

QUALITY ASSURANCE TASK FORCE AGENDA

April 22, 2022 @ 10:00 a.m.

QUALITY ASSURANCE TASK FORCE MEETING MEETING NOTICE

DATE & TIME: Tuesday, April 26, 2022 at 10:00 a.m.

LOCATION: MetroPlan Orlando

David L. Grovdahl Board Room

250 South Orange Avenue, Suite 200

Orlando, FL 32801

Welcome back to in-person meetings at MetroPlan Orlando!
This meeting is taking place at our office. Please plan your participation accordingly.

PUBLIC ACCESS: To join the meeting from your computer, tablet or smartphone, please use this link: https://us02web.zoom.us/j/87217459595?pwd=bC9YU3ILR0g1Q0g3VDBsa1JMWGZTUT09

Passcode: 087655

Agenda

- I. Call to Order Ms. Marilyn Baldwin, Chairwoman
- II. Pledge of Allegiance
- III. Chairperson's Comments Ms. Marilyn Baldwin
- IV. Roll Call/Confirmation of Quorum Ms. Lisa Smith
- V. Announcements and Agenda Review Ms. Virginia Whittington
- VI. Public Comments on Action Items

Comments from the public pertaining to Action Items on this agenda will be heard at this time. People wishing to comment virtually should use the Raise Hand feature on the Zoom platform, and a meeting host will prompt you to unmute your microphone to speak. Each speaker should state his or her name and address for the record. People wishing to speak in person must complete an Electronic Speakers Introduction Card. Each speaker is limited to two minutes. People wishing to speak on items of a general nature will be acknowledged in the same way, under Agenda Item X.

VII. Action Items

A. Election of QATF Vice-Chairperson

The Quality Assurance Task Force is asked to select a Vice-Chairperson to replace Ms. Crystal Ford who tendered a resignation due to an employment change.

B. Review and Recommendation of Draft TDSP Minor Updates

(TAB 1)

Presenter: Ms. Trish Whitton, LYNX

Ms. Trish Whitton will review the proposed minor updates to the 2020-2025 Transit Development Services Plan (TDSP) and request QATF recommend approval to the full TDLCB. The draft TDSP along with an overview of the recommended changes are at Tab 1.

C. Review and Recommendation of Draft Human Services Transportation Plan (HSTP)

Presenter: Ms. Sheila Maldonado, LYNX

Ms. Sheila Maldonado will review the proposed updates to the 2022 Draft Human Services Transportation Plan (HSTP) and request QATF recommend approval to the full TDLCB. The draft was transmitted to the TDLCB by email March 17, 2022. The Draft HSTP can be accessed at: https://metroplanorlando.org/wp-content/uploads/2-LYNX-HSTP-2022-Update-as-of-3.15.22 Draft.pdf

D. Review and Recommendation of Rate Calculation Worksheet

(Tab 2)

Presenter: Ms. Trish Whitton, LYNX

Ms. Trish Whitton will review the proposed Rate Calculation worksheet and request QATF recommendation to accept the rate calculations to the full TDLCB.

ACCESS LYNX TD RATES					
Type of Trip	FY 2021-22 Rates	FY 2022-23 Rates	Percentage Change		
Ambulatory	\$41.94	\$40.90	(.025%)		
Wheelchair	\$71.90	\$70.11	(.025%)		

VIII. Presentations

A. LYNX/Community Transportation Coordinator (CTC) Update

Presenter: Mr. Norm Hickling

Mr. Norm Hickling, ACCESS LYNX, will provide an update on current and ongoing ACCESS LYNX operations. The CTC report will be provided separately.

IX. Member Comments

X. Public Comments (General)

Comments from the public of a general nature will be heard at this time. People wishing to comment virtually should use the Raise Hand feature on the Zoom platform, and a meeting host will prompt you to unmute your microphone to speak. Each speaker should state his or her name and address for the record. People wishing to speak in person must complete an Electronic Speakers Introduction Card. Each speaker is limited to two minutes.

XI. Adjournment

Public participation is conducted without regard to race, color, national origin, sex, age, disability, religion, or family status. Persons wishing to express concerns, who require special assistance under the Americans with Disabilities Act, or who require language services (free of charge) should contact MetroPlan Orlando by phone at (407) 481-5672 or by email at info@metroplanorlando.org at least three business days prior to the event.

La participación pública se lleva a cabo sin distinción de raza, color, origen nacional, sexo, edad, discapacidad, religión o estado familiar. Las personas que deseen expresar inquietudes, que requieran asistencia especial bajo la Ley de Americanos con Discapacidad (ADA) o que requieran servicios de traducción (sin cargo) deben ponerse en contacto con MetroPlan Orlando por teléfono (407) 481-5672 (marcar 0) o por correo electrónico info@metroplanorlando.og por lo menos tres días antes del evento.

Transportation Disadvantaged Service Plan (TDSP) 2022 Annual Update Plan Revisions

Listed below are the revisions to the TDSP Annual Update, including a brief description of the modification and the associated page number. In addition to the revisions listed below, the document was also revised to reflect minor formatting changes.

• <u>Development Plan</u>

- Updated TDSP Certification Chairperson Signature page (page 1)
- TDLCB Roster updated to most recent February 2022 version (pages 2 – 5)
- Introduction updated COVID vaccination and testing trips (page 8)
- Revised Human Services Transportation Plan year to reflect current update (page 11)
- Updated LYNX Org Charts (pages 17-18)
- Updated Figure 4 Service Area map (page 19)
- Consistency Review of other plans section updated (pages 20-22)
- TDLCB certification updated to most recent March 2022 version (pages 23-24)

- LYNX Service area demographics and associated text and tables updated (pages 25-31)
- Labor Force and unemployment section and associated table updated (pages 32-33)
- Table 4 Major trip generators updated to reflect 2021 (pages 34-35)
- Needs Assessment section updated to reflect deployment of the new bus stop accessibility technology (page 46)
- Goal, Objectives, Strategies Status update on progress – (pages 49-53)
- Implementation Plan
 - Revised implementation schedule (pages 54-58)

Service Plan

- ADA program eligibility section updated to include permanent (continued) eligibility and certification by licensed professional – (pages 67-68)
- Trip prioritization breakdown of subscription and demand response trips to show 2021 breakdown for TD trips only - (page 73)
- Taxi trips removed (page 74)
- Number of replacement vehicles updated (page 75)
- Table 10 most recent provider information updated (pages 79-80)
- Table 11 and 12 Paratransit and NeighborLink vehicle inventories updated (pages 82-89)
- System Safety Program Plan certification updated (page 92)

- Service Standards call hold time discussion updated (page 109)
- MyACCESS text messaging capabilities added (page 110)

• Cost/Revenue Allocation

 Table 14 – CTD calculated rates updated for FY22/23 (page 112)

Quality Assurance

- CTC and Planning Agency Evaluation Process (pages 113-114)
- Attachment 2 New ACCESS LYNX ADA application added (pages 149-152)
- Attachment 5 Most recent Grievance Procedures included (pages 164-172)

Transportation Disadvantaged Service Plan Orange, Osceola, and Seminole Counties Minor Update 2022

INTRODUCTION

The Transportation Disadvantaged Service Plan (TDSP) reflects LYNX's commitment to maintain and improve transportation services for the Transportation Disadvantaged (TD) and serves as a framework for transit service performance evaluation.

As the Community Transportation Coordinator (CTC) for Orange, Osceola, and Seminole counties, LYNX is responsible for meeting the transportation needs of older adults, individuals with lower incomes, and individuals with disabilities through the arrangement of quality, cost-effective and efficient, transportation services within its service area. The TDSP is required State of Florida Commission for the by the Transportation Disadvantaged (CTD) and approved by the Transportation Disadvantaged Local Coordinating Board (TDLCB). The TDSP outlines a strategy for meeting the state of Florida requirements through service planning, development and implementation of transportation resources and includes the following sections.

- Development Plan
- Service Plan
- Quality Assurance Section
- Cost/Revenue Allocation and Rate Structure Justification

As part of this TDSP annual update, the Development Plan has been revised to include the latest needs assessment relating to TD services and progress updates for the goals, objectives, and strategies as well as the implementation plan. The rate model summary and worksheets have also been updated and included to reflect FY 2022.

This annual update also highlights some of the progress and accomplishments over the last year while providing transportation services during the COVID-19 pandemic. In the role of the CTC, LYNX staff provided over 1,000 COVID-19 vaccination and testing trips in support of Orange and Osceola Counties.

I. Development Plan

The Development Plan component of the TDSP outlines the goals and objectives for delivery of the TD services in Orange, Osceola, and Seminole Counties. The data presented herein reviews the history, current programming, and plans for the continued delivery of quality TD services.

A. Introduction to Service Area

1. Background of the Transportation Disadvantaged Program

The purpose of the Transportation Disadvantaged Program is to ensure the availability of efficient, costeffective, and quality transportation services for the transportation disadvantaged population throughout the State of Florida. The program was established shortly after FDOT and the Department of Health and Rehabilitation Services (HRS) entered into an interagency agreement in the mid-1970's to address concerns about duplication and fragmentation of transportation services. The mandate to coordinate transportation services designed to meet the needs of the transportation disadvantaged was enacted in 1979 as Florida Statute Chapter 427. This statute defines the transportation disadvantaged as:

"...those persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or children who are handicapped or high-risk or at-risk as defined in Section 411.202, Florida Statutes."

The Coordinating Council was established within FDOT to implement the Transportation Disadvantaged Program. The CTD, established as an independent commission, replaced the Coordinating Council in 1989, when the Florida Legislature made extensive modifications to Chapter 427. The Commission was authorized to hire its own staff and allocate funding for specialized transportation services available through the new Transportation Disadvantaged Trust Fund (TDTF), the source of which was a fifty-cent license tag fee.

Federal Level Roles and Responsibilities

As a federally funded fixed route transit system, and in accordance with the 1964 Civil Rights Act, LYNX is required to offer complementary transit service to persons with disabilities who live within 3/4 mile of the fixed route system and are unable to use the service due to a disability. Transportation Disadvantaged efforts were significantly strengthened by Executive Order (EO) 13330 on the Coordination of Human Service Programs issued by President George W. Bush on February 24, 2004. This EO created an interdepartmental Federal Council on Access and Mobility to reduce duplication among federally-funded human service transportation services, increase the efficient delivery of such services, and expand transportation access for older individuals, persons with disabilities, and persons with low-income within their own communities.

In August 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), created a requirement for a locally-developed, coordinated public transit/human services transportation planning process. Starting in Federal Fiscal Year 2007, projects funded under three Federal Transit Administration (FTA) programs must be derived from a locally developed coordinated public transit-human services transportation plan. The minimum required plan contents include:

- Identification of current providers and services;
- Assessment of transportation needs of older adults, persons with disabilities, and individuals with lower incomes, as appropriate;
- Identification of strategies and/or activities to address those needs and service gaps; and
- Implementation priorities, based on time, resources and feasibility.

In July 2012, Congress authorized the Moving Ahead for Progress in the 21st Century Act (MAP-21); with its provisions taking effect October 1, 2012. One of the impacts of MAP-21 was the consolidation of the Section 5316 Job Access and Reverse Commute (JARC) into the Urbanized Mass Transit Formula Program (section 5307) and the Rural Transit Formula Funding Program (Section 5311). The New Freedom (Section 5317) grant program was incorporated into the Section 5310 grant program. MAP-21 continues the provision that projects selected for funding must be included in the Locally Developed and Coordinated Human Services Transportation Plan.

LYNX completed an update to its Human Services Transportation Plan concurrently with this annual update to the TDSP. The 2022 LYNX Human Services Transportation Plan has been incorporated into this TDSP as Attachment 6.

