO for the performance of work shall contain a provision requiring the prime Contractor, within 30 days of receipt of the final progress payment or any other payments received thereafter except the final payment, to pay all subcontractors and suppliers having an interest in the contract their pro rata shares of the payment for all work completed and materials furnished, unless the Contractor demonstrates good cause for not making any such required payment and furnishes written notification of any such good cause to both the MPO and the affected subcontractors or suppliers within such 30-day period.

Each invoice on a contract with DBE participation will be required to be submitted on our standard invoice format requiring DBE breakout and the above Prompt Payment statement attached to it.