Local Level Roles and Responsibilities

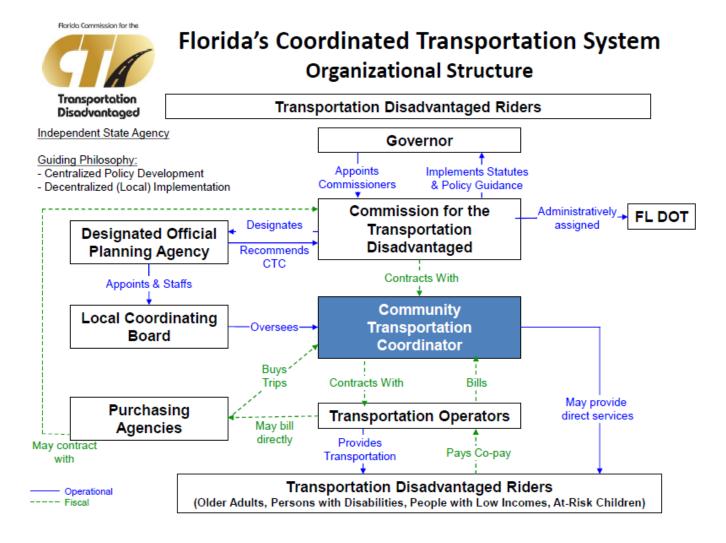

MetroPlan Orlando, the local Metropolitan Planning Organization (MPO) is the Designated Official Planning Agency (DOPA) appointed by the Commission. MetroPlan Orlando is required to establish the TDLCB to provide information, advice, and direction to the CTC. MetroPlan Orlando performs this role with its TDLCB which reviews and makes recommendations on the delivery of TD services for Orange, Osceola, and Seminole counties. The TDLCB meets quarterly, at a minimum, to review and provide recommendations on service, safety, eligibility, and grievances which may be brought to them regarding the service delivery. The TDLCB is also responsible for reviewing and approving the five-year TDSP and the associated annual updates at the local level. After TDLCB approval, the CTD completes the TDSP review and approval process.

Upon approval by the TDLCB, as CTC, LYNX may subcontract or broker transportation services to private transportation operators. LYNX is also responsible for short-range operational planning, administration, monitoring, coordination, arrangement, and delivery of transportation disadvantaged services originating within their designated service area. The CTC reviews all Transportation Operator contracts annually before renewal, to ensure the effectiveness and efficiency of the operator and to determine compliance with the standards of the Commission. Community

Transportation Coordinators also have the following powers and duties:

- Collect annual operating data for submittal to the Commission.
- Review all transportation operator contracts annually.
- Approve and coordinate the utilization of school bus and public transportation services in accordance with the transportation disadvantaged service plan.
- Review all applications for local government, federal, and state transportation disadvantaged funds, and develop cost-effective coordination strategies.
- Establish priorities with regard to the recipients of non-sponsored transportation disadvantaged services that are purchased with TDTF dollars.

Figure 1: Transportation Disadvantaged Program Concept Chart

2. Community Transportation Coordinator Designation Date and History

LYNX has been the designated CTC for Orange, Osceola, and Seminole Counties since October 1, 1992. The Florida Commission for the Transportation Disadvantaged entered into a Memorandum of Agreement (MOA), dated September 14, 1992, with LYNX to assume coordinator duties and approve the Trip/Equipment Grant for LYNX to provide non-sponsored transportation to the transportation disadvantaged persons in the area.

Consistent with the national trends and the elimination of state-sponsored provision of transportation services for Medicaid clients, in March 2015, ACCESS LYNX stopped providing Medicaid services, as a result of Medicaid transitioning to Management Care organizations providing transportation services.

LYNX provides TD trips using the ACCESS LYNX paratransit service. ACCESS LYNX operates under the Mobility Services Division of LYNX. Passenger trips are provided using LYNX paratransit vehicles. However, individuals who can utilize non-ACCESS LYNX vehicles may be offered trips through Transportation Network Companies (TNCs) or taxi services in an effort to provide passengers with various mobility options.

3. Organizational Charts

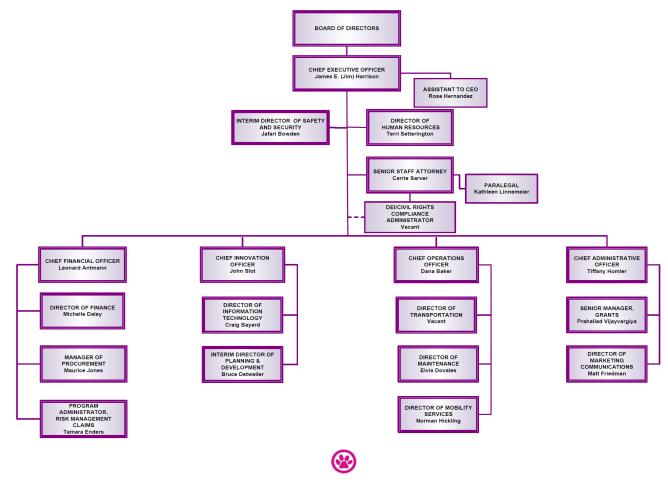

LYNX's paratransit partnership is the result of a cooperative effort among LYNX, funding partners, advocates, system users, and elected officials from throughout the three-county area.

Following are organizational charts for the LYNX and LYNX's Mobility Services Division.

In addition to the Mobility Services Division organizational chart, all service providers report to the Director of Mobility Services.

Figure 4 presents the LYNX service area.

Figure 2: LYNX Organizational Chart

LYNX ORGANIZATIONAL CHART March 21, 2022

Figure 3: Mobility Services Organizational Chart

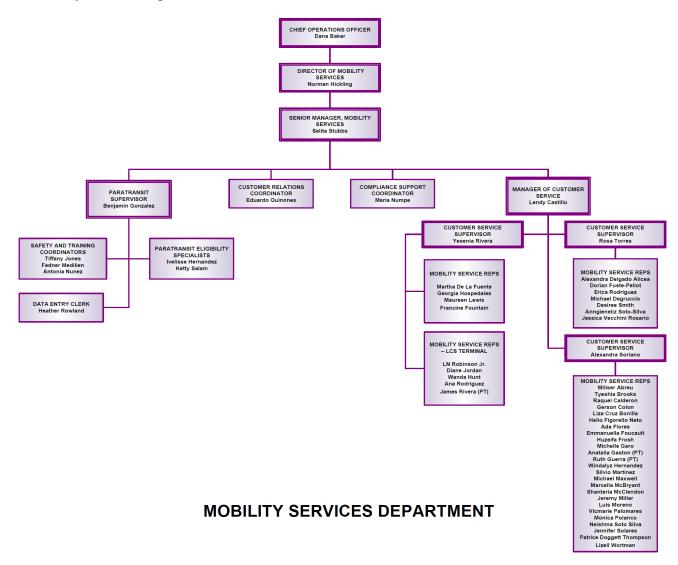

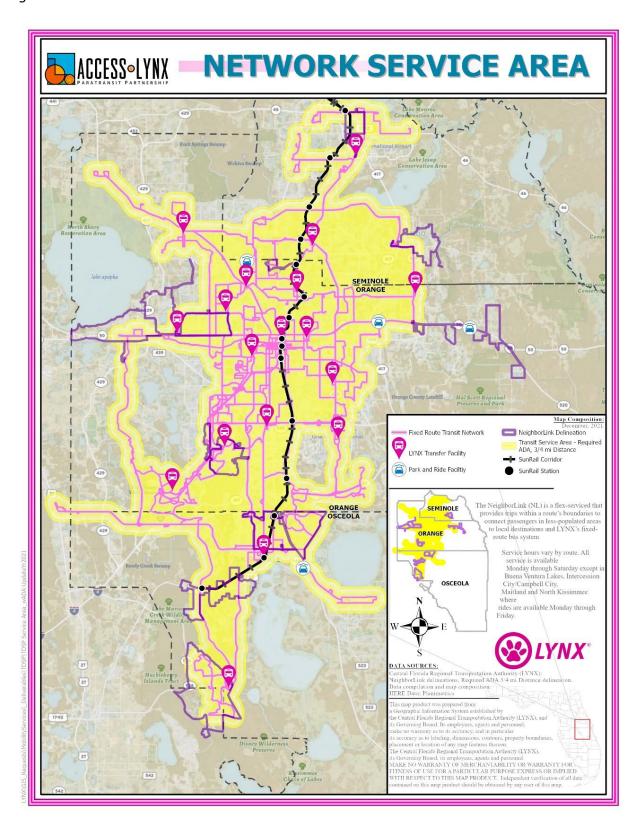

Figure 4: Service Area

4. Consistency Review of Other Plans

As required for the TDSP, LYNX has reviewed various local planning documents to ensure consistency among the planning processes and collaborative efforts of LYNX and MetroPlan Orlando (the DOPA/MPO for Orange, Osceola, and Seminole counties). This section documents the review of the following documents:

 LYNX Transit Development Plan Major Update 2018-2027. As a major component of this document, a Route Optimization Study (ROS) was identify recommendations completed to restructure the LYNX fixed route and NeighborLink of these services. Some recommendations included route realignments, new (including NeighborLink expansion), expanded service, increased frequencies, increased hours of service, and related new and paratransit and TD service. Capital project types include fleet replacement, passenger facility upgrade/expansion, ADA facility upgrades, maintenance/support facility upgrade/expansion, and technology/software systems deployment.

In addition, transit policies from the Orange, Osceola, and Seminole County comprehensive plans were reviewed and summarized as part of the development of the LYNX TDP to ensure consistency.

- LYNX Transit Development Plan (Annual Update completed in August 2021), which presents LYNX's operating and associated capital improvement plan for the next ten-year period and is intended to guide the activities, priorities, and budgets of the organization. The current TDP annual update covers fiscal years 2022 through 2031. This plan reviews the past year's accomplishments and includes any necessary revisions as well as the addition of a new 10th year.
- Commission for the Transportation Disadvantaged Five (5) Year / 20 Year Plan, which sets forth the goals and objectives of the state in administering the TD Program.
- MetroPlan Orlando's Long Range Transportation Plan (LRTP), 20-year plan, developed with LYNX, FDOT, and other regional partners. The 2045 LRTP was adopted in December 2020. The 2045 Plan will be guided by five overarching goals that together advance the vision for a regional transportation system that safely and efficiently moves people and goods through a variety of options that support the region's vitality.
 - Safety & Security Provide a safe and secure transportation system for all users.
 - Reliability & Performance Leverage innovative solutions to optimize system performance.

- Access & Connectivity Enhance communities and lives through improved access to opportunities.
- Health & Environment Protect and preserve our region's public health and environmentally sensitive areas.
- Investment & Economy Support economic prosperity through strategic transportation investment.
- MetroPlan Orlando's Transportation Improvement Program (TIP), the five-year implementation plan for the region to support transportation projects. Projects included in the FY2021/22-2025/26 TIP were reviewed to ensure consistency with this TDSP annual update.

B. Service Area Profile and Demographics

1. Service Area Description

The TD service area for LYNX consists of three counties: Orange, Osceola, and Seminole. Together they constitute approximately 2,574 square miles in the Central Florida area. Orange County accounts for 908 square miles; Osceola County is 1,322 square miles; and Seminole County 344 square miles. Service is provided throughout the tri-county area and includes the communities of Orlando, Kissimmee, Sanford, Altamonte Springs, Lake Mary, Apopka, Ocoee, Winter Park, Maitland, Longwood, Oviedo, St. Cloud, Winter Springs, Winter Garden, Walt Disney World and other area attractions.

2. Demographics

Land Use

The Central Florida region has been moving towards a renewed emphasis on the use of transit and pedestrian supportive land use mixes in new projects on key corridors as well as an improved jobs-to-housing Local municipalities have begun balance. implementing smart growth best practices and are transit-oriented development, encouraging redevelopment, mixed-use neighborhood and development.

More recently, Florida is experiencing a housing crisis that has worsened due to the COVID-19 pandemic. According to the Florida Housing Coalition 2021 Home

Matters report, rural areas in Florida are the most affordable places to live. However, when the cost of transportation in those areas is considered, some of the rural areas have the highest living costs in the state. The maximum share of income that can be affordably allocated for housing costs is considered to be 30 percent. According to the Florida Housing Coalition, over 70 percent of Florida low-income renter households are cost burdened and 45 percent are severely cost burdened. There are not enough affordable to low-income rental units to meet demand, with only 25 affordable and available units per every 100 extremely low income renters.

Population and Composition

There is no one-size-fits-all transit approach that can be applied in every metropolitan area across the country. Therefore, it is important to understand the make-up and demographics of the community that transit intends to serve. This includes understanding the makeup and location of underserved populations, minorities, elderly and younger groups, and income levels. Table 1 includes the demographic summary of the LYNX service area by county.

The demographic summary was developed using the most recently completed demographic dataset provided by the U.S. Census Bureau, the 2016-2020 American Community Survey (ACS) 5-Year Estimates. The 2020 Census data will be released imminently and

used to develop the demographic review included in the TDSP Major Update next year.

Table 1: LYNX Service Area Demographic Summary

		ange unty	Osceola County		Seminole County		Total Service Area

Note: 2016-2020 American Community Survey

As shown in Table 1, the total estimated population for the three counties is 2,204,145, a decrease of 2 percent from the demographics included in the 2021 TDSP annual update that was based on 2019 ACS estimates. The total number of housing units also decreased by 2 percent while the number of occupied units and renter-occupied units slightly increased.

When comparing the results of the population distribution by age group from the previous TDSP to the demographic summary included in Table 1, the distribution remains consistent.

Underserved populations have a higher potential for public transit use. Classifying areas as underserved is based on aggregating several factors that are typical indicators of disadvantaged groups. These factors include population below poverty, zero-vehicle households, minorities, population under 18 and over the age of 65, as well as population with limited English proficiency. Federal law requires that transit agencies meet Title VI, environmental justice (EJ) and limited English proficiency (LEP) mandates, making it important to ensure that areas with high proportions of minorities and non-English speakers are not excluded from participation in, be denied the benefit of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

Population below poverty is one of the primary components in determining underserved populations.

The concentrations of residents in this situation are consistent with the underserved population. Income by itself is one of the leading influencers in travel decisions. Thirty-five percent of renter households with incomes below 30% of the average median income (extremely low-income, or ELI) have no vehicle at home, including 58% of ELI renters age 75 and older. Due to less disposable income available, research shows that low income households are less likely to own one vehicle per licensed driver or able to make fewer discretionary trips, and therefore, may be more dependent on public transit, particularly for non-essential or recreational trips.

According to the Bureau of Economic and Business Research (BEBR), Florida continues to be one of the fastest growing states in the nation. Over the past decade, Florida's population increase was the second largest, with Texas having the largest population growth. There has been a continuing population shift to the South and West regions of the United States.

According to BEBR, Osceola County was one of four Florida counties that grew by more than 30 percent and is ranked highest, among all Florida counties, for growth from 2010 to 2020, with an increase of 44.7 percent. Orange County was one of nine counties that grew by 20 to 30 percent. More than half of the state's population growth occurred within nine counties, including both Orange and Osceola Counties.

The projections shown in this section start with the County population estimate constructed by BEBR for April 1, 2021. Projections were made for each county using five different techniques. After 2021, the projections were made in five-year increments using five different techniques (linear, exponential, share-of-growth, shift-share, and constant population) and three historical base periods.

More detail on the methodology can be found in "Projections of Florida Population by County, 2025-2050, with estimates for 2021" by Stefan Rayer and Ying Wang in Florida Populations Studies, Volume 55, Bulletin 192 (February 2022).

Table 2: Population Projections (BEBR Medium Series)

	Cen	sus			Projected				
County	2010	2021	% Change between 2010 and 2021	2025	2030	2035	2040	2045	% Change between 2021 and 2045
Orange	1,145,956	1,373,784	19.88%	1,577,700	1,704,700	1,807,000	1,893,400	1,969,000	43.33%

Note: BEBR Projections of Florida Population by County, 2025–2050, with Estimates for 2021

As reported in the last year's TDSP annual update, Osceola County continues to have the highest projected growth in comparison to Orange and Seminole counties.

Labor Force and Employment

In the past years, the Central Florida labor market has continued to improve from an unemployment rate of 9.1 percent in 2014 decreasing to 3.8 percent in 2022. The most recent data available is from the January 2022 U.S. Bureau of Labor Statistics reporting for the Orlando-Kissimmee-Sanford Metropolitan Area. The unemployment rate decreased from 4.1 percent in 2019 as reported in the previous TDSP update.

Another factor impacting the labor force in Osceola, Orange and Seminole Counties is the availability of affordable housing units. According to the National Association of Builders Housing Opportunity Index 2020 Q3 report, the Orlando-Kissimmee-Sanford Metropolitan Area ranked 162 for affordability when compared to 237 metro areas nationwide.

The importance of public transit and transportation for low-income, elderly and disabled clients is compounded due to the lack of affordable housing located near transit routes and facilities. It is estimated that low-income workers spend more than 30 percent of their income on transportation costs. Given the reality of the Orlando metropolitan region housing-to-jobs mismatch, the critical services provided by

ACCESS LYNX and other LYNX transit services are even more essential today, than in past years.

Table 3 shows the January 2022 labor force and unemployment rates for the State of Florida and the Orlando-Kissimmee-Sanford Metropolitan Area.

Table 3: Labor Force and Unemployment

Civilian Labor Force and Unemployment (January 2022)								
Area	Civilian Labor Force	Number Unemployed	Unemployment Rate					
Orlando-Kissimmee-Sanford Metropolitan Area	1,369,200	52,500	3.8%					
State of Florida	10,448,500	363,800	3.5%					

Source: Bureau of Labor Statistics, January 2022

3. Major Trip Generators

Prior to the COVID-19 pandemic, many major tourist attractions, shopping centers, and the Orlando International Airport were major trip generators on the LYNX system and reported in the TDSP. Some of the major destinations are listed below.

- Walt Disney World
- Sea World
- Universal Studios

- International Drive
- Downtown Orlando
- Mall at Millenia
- Fashion Square Mall
- Altamonte Mall
- Florida Mall
- Oviedo Crossings
- Seminole Town Center
- West Oaks Mall
- Colonial Mall
- Winter Park Village
- Winter Garden Village at Fowler Groves

Major non-work related trip generators include dialysis, medical, personal / recreational, education / training / adult daycare, and shopping. Dialysis trips account for approximately 80 percent of all transportation disadvantaged trips provided by ACCESS LYNX. Currently, LYNX provides service to 47 renal dialysis centers in the tri-county region. Table 4 contains a list of the major trip generators for TD trips provided in the tri-county region. Shown is the name of the facility and the number of annual trips for that destination in the most recent 12-month period. While not typical, the number of trips to the dialysis centers slightly declined from 2019 to 2020 due to COVID-19. This annual TDSP update reporting period shows an increase in dialysis trips from 75 percent to 80 percent.

Table 4: Major Trip Generators by Location (2021)

Service Analysis

Forecasts of TD Population

The State of Florida recognizes two categories of transportation disadvantaged persons. The first category consists of persons who have a disability or low-income status, but who also may have some access to self-supported transportation, or are eligible for transportation services under dedicated federal, state, or local funding sources.

The second category of transportation disadvantaged persons are those who meet Florida's statutory definition of transportation disadvantaged, which includes those who, because of age, income, or disability, cannot provide for or arrange their own transportation. While this distinction may seem subtle, the intent of the Florida Legislature is to ensure that trust fund monies are used specifically for those persons who cannot be sponsored under other funding sources, so that our truly disadvantaged citizens receive the services they need.

Tables 5 through 7 are the projected TD population figures developed by CUTR through the Methodology Guidelines for Forecasting TD Transportation Demand at the County Level, and reported in the Florida Statewide Transportation Disadvantaged Plan Population Demand and Forecasts. Table 5 presents potential TD population forecasts by market segment

by county. Table 6 presents TD population forecasts by market segment by county. Table 7 forecasts, by county, the number of trips that will be demanded and supplied.

Summary

The tables presented in this section displays the forecasts of the general and critical need TD population for Orange, Osceola, and Seminole counties. The projections are based on BEBR data. As shown in the tables using pre-pandemic population projections, trip demand is expected to increase over the projected period for all three counties.

Needs Assessment

By definition, the Transportation Disadvantaged are those persons who, because of physical or cognitive disability, income status, or age or who for other reasons are unable to transport themselves, or to purchase transportation and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high risk.

As LYNX expands its portfolio of transportation providers, customers have access to modes of transportation best suited for their needs. LYNX offers a demand response program to those TD customers who cannot provide for their own transportation and are not able to access fixed-route service.

The transportation needs among all segments of the Transportation Disadvantaged population are constantly growing and are anticipated to grow even more. This growth rate is occurring at a much higher rate than the growth of funding for these services. For these reasons, LYNX in collaboration with the TDLCB and the TD application review working group, updated the TD program eligibility process for screening customers. After researching and reviewing eligibility processes from other agencies, the working group established that TD eligibility will be based on meeting **two of the three** following criteria.

- Have no access to a fixed route.
- Have a disability.
- Have an income level at or below 185 percent of the Federal Poverty level.

LYNX will also continue efforts to transition customers off of the costlier paratransit service to fixed-route bus service and TNC trips, when appropriate and efficient. This is accomplished through incentive programs, needs assessments, and travel training efforts which will continue to be engaged by LYNX staff in response to the shift from a traditional paratransit model to the mobility management model.

As the CTC, LYNX coordinates services required by the Americans with Disabilities Act of 1990 (ADA) with TD services to increase efficiencies and opportunities for multi-loading. LYNX has expanded the ADA paratransit eligibility process to include an assessment of an individual's capacity to make use of the fixed-route bus service as well. This decision is critical for containing costs by ensuring that individuals take advantage of the flexibility that fixed-route bus service offers to the maximum extent possible. Through a critical evaluation of services, LYNX determined that this assessment would be best provided by a qualified organization, experienced in physical rehabilitation, patient evaluation and transit services. Accordingly, LYNX contracts with ADARide.com, which utilizes Select Physical Therapy to provide eligibility assessments for clients.

LYNX also developed a General Transit Feed Specification (GTFS) that provides real time and static feeds of bus stop accessibility information to outside vendors, such as Google. The GTFS also provides passengers with data on sidewalk available and any changes to wheelchair accessibility at the bus stops ahead of their trip.

In addition to the needs identified above, in coordination with the TDSP major update process, LYNX updates its Human Services Transportation Plan to identify the needs of older adults and individuals with disabilities. This plan is based on a comprehensive public outreach process and derived from public input relating to the coordination of transportation services. The plan development process provides an opportunity to identify the needs and develop potential solutions/projects that may be considered as funding

becomes available through the Section 5310 grant. The plan and public participation documentation were updated consistent with this TDSP minor update and are included as Attachment 6. A listing of needs and comments resulting from the public participation process can be found in the report.

Barriers to Coordination

The most serious issue facing the Transportation Disadvantaged program is a lack of consistent and enforceable legislation and policies to ensure that all agencies mandated to purchase transportation through the coordinated transportation systems are doing so. So much attention and effort was given over the past several years to garner additional funding for the Transportation Disadvantaged Trust Fund that other issues, particularly those affecting policy and service requirements and standards, were virtually ignored. It is imperative that participating agencies compromise on service policies so that the CTCs can develop costeffective and efficient systems that can meet the goals of all agencies.

Goals, Objectives, and Strategies

The overall goal of the Coordinated Transportation System in the tri-county area is:

To coordinate and provide seamless access to transportation services to meet the mobility needs of those who, because of age, income, or disability, can neither provide nor arrange for their own transportation.

The overall CTC goal provides direction for LYNX to follow in providing services to the Transportation Disadvantaged market. The additional goals listed below encapsulate the vision and guiding priorities of the LYNX Mobility Services Division.

Objectives provide the specific actions that will be taken by LYNX to achieve the goals while the strategies identify the tasks to be completed to meet the objectives. The goals and objectives have established targets based on measures which are quantifiable and qualified through regular review and analysis. The strategies in this section are the quality assurance measures listed in Section III of this document. In this section, the goals, objectives and strategies for the ACCESS LYNX program are presented in brief form. Annual progress towards achieving each goal is also shown in this section.

Goal 1: Transition Transportation
Disadvantaged (TD) customers to the most appropriate mode of

transportation.

Objective: Identify eligible TD riders for best

transportation solution.

Strategy: Analyze eligibility database for potential

candidates, i.e. ACCESS Plus+ program. Provide information for ACCESS Plus+ program by sending letters, emails, and

calls to TD clients.

Target: Increase number of TD clients enrolled in

ACCESS Plus+ program.

Measure: Number of ACCESS Plus+ Trips

provided each month.

Status: The LYNX Mobility Management model helps to identify the most appropriate mode of transportation for each passenger. LYNX has also implemented the ACCESS Plus+ program to help assist those able to use the fixed route system with learning how to access and navigate the routes. This program allows both the rider and a companion to ride the fixed route for free. The ACCESS Plus+ program has been successful and migrated many trips to fixed route services. On average, there are approximately 916 ACESS Plus+ trips provided each month.

Goal 2: Customer outreach and education.

Objective: Increase customer awareness of fixed

route and accessibility on fixed routes.

Strategy: Provide educational sessions/webinars

and in-person events to show TD users how to use fixed route services,

download and use apps.

Target: Participate in at least two community

events each quarter to educate Transportation Disadvantaged region on

mobility resources.

Measure: Number of sessions/webinars/events

and Perform survey of participants at community events who learn about

mobility management.

Status: Many in person events continued to be postponed through 2021 due to safety concerns affecting LYNX's ability to participate. LYNX was able to participate in one virtual event since the last minor update. Attendance at various community events to provide information and training on the ACCESS LYNX system will remain a top priority for the Mobility Services department. LYNX will continue to look for opportunities to participate in events and sessions as in person events return.

Goal 3: Improve community perception of public transportation.

Objective: Reduce the number of customer

concerns for Transportation

Disadvantaged service.

Strategy: Reduce turnaround time for concern

resolution.

Target: Respond and close out all TD complaints

within 14 days of original concern.

Measure: Average Number of days to close out

(annual average).

Status: The review of annual data indicates that on average complaints/cases were closed out within 10.58 days. This is a slight increase from the average reported last TDSP minor update. Over the past year, LYNX has experienced an operator manpower shortage and has implemented corrective actions to fully staff operations as well as new technology with texting capabilities to notify passengers when the operator is on the way.

Goal 4: Adopt service guidelines, standards, and processes and procedures for

mobility services in Central Florida.

Objective: Standardize Transportation

Disadvantaged Procedures for the

Mobility Services Division.

Strategy: Document all TD service guidelines,

standards, processes and procedures.

Target: Create basic Guidelines Documentation

for Mobility Service Division

Measure: Complete project by August 2021

Status: LYNX will continue the process of updating its How to Ride Guide.

Goal 5 Provide transit services that support regional mobility options and changing travel demands.

Strategy: Ensure that all TD requests received by Mobility Services Division are communicated with Service Planning

and considered in service changes

planning.

Target: On-Going meetings with the Planning

and Development department to ensure

communication.

Measure: Completed Communications meeting.

Status: The LYNX Mobility Services and Planning Departments communicate regularly in the planning of future services to ensure that coordination is considered across the departments and modes. The departments will continue to meet, as needed, to discuss mobility options and transportation disadvantaged planning efforts.

Implementation Plan

 Five-Year Transportation Disadvantaged Improvement Program

LYNX, as the CTC for the tri-county region, uses Trapeze PASS transportation management software

application. This product has allowed LYNX to create significantly more effective schedules with map-based geocoding of origins and destinations. The PASS system has also allowed LYNX to pinpoint passengers' who reside within reasonable distance of the fixed-route services to promote more use of that option.

Table 8: Implementation Schedule

Goal 1: Transition Transportation Disadvantaged (TD) customers to the most appropriate mode of transportation.

Action	Begin	End	Individual Responsible
Study and improve ways to evaluate customer eligibility.	June 2020	Ongoing	Supervisor of Mobility Services
Implement new ACCESS Plus+ program for TD clients	June 2020	Ongoing	Manager of Mobility Services
Add TD procedures to existing ACCESS Plus+ program	June 2020	Ongoing	Mobility Services Leadership Team

Goal 2:	Customer o	utreach and	education.
Identify target audiences (human service agencies, customers, other stakeholders)	July 2018	Ongoing	Senior Manager of Mobility Services
Develop a standardized presentation package to include TD program	July 2020	Complete	Mobility Service staff and Marketing
Schedule presentation opportunities	September 2018	Ongoing	Customer Service Manager

Goal 3: Improve community perception of public transportation. Obtain baseline Ongoing July Supervisor – status of key 2018 Mobility Services performance indicators Ongoing Manager of Review trends June 2020 Mobility of prior month Services/ TD customer Manager of concerns based on category Customer volume Service April Senior Manager Develop a Ongoing corrective action 2020 of Mobility plan for Services recording TD concerns and timeline for implementation

Goal 4: Adopt service guidelines, standards, and processes and procedures for mobility services in Central Florida.

Identify which service guidelines, standards, and processes and procedures are needed.	July 2018	Complete	Mobility Services Leadership Team
Document TD service guidelines, standards, processes and procedures.	August 2018	Complete	Mobility Services Leadership Team
Create a Mobility Services Division operating manual	September 2018	Complete	Mobility Services Leadership Team

Goal 5: Provide transit services that support regional mobility options and changing travel demands.

On Going meetings with Mobility Services Leadership Team and the Service Planning Division	July 2018	Ongoing	Senior Manager of Mobility Services/ Director of Mobility Services
Share TD requests with Service Planning	July 2020	Ongoing	Senior Management Team

II. SERVICE PLAN

A. Operations

Types, Hours, and Days of Service

The ACCESS LYNX Consolidated System offers demand response, subscription, fixed-route paratransit, group trips, and special care services to ambulatory and non-ambulatory persons. These

services are designed to meet the needs of any sponsor approaching LYNX for services.

ACCESS LYNX paratransit and TD services are available to customers twenty-four hours a day, seven days a week.

Sponsors of service, through the coordinated system, transport the full range of transportation disadvantaged customers.

- LYNX sponsors the ADA complementary paratransit service which is designed for persons with disabilities in the service area who cannot navigate or access regular fixed-route services;
- Transportation Disadvantaged is a state sponsored program. The TD funds are used to provide trips for people who have no other way of providing for their own transportation needs.

Agencies that have coordination agreements with LYNX to provide services to their own clients are listed in Table 10.

Due to traffic conditions in Central Florida, customers are encouraged to travel during off-peak times of 10:00 a.m. to 2:00 p.m.

In determining the pick-up time for a trip, the customer provides the time they need to arrive at their appointment. They will be given a pick-up window based on the trip length, time of day, vehicle availability, and multi-load factors. The customer will then be given a window of time that the vehicle should arrive to get them to their appointment on time.

"Will calls" are discouraged, but accepted. A will call is defined as a trip in which the customer did not specify a return time, but he/she plans on calling when ready. ACCESS LYNX's policy requires a will call trip be picked up within ninety minutes of the call requesting the return.

TD subscription service for life sustaining medical, other medical, or employment is offered based on availability. A subscription trip is defined as trips going from the same location to the same destination on the same day(s) of the week on an ongoing basis. In keeping with the concept of a standing order, customers are allowed to modify their subscription no more than once in any thirty day period.

Accessing Services

Reservations are taken from 8:00 a.m. to 5:00 p.m., seven days a week. Customer service is available twenty-four hours a day, seven days a week. The peak call times are 8:00 a.m. to 10:00 a.m. and 2:00 p.m. to 5:00 p.m. Customers are encouraged to call during other times of the day.

(407) 423-8747 Reservations and Customer Service (407) 517-9537 FAX 711 Florida Relay Service

Customers may also request, change, confirm, and cancel trip reservations through the WebACCESS system. The WebACCESS system allows customers to access and edit their information 24 hour a day, 7 days a week.

Agencies have the option of faxing TD trips requests to ACCESS LYNX. In order to assure faxed information has been received, the information is faxed back to the sending agency with a confirmation number, estimated pick-up time, and cost of the trip.

ACCESS LYNX services are offered origin to destination. The driver cannot assist the customer beyond the front door of any building. At the customer's residence, the customer is expected to be waiting on the first floor. The driver may not enter the residence. Drivers will not assist wheelchair passengers down more than one step, nor will they attempt to push a wheelchair through grass or sand. Customers may bring items on-board the vehicle with them, but they are limited to what they can carry unassisted.

ACCESS LYNX requests that a customer give twentyfour hour notice of cancellation, but will accept one hour notice. A "no show" is defined as a scheduled trip that is not cancelled at least one hour prior to the scheduled pick-up time, driver is unable to locate customer, or customer cancels at the door. TD trips that are considered "no show" from the customer's residence will automatically have the return trip cancelled unless otherwise notified by the customer.

ACCESS LYNX has begun to enforce a suspension policy for customers who engage in willful and chronic "no-show" habits. Upon review, "no show" occurrences for individuals can be reversed for missed trips that are beyond the rider's control. Each offense is carefully investigated and verified by ACCESS LYNX on a monthly basis.

This rigorous process allows us to pinpoint patterns that affect service for all riders. For example, it is very important for customers to notify ACCESS LYNX when they go into the hospital for an extended period of time, move away from the service area, or no longer require transportation services. Often, customers subscription service scheduled with ACCESS LYNX, therefore service will continue for these customers until we are notified that service is no longer needed. You may ask "why" ACCESS LYNX continues the service. Thousands of monthly trips, hundreds of individual drivers, and several service providers make it difficult to find a pattern of no show for each individual, therefore it is the customer's responsibility to notify us as soon as they become aware they will not be able to ride.

ACCESS LYNX has taken a proactive approach to educate first and help customers avoid suspension by sending personal notification letters to those who have more than five occurrences each month. ACCESS LYNX reviews each customer's "no shows" on a case by case basis. The total number of "no shows" systemwide has seen a dramatic decrease, resulting in more efficient service for all ride-share customers.

Customer may appeal a no-show finding by following the appeal process.

Customers who are using the service for life-sustaining medical purposes will not be suspended unless they engage in violent, illegal, or disruptive behavior.

Persons guilty of violent, disruptive or illegal behavior, if they carry weapons or controlled substances, and/or if they harass, verbally or physically abuse, assault or create an unsafe environment for other passengers, staff, operators, or the public, will be suspended.

Table 9: Operating Policies

	Transportation Disadvantaged	Americans with Disabilities Act
Maximum Advance Reservation	One (1) day	Seven (7) days
Limit on Subscription Service	Life Sustaining Medical, Other Medical, and Employment Trips Only	None
Same Day Service Allowed	No	No
Out of Service Area	No	No
Fare Structure	0-4.9 miles=\$2.50 5-9.9 miles=\$3.50 10+ miles =\$4.50	\$4.00 for ADA trips \$7.00 for premium trips
Attendant	No	Yes, one at no charge
Companion	Yes, same as for rider	Yes, same as for rider

Route and schedule information for LYNX fixed-route service can be obtained by calling LYNX Customer Service at 407-841-LYNX (5969) or on the LYNX website at https://www.golynx.com/maps-schedules/routes-schedules.stml. Customers with

hearing impairments may use the 711 Florida Relay Service.

Eligibility

Customers requesting transportation by the ACCESS LYNX program must first complete the appropriate eligibility application and submit it, completed, to the ACCESS LYNX Eligibility Section. LYNX Eligibility staff will then date stamp and review the form according to eligibility guidelines for final eligibility determination (See Attachment 2). Customers will be instructed by telephone and by letter as to their status and progress.

Transportation Disadvantaged (TD) Program

For customers to access the TD program, they must first be certified as eligible through the application process. The applicant must meet two of the three following categories to be eligible.

1. Have no access to a fixed route. All customers who are within three-quarters of a mile of LYNX fixed-route service will be required to use that service. Applicants who cannot access fixed-route bus system must demonstrate why through a functional assessment. For applicants outside the three-quarter mile radius, ACCESS LYNX demand

response service will be offered as a feeder service to fixed-route or as direct transport.

- 2. Have a disability. As necessary, a functional Assessment of the applicant's abilities may be performed. In addition, Travel Training may be offered if the applicant needs assistance in learning how to navigate the fixed-route system. Finally, if the applicant cannot use LYNX fixed-route, ACCESS LYNX demand response service will be offered.
- 3. Have an income level at or below 185 percent of the Federal Poverty Level based on the individual applicant's income not household income. The current Federal Income Poverty Guidelines Table will be utilized. Documentation verifying income status will be requested. Acceptable forms of income verification are listed on the TD Program Application (presented in the appendices)

American with Disabilities Act of 1990 (ADA) Paratransit Service

LYNX maintains a certification and eligibility process for customers for ADA paratransit eligibility based on the relevant Federal Administrative Code. LYNX determines ADA eligibility by using a service area of ¾ of a mile proximity to fixed-route bus service and

categories of eligibility as described in federal statute. ACCESS LYNX also follows the guidelines in the Americans with Disabilities Act Paratransit Eligibility Manual. The eligibility categories are listed below. LYNX recently updated the categories to include permanent (continued) eligibility.

Permanent (Continued) Eligibility. Automatic recertification will be considered for individuals who cannot use LYNX bus service under any circumstances and/or whose disability is unlikely to improve. Customers who have been provided permanent eligibility will receive a verification document to update / recertify their information and note any changes in their travel abilities or needs every three years from the date of initial eligibility.

Unconditional Eligibility. Persons unable to use fully-accessible fixed-route services. Any individual with a disability who is unable, as a result of a physical or cognitive impairment (including a vision impairment), and without the assistance of another individual (except the operator of a wheelchair lift or other boarding assistance device) to board, ride, or disembark from any vehicle on the system which is readily accessible to and usable by individuals with disabilities.

Conditional Eligibility. Any individual who is able to use the fixed-route buses for *some* of their trips and qualify for paratransit service for other trips. Persons who cannot navigate *some* architectural or environmental barriers such as: lack of curb cuts, grassy areas, steep terrain, intersections too difficult to negotiate, etc. Travel training can assist these individuals in learning to use the fixed-route service.

Transitional Eligibility (temporary). Any individual who has a health condition or disability that temporarily prevents him/her from using the fixed-route bus system. An example would be persons whose previous health condition or disability has changed due to therapy, corrective surgery or other. Travel Training can assist these individuals in learning how to access fixed-route, eventually eliminating the need for paratransit use.

Visitor Eligibility (temporary). Any individual visiting our area may request paratransit service by providing the appropriate documentation (see page 44) for a time period of up to 21 days.

Medical information for eligibility must be certified by a licensed professional.

Functional Assessment and Travel Training for ADA

The ACCESS LYNX Eligibility Section is the "gatekeeper" for ADA paratransit entry.

A Functional Assessment is used and provides a detailed method to determine whether ADA applicants are capable of using conventional public transportation.

Various types of eligibility determination processes are acceptable for ADA: self-certification with medical documentation, one-on-one interview, or functional assessments provided by a third party. Self-certification is performed for all ADA applicants 80 year of age or older, certified legally blind (corrected visual acuity of greater than 20/200), quadriplegic, or reside in a skilled nursing facility. Documentation may be requested.

ACCESS LYNX contracts with a third party to administer the functional assessment in a fair and sophisticated manner. The assessment is currently provided by ADARide.com, an organization that partners with our community in assisting individuals to become self-sufficient through an existing assessment and through Travel Training. The Travel Training program portion assists those able to utilize the public bus system in maneuvering throughout our tri-county area. When determining eligibility for paratransit

service, ACCESS LYNX and ADARide.com will consider each client's physical and cognitive abilities and disabilities based on several factors such as, but not limited to, whether the client can stand at a bus stop alone for at least 10 minutes, if a certain weather condition affects physical ability, if a client can safely maneuver to and from a bus stop, if the client is easily confused, and ability to communicate. A licensed occupational therapist performs assessments and Travel Training is conducted one-on-one by a certified trainer. This assessment is a fair and equitable process for all. ACCESS LYNX also encourages those who are able to ride fixed-route bus to do so.

Appeals Process For ADA

If a customer has been denied eligibility for ACCESS LYNX ADA paratransit service, they have the right of appeal.

Step 1. Customer must contact the Manager of Mobility Services to review his/her application relative to why customer was denied eligibility for ADA paratransit service. Additional information may be supplied. If the original determination is not changed, the customer may appeal to an Appeals Panel. If the customer wishes to appeal, he/she must submit a written request within 60 days of the receipt of the original determination.

Step 2. Upon receipt of the appeal, the Appeals Process (as developed under the Federal Transit Administration model process) will be followed. The Appeals panel will render its determination within thirty (30) days of its consideration of the appeal. The Appeal Process and Request for Appeal are located at Attachments 3 and 4, respectively.

Visitors (ADA customers visiting the area from another area)

ACCESS LYNX provides complementary ADA paratransit service to visitors. A visitor is defined as someone who does not reside in the tri-county region served by LYNX. For the period of a visit, the visitor is treated exactly like an eligible local user, without any higher priority being given to either.

A visitor can become eligible in one of two ways. The visitor may present ADA paratransit eligibility documentation from his or her local jurisdiction. LYNX will give full faith credibility to the ID card or other documentation from the visitor. If the individual has no such documentation, LYNX may require the provision of proof of visitor status (i.e., proof of residence) and, if the individual's disability is not apparent, proof of the disability (i.e., a letter from a doctor or rehabilitation professional).

Once documentation is found to be satisfactory, LYNX will make service available on the basis of the individual's statement that he or she is unable to use the fixed-route transit system. Eligibility will be for any twenty-one (21) days within a 365 day period, after which the customer must apply for ACCESS LYNX eligibility.

Other Sponsors of Service

Other sponsors of service within the ACCESS LYNX program make their own eligibility determinations. These sponsors of service determine which of their customers are eligible for service and notify ACCESS LYNX of service needs on a trip-by-trip basis. All requests must be made by an authorized person, which is verified when the trip is taken.

Trip Prioritization

Since the definition of Transportation Disadvantaged entails people who, because of age, income, or disability, cannot provide or arrange for their own transportation, LYNX supports a balanced approach to the expenditure of Trust Fund monies. Subscription and demand response trips provided via ACCESS LYNX paratransit will continue to be the primary mode of trips provided with Trust Funds. The following breakdown of trips are based on TD trips only.

40%	Subscription trips are generated by the scheduling software the same day and time every week.
60%	<u>Demand response trips</u> are random trips not automatically generated by the scheduling software.

LYNX does not currently prioritize demand response trips. If prioritization was necessary due to the availability of grant funds, the prioritization of Trust Fund trips within each category would be as follows:

Subscription Trips

- 1. Life-sustaining medical trips, i.e., dialysis, cancer treatment, other than can be documented
- 2. Other medical trips
- 3. Employment trips

Demand Response Trips

- 1. Life-sustaining medical trips, i.e., dialysis, cancer treatment, other than can be documented.
- 2. Other medical trips
- 3. Employment trips
- 4. Educational/vocational trips
- 5. Other trip purposes

D. LYNX's Mobility Management Operating Model

Effective December 1, 2017, LYNX changed the way we deliver transportation services to our customers. We adopted a mobility management model of transportation service provision.

The following have or will take place:

- Call center functions are operated directly by LYNX for better ACCESS LYNX program management. Call center staff are cross trained on all LYNX services and anyone who answers an incoming call will be able to assist the customer directly, without transferring the call.
- For customers who are able to use other modes of transportation, we will be looking at trip origins and destinations to determine the most efficient mode of travel.
- Customers are offered free travel training to learn how to use the fixed route system.
- Reduced fare identification cards are available for ACCESS LYNX customers to use on LYNX's fixed route bus and NeighborLink programs.
- LYNX has developed a fare payment smart phone application which allows customers to pay their fare on a smart phone.

- LYNX developed a smart phone app exclusively for ACCESS LYNX customers.
- ACCESS LYNX replaced upgraded its fleet vehicles with 18 new paratransit vehicles.

Transportation Operators and Coordination Contractors

Operator Capability

The selection process for paratransit service operator includes consideration of relevant experience of the provider, vehicle fleet, record-keeping procedures, financial stability, cost and ability to mobilize for service.

Driver Training

The Access LYNX providers have comprehensive professional driver training programs in place to assure the consistent and effective training of all ACCESS LYNX drivers. These programs meet the requirements of FDOT and FTA.

In addition, before a driver is placed into service for the ACCESS LYNX program they must pass U.S. Department of Transportation physical and preemployment drug screening. All drivers must have a valid Florida driver's license appropriate for the type

and size of vehicle they will be operating, acceptable motor vehicle operating record, and acceptable criminal background check. Drivers must be at least 21 years of age and speak, read, and write English.

Coordinated Providers

LYNX developed a Coordination Contract for those agencies that can provide their own transportation more efficiently than LYNX. In the contract, each agency agrees to provide transportation to customers eligible for their respective programs subject to a Scope of Services. In the Scope, operators meet the following criteria for service:

- Hours and days of service
- Vehicle standards for ambulatory and nonambulatory customers
- Provide sources of transportation funding
- Passenger assistance
- Safety requirements
- System safety program plan
- Drug testing and drug free work place
- Insurance meeting CTD minimum requirements
- Reporting requirements:
 - Complaints
 - Accidents
 - Operating and financial data
 - Vehicle inventory

- Record keeping
- Monitoring and auditing

COORDINATION CONTRACT APPROVAL POLICY

Rule Chapter 41-2.002 defines a Coordination Contract as "a written contract between the Community Transportation Coordinator and an agency receives transportation disadvantaged funds performs some, if not all, of its own transportation services, as well as transportation services to others. when shown to be more effective and more efficient from a total system perspective. The contract reflects the specific terms and conditions that will apply to those agencies that perform their own transportation, as well as joint utilization and cost provisions for transportation services to and from the community transportation coordinator."

further states that "The rule Community Coordinator Transportation shall enter into Coordination Contract to show the specific terms and conditions, as outlined in the Memorandum Agreement with those agencies who receive transportation disadvantaged funds and who, from a total system approach, can perform more effectively and more efficiently their own transportation under those conditions not covered in Rule 41-2.015, F.A.C."

LYNX, as the Community Transportation Coordinator for Orange, Osceola and Seminole counties, has the responsibility for entering into and monitoring the terms and coordination contracts. The Director of Mobility Services must approve all potential coordination contracts. Using the following factors, requests for Coordination Contracts are reviewed to assure the transportation proposal is the most cost effective and efficient utilization that is possible from a total system approach.

- What percentage of their transportation disadvantaged services is the agency proposing to transport?
- What are the anticipated funding sources?
- What are the unique and diverse needs of the customer?
- Is the requestor compliant with all the requirements of reporting insurance, safety, and other terms that apply equally to any transportation operator?
- Any other relevant factors?

All requests from agencies interested in entering into a Coordination Contract with the CTC must submit the request in writing to:

Director of Mobility Services LYNX 455 North Garland Avenue Orlando, FL 32801-1518 A detailed summary of the services must be provided by the requestor, relative agency information, agency contact information and a summary of the transportation services to be provided under this Coordination Contract, which must address each of the above items. Agencies approved for a Coordination Contract must maintain a System Safety Program Plan as required by Chapter 14-90 FS and a drug testing program in compliance the Drug Free Work Place Act of 1991. Table 10 contains a list of providers within LYNX's coordinated system.

Public Transit Utilization

ACCESS LYNX is committed to the use of fixed-route service therefore, our goal is to transition as many customers from paratransit to fixed routes as possible. LYNX also offers travel training to help customers make the transition from paratransit service to fixed-route.

School Bus Utilization

Each school board provided to LYNX as the Community Transportation Coordinator their reports of Vehicle Availability for use within the Coordinated System, and in each case the prices provided were greater than prices charged by private operators under the Coordinated System.

The barrier to use of school bus services is that of availability. School Bus services are available between the hours of 9:30 a.m. and 1:00 p.m. This is the time frame of least demand within the system.

Table 11 presents the inventory of LYNX vehicles used to provide paratransit and NeighborLink services.

System Safety Program Plan

The Memorandum of Agreement (MOA) between the Community Transportation Coordinator and the Commission for the Transportation Disadvantaged requires the CTC to develop and implement a System Safety Program Plan (SSPP). The required SSPP has been submitted to and approved by the Florida Department of Transportation, as required by Chapter

14-90, Florida Administrative Code, <u>Equipment and Operational Safety Standards Governing Public-Sector Bus Transit Systems</u>. According to this rule, the plan assures compliance with the minimum standards established and includes safety considerations and guidelines for the following:

- Carrier and CTC Management
- Vehicles and equipment
- Operational functions
- Driving requirements
- Maintenance and training\Equipment for transporting wheelchairs
- Federal, state and local regulations, ordinances, or laws
- Private contracted service provider

The SSPP outlines driver training requirements and vehicle inspection requirements. Required safety equipment for vehicles is:

- Seat belts
- Wheelchair securement systems and restraining devices (lap-type body belts)
- Dry chemical fire extinguishers (tagged and inspected annually)
- First aid kits
- Two-way radios

The SSPP limits the number of consecutive hours a driver can work, requires defensive driving, and passenger assistance/sensitivity training for all drivers. It further requires all subcontracted service providers be certified before providing service in the coordinated transportation system and requires vehicles undergo bi-annual safety inspections. The SSPP also includes driver and accident policies.

Extensive record keeping by the CTC and the individual subcontractors is also required, including personnel data, operational reports, dispatching logs, driver trip sheets and reports of accidents, incidents and service delays.

1 Safety Management Policy

1.1 Mission and Policy Statement

All levels of LYNX management, employees, contractors, and partner agencies are accountable and responsible for upholding the best safety performance, starting with the Executive Director as the Accountable Executive, the Director of Risk Management Safety & Security is the agency's designated Chief Safety Officer (CSO), has the oversight authority and responsibility for implementation of the agency's safety management system (SMS) and reports directly to the Executive Director. The CSO is responsible for providing resources and executive-level safety advocacy and direction to the Safety Department for managing day-to-day implementation and operation of the agency's SMS.

LYNX commits to:

- Support the risk and safety management program through the provision of appropriate resources and visible top-level commitment to safety;
- Foster positive safety cultures and inserts best practices among the primary responsibilities of all managers and employees;
- Clearly define for all staff, managers and employees alike, their accountabilities and responsibilities for the delivery of the organization's safety performance and the performance of our safety management system;
- Establish a systematic and comprehensive approach to identify, analyze, evaluate, and mitigate safety
 risk activities associated with transit system operations and related maintenance activities to meet or
 exceed the acceptable level of safety performance;
- Integrate risk and safety management system into the departmental standard operating procedures and
 actively manages safety with the same attention to results as of the other management systems of the
 organization;
- Implement an effective employee safety reporting and communication program, and encourage
 participation and contribution of frontline personnel in the management of safety. We ensure that no
 action is taken against any employee who discloses a safety concern through our safety reporting system
 unless such a disclosure indicates, beyond any reasonable doubt, an illegal act, gross negligence, or a
 deliberate or willful disregard of regulations or procedures;
- Provide adequate and appropriate safety-related information and job-specific safety training for all
 employees, and ensure that they are competent in safety management matters, and are allocated only
 tasks commensurate with their skills;
- Ensure that sufficient skilled and trained human resources are available to implement safety management processes;
- Establish and measure our safety performance against realistic and data-driven safety performance indicators and safety performance targets;
- Comply with, and wherever possible exceed, legislative and regulatory requirements and standards;
- Continuously improve our safety performance through management processes that ensure that
 appropriate safety management action is taken and is effective; and
- Ensure externally supplied systems and services to support our operations are delivered meeting our safety performance standards

ames Harrison, Executive Director

Executive Summary

The Central Florida Regional Transit Authority (LYNX) improves people's quality of life with Passion, Pride and Performance. LYNX's transportation services are locally based and regionally connected with bus service throughout Orange, Osceola, Seminole and Polk County.

Managing risk and safety is at the core of our safety culture and an essential part of our business activities. LYNX has adopted a Safety Management Systems (SMS) framework as an explicit element of the agency's responsibility by establishing safety policy; identifying hazards and controlling risks; goal setting, planning, prioritizing resources and measuring performance. Furthermore, the agency's SMS is a mean to foster agencywide support for transit safety by establishing a culture where management is held accountable for safety and everyone in the organization takes an active role in securing transit safety.

To ensure transit safety and in order to comply with Federal Transit Administration (FTA) requirements, LYNX has developed this Public Transit Agency Safety Plan (PTASP or the "Plan") to comply with FTA regulations established by Section 5329(d), which includes setting performance targets based on the performance criteria established in the National Public Transportation Safety Plan (NPTSP), (January 2017, Version 1.0). The PTASP for LYNX is consistent with and supports the safety management system (SMS) approach to safety risk management. SMS is an integrated collection of the agency's policies, processes, and behaviors that ensure a formalized, proactive and data-driven approach to safety risk management.

LYNX's PTASP aim to increase the safety of transit systems by proactively implement the four components of SMS: Safety Management Policy, Safety Risk Management, Safety Assurance, and Safety Promotion. The strategic approach is flexible and scalable, depends on the circumstance, to effectively meet its safety performance targets and established standards. The PTASP for LYNX addresses the following elements:

measurable and attainable safety objectives to reach the agency's pal.
measurable and attainable safety objectives to reach the agency oal.

System Safety Program Plan (SSPP)

1.0 Management Safety Commitment and Policy Statement

MV Transportation Access Lynx is committed to providing safe, secure, clean, reliable, and efficient transportation services to the patrons. This policy statement serves to express management's commitment to and involvement in providing and maintaining a safe and secure transit system.

Section 341.041, Florida Statutes (F.S.); Section 334.044(2), F.S.; and Section 341.061(2)(a), F.S., requires the establishment of minimum equipment and operational safety standards for all governmentally owned bus transit systems; privately owned or operated bus transit systems operating in this state which are financed wholly or partly by state funds; all bus transit systems created pursuant to Chapter 427, F.S.; and all privately owned or operated bus transit systems under contract with any of the aforementioned systems. Safety standards for bus transit systems are provided by Rule Chapter 14-90, Florida Administrative Code (F.A.C.), hereinafter referred to as Rule 14-90. Bus transit systems are required to develop, adopt, and comply with a System Safety Program Plan (SSPP), which meets or exceeds, the established safety standards set forth in Rule 14-90.

In the interest of safety and security, and in order to comply with the statutory requirements, MV Transportation has developed and adopted this System Safety Program Plan (SSPP) that complies with established safety standards set forth in Rule 14-90. The SSPP is intended to document all policies, functions, responsibilities, etc. of the agency necessary to achieve a high degree of system safety and applies to all areas of the transportation system, including procurement, administration, operations, maintenance, etc.

MV Transportation management is authorized and responsible for maintaining a coordinated safety system in order to identify and prevent unsafe acts and conditions that present a potential danger or threat to public safety. Management commits to maintain and implement the SSPP and comply with the policies, procedures, and standards included in this document. All departments, personnel, and contract service operators are charged with the responsibility of adhering to this SSPP. Any violation of safety and security practices is subject to disciplinary actions. Management is ultimately responsible for enforcing the SSPP and maintaining a safe and secure system.

1-1

Inter-county Services

LYNX does not coordinate transportation disadvantaged services with other counties outside of our three county service areas. However, LYNX staff maintains professional working relationships with other Community Transportation Coordinators throughout the state.

Natural Disaster/Emergency Procedures

In the event of a natural disaster, LYNX is designated as Emergency Support Function #1 (Transportation) and Emergency Support Function #8 (Public Health and Human Services) for Orange County. This designation carries the responsibility of evacuating all special needs customers, nursing homes, and other facilities with a need. When there is advanced warning, Emergency Management will contact LYNX and put the CTC on alert. Then ACCESS LYNX will notify the contractor of the situation.

Marketing

ACCESS LYNX will participate in upcoming community outreach activities as they are available due to COVID-19 restrictions. The events are primarily community and social service associations, affiliations, and agencies that invite LYNX staff to speak about the ACCESS LYNX program. While these events have

been postponed due to the pandemic, in person meetings are returning and ACCESS LYNX will participate as community events are scheduled.

Acceptable Alternatives

LYNX has been active in transitioning passengers from paratransit to fixed-route. The LYNX travel training program assists passengers with training on how to access and use the paratransit service. As additional resources become available, LYNX will review the recommendations from the LYNX TDP and how best to provide new NeighborLink services and better accessibility to increase the number of mobility options available. However, there are no recommended alternatives to the LYNX existing coordinated system that can be reported in this annual update.

Service Standards

Table 13 presents the current service standards for the ACCESS LYNX paratransit service.

Table 13: Service Standards

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Advance	Reservations for all sponsors (except TD) are
Reservations	taken up to 7-day in advance. Trip requests
Requirements	under the TD program are taken one day prior
	to service.
Advance	When calling to schedule appointments, ADA
Reservations Limit	customers should call as far in advance as you

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
	can, (we have up to a 7-day advance
	reservation period), and call between the hours
	of 10:00 a.m. and 2:00 p.m., whenever possible.
	Customers should have all information ready so
	that we can complete the request efficiently.
Accidents	The ACCESS LYNX Preventable Accident
	Standards for the contracted operators are less
	than one (1) preventable accident for every
	100,000 vehicle miles of service provided.
Air Conditioning/	All vehicles must have working air conditioning
Heating	and heating to be used for transporting
	passengers within the coordinated system. No
	vehicles are allowed to provide service without
	a functioning air conditioner and heater. If air
	conditioning or heating is not functioning
	properly, the operator is responsible for the
	repair prior to the transport of passengers.
	Vehicles will be pulled from service until
	deficiencies are corrected.
Billing	ACCESS LYNX carrier payments are made
Requirements	according to guidelines promulgated in Section
	21.20 of the Transportation Disadvantaged
	Trust Fund (TDTF) Grant. (Section 287.0585,
	Florida Statutes).

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Call Hold Time	It is LYNX's goal to have average hold times for inbound telephone of no more than three minutes (3:00) for any given hourly period of the day. This three minute (3:00) standard is to be achieved for 90% of the hourly time periods that a phone line is in operation, measured monthly.
Cardio-pulmonary Resuscitation Training	Drivers within the coordinated system are not required to be trained in cardiopulmonary resuscitation.
Complaints	All complaints received by ACCESS LYNX shall be responded to within five business days of receipt, unless factors within the investigation process are unavoidable. Responses will be by telephone contact or letter, per discretion of customer. The ACCESS LYNX Monthly Standards for Valid Complaints Relating to Contractor's Performance are to have fewer than three (3) valid complaints for every 1,000 one-way passenger trips provided.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Contract Monitoring	ACCESS LYNX performs annual evaluations and contract monitoring of the contracted operators. The monitoring accomplishes reviews of System Safety Program Plan compliance, driver qualifications and certification, and maintenance of vehicles and equipment.
	Primary contractors with LYNX are required to perform the same monitoring for any subcontractors. At the time of the monitoring of the primary contractor, LYNX staff will verify sub-contractor monitoring reports.
Driver Criminal Background	All drivers in the Coordinated System must have a favorable Florida Department of Law
Screening Driver	Enforcement (FDLE) background check. All drivers within the ACCESS LYNX system
Identification	are trained in defensive driving and passenger
	assistance, tested, certified and, upon completion, is provided with photo identification.
Drug and Alcohol Policy	LYNX, as the CTC, has an existing Drug and Alcohol Policy, which complies with DOT regulations. All contractors must comply with these regulations.
First Aid Training	Drivers within the coordinated system are not required to be trained in first aid techniques.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
No-Show Policy	A customer may have no more than 5 no- shows within any 30-day period, which will result in an offense. A letter is sent to each customer to help them understand how important it is to call and cancel trips. During the review process, the subscription privilege may be cancelled if a customer has excessive valid no show occurrences. A customer may request for the subscription to be re- established. After a review of the past trips, a subscription may be re-instated if there have been no infractions for ninety (90) day period. Trips cancelled with less than one hour notice prior to the scheduled pickup time, cancel at the door, and driver unable to locate the customer at pickup time, will be considered a
	No Show.
On-time Performance	The ACCESS LYNX On-Time Performance Standards for the contracted operators are 90% or greater of trips on time.
	Trips are on-time if picked up before the end of the 30-minute "Pickup" window.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Out of Service	ACCESS LYNX does not provide
Area Trips	transportation services outside of our three
	county service area.
Passenger	All drivers in the ACCESS LYNX system are
Assistance	required to be certified in Passenger
	Assistance Training. At a minimum, drivers
	are required to open the vehicle door, fasten
	passenger seat belts, secure wheelchairs, and
	close the door when necessary.
	Coming is door to door (with the expension of
	Service is door-to-door (with the exception of stretcher customers).
	stretcher customers).
	Drivers will not go beyond the first floor of
	residential buildings; customers are expected
	to be waiting on the first floor. Drivers will
	assist customers to first floor lobby of their
	appointments. If a client needs assistance
	beyond that point, they will need an escort to travel with them. Drivers will not go within
	buildings to retrieve customers.
	Sananigo to rotilovo odotoriloro.
	Drivers cannot assist a wheelchair customer
	down more than one step, nor pull a
	wheelchair through grass or sand.
	Passengers may be transported with portable
	oxygen, as long as driver assistance is not
	required in administering the oxygen and the
	container is no bigger than two liters.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Passenger	Personal belongings are the sole responsibility
Property	of the passenger. Only those items that
	passengers can personally carry (usually up to
	three bags) will be transported at the risk of the
	passenger. Drivers are not responsible for, nor
	are they expected to load and unload,
	belongings of passengers they transport.
Passenger/ Trip	ACCESS LYNX maintains a database of all
Database	customers within the program. This database
	tracks information such as social security
	number, home address, mailing address,
	passenger type, passenger needs, birth date,
	language, sponsors, and trip history.
Pick-up windows	Trips are on time if they are picked up within
	the negotiated 30-minute pickup window
	Customers may not be scheduled to arrive at
	the destination on a going trip more than one
	hour early. Customers may not be picked up
	at the origin on a return trip more than one hour
	after the requested time.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Public Transit	Paratransit service is provided for those
Ridership	individuals who cannot access fixed route
	service. Eligibility screening is done for all
	programs, and referral to fixed-route service is
	done when it is determined that it is the
	appropriate mode of transportation for a
	customer. ACCESS LYNX goal is to refer at a
	minimum 10% of individuals applying for
Decemention	service to fixed route service.
Reservation	Reservations are accepted from 8:00 a.m. to
Hours	5:00 p.m. seven days per week. Reservation
	may be taken 7 days in advance, up to 5:00 p.m. the day before the trip.
Dood Calle	·
Road Calls	No more than 1 every 10,000 miles.
Seating	Vehicle seating shall not exceed the
Standard	manufacturer's recommended capacity.
Service Animals	Service animals shall always be permitted to
	accompany their users in any system vehicle.
Service Hours	Services are available 24-hours a day, 365-
	days a year.
Smoking, Eating,	No smoking, eating, or drinking is allowed at
and Drinking	any time on an ACCESS LYNX vehicle.
	Exceptions are permitted when required due to
	an existing medical condition.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Subscriptions	The current policy provides for a change of a subscription only once within a 30 day period. If a customer request changes more often than this, the subscription will be cancelled, and the customer will have to call in for each individual trip. This policy will be strictly enforced.
Transport of Personal Care Attendant and Dependent Children Policy	Within the ACCESS LYNX ADA program, each eligible rider is allowed one personal care attendant (PCA), as long as the PCA is picked up at the same point of origin as the rider and is dropped at the same location as the eligible rider. The PCA must be necessary for the safety of the rider or needed for assistance to the rider. A PCA must accompany all children under the age of fifteen. Only one PCA may travel with children who have appointments or with adults who need assistance while traveling. Parents may also take one child who does not have an appointment with prior arrangements. All
	children under six years of age are required to ride in the back seat of the vehicle. (See "Use and Responsibility of Child Restraint Devices" below.)

STANDARD Trip Negotiations

ORANGE, OSCEOLA AND SEMINOLE COUNTIES

While we will make every effort to honor appointment times for medical services and other critical needs, to ensure the most responsive and on time service, whenever possible, appointments should be scheduled for no earlier than 10:00 a.m., and no later than 2:00p.m. These times are off-peak service, and do not conflict with regular service trips that occur during peak times such as employment, sheltered workshops, adult daycare, etc. Off-peak also means that the traffic congestion in the greater Orlando area is at its minimum, as well.

We will honor appointment times, but we will negotiate the pick up time based on our demand. We have a one-hour window on either side of a requested pick up time under Federal guidelines for ADA service and this policy will apply for all service under ACCESS LYNX umbrella (including TD trips). We often receive calls in reference to the status of a pick up time, we remind customers that we may arrive anytime within the 30 minute negotiated pickup window. We also ask customers to please wait until we are outside that window before a call is placed regarding the pick up.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Trip Request	The process of requesting service may be more
Limit	time consuming because of the trip negotiation
	process discussed above. For this reason, we
	will take only three roundtrip requests during
	any call to ensure that all customers are
	afforded timely response when contacting our
	customer service line.
Two-Way	All vehicles in the ACCESS LYNX system are
Communications	required to have working two-way radios. Two-
	way communications availability is confirmed
	through safety inspections and monitoring.
Unscheduled	With the exception of emergency medical
Stops	conditions, vehicles will only make scheduled
	stops. Pursuant to Florida Statute Section
	395.002: Emergency medical condition will be
	defined as "a medical condition manifesting
	itself by acute symptoms of sufficient severity,
	which may include severe pain, such that the
	absence of immediate medical attention could
	reasonably be expected to result in: (1) serious
	jeopardy to patient health, and/or; (2) serious
	impairment to bodily functions, and/or; (3)
	serious dysfunction of any bodily organ or part.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Use and	In accordance with Florida Statute
Responsibility of	316.613 (Child restraint requirements):
Child Restraint	
Devices	While transporting a child 5 years of age or
	younger, provide for protection of the child by
	properly using a crash-tested, federally
	approved child restraint device. For children
	aged through 3 years such restraint device
	must be a separate carrier or a vehicle
	manufacturers integrated child seat. For
	children aged 4 through 5 years, a separate
	carrier, an integrated child seat, or a seat belt
	may be used.
	The child's PCA is responsible for providing
	the child restraint device and properly installing
	it in the ACCESS LYNX vehicle. The driver is
	to review and approve of the installation before
	the vehicle departs the pickup point.
Vehicle	All vehicles in the ACCESS LYNX system
Cleanliness	must be clean, both interior and exterior. This
	is monitored through customer reports, street
	supervision, and periodic inspections.
Vehicle Transfer	No policies exist on transfer points, since
Points	ACCESS LYNX does not transfer any
	paratransit passengers. At such time when
	transfers are attempted, the points will be the
	same as those used for the fixed route service
	or future SunRail service.

STANDARD	ORANGE, OSCEOLA AND SEMINOLE COUNTIES
Will Calls	If a customer is not ready at the requested return time due to a service problem, we will make every effort to return for them within 30 minutes.
	If the customer is not ready at the requested return time and it is not due to a service problem, we will make every effort to return for the customer within 90 minutes.
	If the customer is at the destination and cannot be found, then they are a no-show. If they need a return trip, we will return for them with no set timeframe, but with a goal of 90 minutes or less.

The length of time that customers are on hold improved significantly in 2020 due to improved technologies and reduced call volumes resulting in an average hold time of December 2020. LYNX has experienced staffing shortages over the past year that resulted in an increase in the average call hold time. The average call hold time during this reporting period has increased to 1 minute 7 seconds.

The availability of the online reservation system called WebACCESS allows ACCESS LYNX customers to manage their own trips without the need to contact a customer service representative. Customers and their representatives can use the internet to request,

change, confirm, cancel trip reservations, and to access and edit the customer's information 24 hours a day, 7 days a week. LYNX has also provided tutorial video on its website to assist customers with learning how to use the new system.

LYNX recently updated the MyACCESS tracking system to allow text messaging to client of trips status. LYNX is also planning to implement new Customer Contact software along with a new agency wide phone system. The assessment of new call center technologies will consider the technologies already in place as well as capabilities to accommodate remote work.

Local Grievance Procedures/Process for TD

A grievance is defined as any ongoing service problem that interferes with accessing a major life activity, such as work, healthcare, employment, education, shopping, social activities, or other life-sustaining activities.

ACCESS LYNX in conjunction with the Local Coordinating Board, has developed and implemented rules and procedures to ensure quality control and to provide participating customers, funding agencies and others with an impartial body to hear complaints and settle disputes concerning service rendered. It should be noted that the LCB holds jurisdiction only over TD

concerns. ADA concerns are under the jurisdiction of the FTA.

A Grievance Subcommittee has been appointed by the Local Coordinating Board Chair and consists of at least three voting members of the Board and may include other appointed volunteers. The procedures and examples of the grievance forms are in Attachment 5.

CTC Monitoring Procedures of Operators and Coordination Contractors

LYNX monitors contracted providers quarterly for contractual, state, and federal regulations compliance. The first three quarterly monitorings of the calendar year, 25 percent of all records are randomly selected for review. The fourth quarterly monitoring of the calendar year, 100 percent of all records are reviewed.

LYNX monitors coordination agency providers annually for state and federal regulation compliance.

COST/REVENUE ALLOCATION AND RATE STRUCTURE JUSTIFICATION

The CTD rate model was used to calculate the one-way ambulatory and wheelchair rates for FY22/23. The model considers the costs and revenues for operating service, including administrative expenses for the following:

- Coordination Contractor Inspections
- Coordination Contractor Monitoring
- Coordination Contractor Reporting
- Monthly Reporting
- Road Supervision
- Contract compliance

Table 14 presents the CTD calculated rates.

Table 14: Transportation Disadvantaged Trip and Equipment Calculated Rates

Service Type	Unit	Rate
Ambulatory	Per trip	\$40.90
Wheelchair	Per trip	\$70.11

III. QUALITY ASSURANCE

The Local Coordinating Board has established a subcommittee to monitor and evaluate the services provided by or coordinated through the CTC. This evaluation occurs annually and is based on the established service standards presented in Table 13. These standards have been reviewed by the Quality Assurance Task Force and adopted with the approval of this TDSP by the LCB.

CTC Evaluation Process

The purpose of the Annual Review is to evaluate the CTC's performance over the previous year. This is conducted using the Commission for the Transportation Disadvantaged *Evaluation Workbook* for Community Transportation Coordinators. Modules include Competition, Cost Effectiveness and Efficiency, and Availability.

The CTC uses this evaluation as a means to detect areas within the CTC that excel and those areas that need improvement. Lastly, this is used as a means to develop future goals and objectives.

The TDLCB is currently in the process of completing the annual CTC review. Results from the review will be added to this section following the May 2022 TDLCB presentation of the evaluation results. The results of

the FY 2019-20 CTC review did not indicate any findings in need of corrective action.

Planning Agency Evaluation Process

In addition to the annual CTC evaluation, the FCTD completed a triennial Quality Assurance and Program Evaluation (QAPE) to monitor the TD service in May 2020.

Attachment 1: Glossary of Terms

The following glossary is intended to coordinate terminology with the Florida Coordinated Transportation System. It is imperative that when certain words or phrases are used that the definition is universally acknowledged.

Glossary of Terms	
Accidents	When used in reference to the AOR, the total number of reportable accidents that occurred through negligence of the transportation provider whereby the result was either property damage of \$1,000,000 or more, or personal injury that required evacuation to a medical facility, or a combination of both
Actual Expenditure Report (AER)	An annual report completed by each state member agency and each official planning agency, to inform the commission in writing before September 15 of each year of the specific amount of funds the agency expended for transportation disadvantaged services.

Advance Reservation	This service requires a minimum one-day prior notice. It differs from subscription service in that ridership, times and pick-up/drop-off points may vary. It differs from demand-response service in that riders must provide prior day notice and must be going to a predetermined destination. It differs from fixed schedule/fixed route in that route and time schedules may vary and is available upon the user's request
Agency	An official, officer, commission, authority, council, committee, department, division, bureau, board, section, or any other unit or entity of the state or of a city, town, municipality, county, or other local governing body or a private nonprofit entity providing or arranging for transportation service as all or part of its charter.
American with Disabilities Act of 1990 (ADA)	A federal law, P.L. 101-336, the ADA provides protection against discrimination for individuals with disabilities.
Annual Budget Estimate (ABE)	Budget estimate of funding resources available for providing transportation services to the transportation disadvantaged, prepared annually to cover a period of one state fiscal year.

Annual Operating Report (AOR)	An annual report including a Finance and Fare Structure Element prepared by the community transportation coordinator detailing its designated are operating statistics for the most recent operating year.
Annual Performance Report (APR)	An annual report issued by the Commission for the Transportation Disadvantaged that combines all the data submitted in the annual Operating Reports (AOR) and the CTD Annual Report.
Availability	A measure of the capability of a transportation system to be used by potential riders, such as the hours the system is in operation, the route spacing, the seating availability, and the pick-up and delivery time parameters.
Bus	Any motor vehicle designed for carrying more than 10 passengers and used for the transportation of persons for compensation.
Bus Lane	A street or highway lane intended primarily for buses, either all day or during specified periods, but used by other traffic under certain circumstances.

Bus Stop	A waiting, boarding, and disembarking area usually designated by distinctive signs and by curbs or pavement markings.
Certified Minority Business Enterprise (CMBE)	Any small business concern which is organized to engage in commercial transactions, domiciled in Florida, and is at least 51 percent owned by minority persons and whose management and daily operations are controlled by such persons. The Florida Department of Management Services should certify these businesses.
Chapter 427, Florida Statutes	The Florida statute establishing the Commission for the Transportation Disadvantaged and prescribing its duties and responsibilities.
Commendation	Any written compliment of any aspect of the coordination system, including personnel, vehicle, service, etc.
Commercial Driver's License (CDL)	A license required if a driver operates a commercial motor vehicle, including a vehicle that carries 16 or more passengers (including the driver), or a vehicle weighing more than 26,000 pounds.

Commission for the Transportation Disadvantaged (CTD)	Authorized in Section 427.013, Florida Statutes, the Commission was established in 1989 to coordinate transportation services provided to the transportation disadvantaged, replacing the Coordinating Council on the Transportation Disadvantaged.
Community Transportation Coordinator (CTC)	Formerly referred to as the "coordinated community transportation provider, the CTC is recommended by the appropriate local planning agency as provided for in Section 427.015(1), Florida Statutes, and approved by the commission, to ensure that coordinated transportation services are provided to serve the transportation disadvantaged population in a designated service.
Competitive Procurement	Obtaining a transportation operator or other services through a competitive process based upon Commissionapproved procurement guidelines.
Complaint	Written customer concern involving timeliness, vehicle condition, and quality of service, behavior of personnel, and other operational policies.

Complete (or full) Brokerage	Type of CTC network in which the CTC does not operate any transportation services itself, but contracts with transportation operators for the delivery of all transportation services.
Coordinated Transportation System	Includes the CTC, the transportation operators and coordination contractors under contract with the CTC, the official planning agency, and local Coordinating Board involved in the provision of service delivery to the transportation disadvantaged within the designated service area.
Coordinated Trips	Passenger trips provided by or arranged through a CTC.
Coordinating Board	An entity in each designated service area composed of representatives who provide assistance to the community transportation coordinator relative to the coordination of transportation disadvantaged services.

Coordination	The arrangement for the provision of transportation services to the transportation disadvantaged in a manner that is cost effective, safe, efficient, and reduces fragmentation and duplication of service. Coordination is not the same as total consolidation of transportation disadvantaged service in any given service area.
Contract	A written contract between the community transportation coordinator and an agency who receives transportation disadvantaged funds and performs some, if not all, of its own services as well as services to others when such service has been analyzed by the CTC and proven to be a safer, more effective, or more efficient service from a total system perspective. The Commission's standard contract reflects the specific terms and conditions that will apply to those agencies that perform their own transportation, as well as joint utilization and cost provisions for transportation services to and from the coordinator.

Deadhead	The miles or hours that a vehicle travels when out of revenue service. From dispatch point to first pick-up, and from last drop-off to home base, or movements from home base to maintenance garage or fuel depot, and return.
Demand Response	A paratransit service that is readily delivered with less than prior day notification, seven days a week, 24 hours a day. This service can be either an individual or a shared ride.
Designated Service Area	A geographical area subject to approval by the Commission, which defines the community where coordinated transportation services will be provided to the transportation disadvantaged.
Disabled Passenger	Any rider with a physical or cognitive impairment that substantially limits at least one major life activity (e.g., caring for one's self; walking, seeing, hearing, speaking, learning).

Dispatcher	The person responsible for having every schedule leave the yard or garage on time and maintaining a schedule monitoring the work force with the work load on a minute-by-minute basis. In demand-response transportation, the person who assigns the customer to vehicles and notifies the appropriate drivers.
Driver Hour	The period of one hour that a person (whose main responsibility is to drive vehicles) works.
Economies of Scale	Cost savings resulting from combined resources (e.g., joint purchasing agreements that result in a lower cost per gallon or quantity discount for fuel).
Effectiveness Measure	A performance measure that evaluates the level of resources expended to achieve a given level of output. An example of an efficiency measure is operating cost per vehicle mile.
Emergency	Any occurrence or threat, whether accidental, natural or caused by man which results in, or may result in, substantial denial of services to a designated service area for the transportation disadvantaged.

Emergency Fuel	Transportation Disadvantaged trust fund monies set aside to address emergency situations and which can be utilized by direct contract without competitive bidding, between the commission and an entity to handle transportation services during a time of emergency
Employees	Persons employed in an organization.
Federal Transit Administration (FTA)	One of 10 modal administrations within the U.S. Department of Transportation, FTA administers federal funding to support a variety of locally planned, constructed, and operated public transportation systems throughout the U.S., including buses, subways, light rail, commuter rail, streetcars, monorail, passenger ferry boats, inclined railways, and people movers.
Fixed Route	Service in which the vehicle(s) repeatedly follows a consistent time schedule and stopping points over the same route, whereby such schedule, route or service is not at the user's request (e.g., conventional city bus, fixed guide-way).
Florida Administrative Code	A set of administrative codes regulating the State of Florida.

Florida Association of Coordinated Transportation System (FACTS)	A transportation system responsible for coordination and service provisions for the transportation disadvantaged as outlines in Chapter 427, Florida Statutes.
Florida Department of Transportation (FDOT)	A state-level agency responsible for providing a safe statewide transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the environment and communities. The CTD is housed under FDOT for administrative purposes.
Florida Statutes (F.S.)	The laws governing the State of Florida.
Full Time Equivalent (FTE)	A measure used to determine the number of employees based on a 40-hour work week. One FTA equals 40 work hours per week.
Fully Allocated Costs	The total cost, including the value of donations, contributions, grants or subsidies, to provide coordinated transportation, including those services which are purchased through transportation operators or provided through coordination contracts.

General Trips	Passenger trips by individuals to destinations of their choice, not
Goal	associated with any agency program. Broad conditions that define what an
	organization hopes to achieve.
Grievance	A formal channel for the adjustment of
Process	grievances through discussions with
	progressively higher levels of
	authority, culminating in mediation, if
In-Service	necessary.
III-Service	The time during which a vehicle is providing transportation service.
Intake	An individual whose primary
Reservationist	responsibility is to accept requests for
1 (C3C) vationist	trips, enter information on requests,
	determine eligibility, and provide
	customer service.
Latent Demand	Demand that is not being met with
	existing levels of service.
Limited Access	Inability of a vehicle, facility, or
	equipment to allow entry or exit to all
	persons. Lack of accessibility of
	vehicle, facility or equipment.
Load Factor	The ratio of use to capacity of
	equipment or a facility during a
	specified time period.
Local	An elected and/or appointed public
Government	body existing to coordinate, govern,
	plan, fund, and administer public
	services within a designated, limited
	geographic area of the state.

Local Government Comprehensive Plan	A plan that meets the requirements of Section 163.3177 and 163.3178, Florida Statute.
Local Coordinating Board (LCB)	An entity in each designated service area composed of representatives appointed by the official planning agency. Its purpose is to provide assistance to the community transportation coordinator concerning the coordination or transportation disadvantaged services.
Management Information System (MIS)	The mechanism that collects and reports key operating and financial information for managers on a continuing and regular basis.
Memorandum of Agreement (MOA)	The state contract included in the transportation disadvantaged service plan for disadvantaged services purchased by federal, state, or local government transportation disadvantaged fund. This agreement is between the commission and the community transportation coordinator and recognizes the community transportation coordinator as being responsible for the arrangement of the provision of transportation-disadvantaged services for a designated service area.

Metropolitan Planning Organization (MPO)	The area-wide organization responsible for conducting the continuous cooperative and comprehensive transportation planning and programming in accordance with the provisions of 23 U.S.C. 134, as provided in U.S.C. 104(f)(3). Also serves as the official planning agency referred to in Chapter 427, F.S.
Network Type	Describes how a community transportation coordinator provides service, whether as a complete brokerage, partial brokerage, or sole provider.
Non- Coordinated Trip	A trip provided by an agency, entity, or operator who is in whole or in part subsidized by local, state, or federal funds, and who does not have coordination/operator contract with the community transportation coordinator.
Non-Sponsored Trip	Transportation disadvantaged services that are not sponsored in whole by the Transportation Disadvantaged Trust Fund.
Objective	Specific, measurable conditions that the organization establishes to achieve its goals.

Off-Peak	A period of day or night during which travel activity is generally low and a minimum of transit service is operated.
Official	The official body or agency
Planning	designated by the Commission to
Agency (OPA)	fulfill the functions of transportation
	disadvantaged planning. The
	Metropolitan Planning Organization
	shall serve as the planning agency in
	areas covered by such organizations.
Operating Cost	The sum of all expenditures that can
	be associated with the operation and
	maintenance of the system during the
	particular period under consideration.
Operating Cost	Operating costs divided by the total
per Driver Hour	number of passenger trips, a measure
	of the efficiency of transporting riders. One of the key indicators of
	comparative performance of transit
	properties since it reflects both the
	efficiency with which service is
	delivered and the market demand for
	the service.
Operating Cost	Operating costs divided by the
per Vehicle	number of vehicle miles, a measure of
Mile	the cost efficiency of delivered service
Operating	Describes whether the community
Environment	transportation coordinator provides
	service in an urban or rural service
	area.

Operating Expenses Sum of all expenses associated with the operation and maintenance of a transportation system Operating All revenues and subsidies utilized by the operator in the provision of transportation services. Operating Data on various characteristics of operations, including passenger trips, vehicle miles, operating costs, revenues, vehicles, employees,
Operating All revenues and subsidies utilized by the operator in the provision of transportation services. Operating Data on various characteristics of operations, including passenger trips, vehicle miles, operating costs,
Operating Revenues All revenues and subsidies utilized by the operator in the provision of transportation services. Operating Data on various characteristics of operations, including passenger trips, vehicle miles, operating costs,
Revenues the operator in the provision of transportation services. Operating Data on various characteristics of operations, including passenger trips, vehicle miles, operating costs,
transportation services. Operating Statistics Data on various characteristics of operations, including passenger trips, vehicle miles, operating costs,
Operating Data on various characteristics of operations, including passenger trips, vehicle miles, operating costs,
Statistics operations, including passenger trips, vehicle miles, operating costs,
vehicle miles, operating costs,
revenues, vehicles, employees,
accidents, and road calls.
Operator A written contract between the
Contract community transportation coordinator
and a transportation operator to
perform transportation services.
Organization Describes the structure of a
Type community transportation coordinator,
whether it is a private-for-profit,
private non-profit, government, quasi-
government, or transit agency.
Paratransit Elements of public transit that provide
service between specific origins and
destinations selected by the individual
user with such service being provided
at a time that is agreed upon between
the user and the provider of the
service. Paratransit Services are
provided by sedans, vans, buses, and
other vehicles.

Partial Brokerage	Transportation services and contracts with one or more other transportation operators to provide the other portion of the on-street transportation disadvantaged services, including coordination contractors.
Passenger Miles	A measure of service utilization, which represents the cumulative sum of the distances ridden by each passenger. This is a duplicated mileage count. For example: if 10 people ride together for 10miles, there would be 100 passenger miles
Passenger Trip	A unit of service provided each time a passenger enters the vehicle, is transported, and then exits the vehicle. Each different destination would constitute a passenger trip. This unit of service is also known as a one-way passenger trip.
Passenger Trips per Driver Hour	A performance measure used to evaluate service effectiveness by calculating the total number of passenger trips divided by the number of driver hours.
Passenger Trips per Vehicle Mile	A performance measure used to evaluate service effectiveness by calculating the total number of passenger trips divided by the number of vehicle miles.

Peer Group Analysis	A common technique used to evaluate the general performance of a since operator relative to the performance of a comparable group of operators of similar size, operating environments, and modal characteristics.
Performance Measure	Statistical representation of how well an activity, task, or function is being performed. Usually computed from operating statistics by relating a measure of service output or utilization to a measure of service input or cost.
Planning Agency	The Official body or agency designated by the Commission to fulfill the functions of transportation disadvantaged planning in areas not covered by a metropolitan Planning Organization.
Potential TD Population	(Formerly referred to as TD Category 1.) Includes persons with disabilities, senior citizens, low-income persons, and high-risk or at risk children. These persons are eligible to receive certain governmental and social service agency subsidies for program-related trips.

Program Trip	A passenger trip supplied or sponsored by a human service agency for the purpose of transporting customers to and from a program of that agency (e.g., sheltered workshops, congregate dining, and job training).
Public Transit	Means the transporting of people by conveyances or systems of conveyances traveling on land or water, local or regional in nature, and available for use by the public. Public transit systems may be governmental or privately owned. Public transit specifically includes those forms of transportation commonly known as paratransit.
Purchased Transportation	Transportation services provided for an entity by a public or private transportation provider based on a written contract.
Request for Bids (RFB)	A competitive procurement process.
Request for Proposals (RFP)	A competitive procurement process.
Request for Qualifications (RFQ)	A competitive procurement process.

Reserve Fund	Transportation disadvantaged trust fund monies set aside each budget year to insure adequate cash is available for incoming reimbursement requests if estimated revenues do not materialize.
Revenue Hour	Total vehicle hours used in providing passenger transportation, excluding deadhead time.
Revenue Miles	Total number of service miles driven while passengers are actually riding on the vehicles. This figure should be calculated from first passenger pick-up until the last passenger drop-off, excluding any breaks in actual passenger transport. For example: if 10 passengers rode 10 miles together, there would be 10 revenue miles.
Ridesharing	Sharing of a vehicle by customers of two or more agencies, thus allowing for greater cost efficiency and improved vehicle utilization.
Road Call	Any in-service interruption caused by failure of some functionally necessary element of the vehicle, whether the rider is transferred or not. Road calls exclude accidents.

Ride 41-2, FAC	Rule adopted by the Commission for the Transportation Disadvantaged to implement provisions in Chapter 427, F.S.				
Scheduler	A person who prepares an operating schedule for vehicles on the basis of passenger demand, level of service, and other operating elements such as travel times or equipment availability				
Service Plan	A one-year implementation plan that contains the goals the Community Transportation Coordinator plans to achieve and the means by which they plan to achieve them. The plan shall be approved and used by the Coordinating Board to evaluate the Community Transportation Coordinator.				
Sole Provider	(Also referred to as Sole Source.) Network type in which the CTC provides all of the transportation disadvantaged services.				
Sponsored Trip	A passenger trip that is subsidized in part or in whole by a local, state, or federal government funding source (not including monies provided by the TD Trust Fund).				
Standard	Established by authority, custom, or general consent as a model or example.				

Stretcher Service	Form of non-emergency paratransit service whereby the rider is transported on a stretcher, litter gurney, or other device that does not meet the dimensions of a wheelchair as defined in the Americans with Disabilities Act
Subscription Service	A regular and recurring service in which schedules are prearranged to meet the travel needs of riders who sign up for the service in advance. The service is characterized by the fact that the same passengers are picked up at the same location and time and are transported to the same location, and then returned to the point of origin in the same manner.
System Safety Program Plan (SSPP)	A documented, organized approach and guide to accomplishing a system safety program set forth in Florida rule 14-90.
Total Fleet	All revenue vehicles held at the end of the fiscal year, including those in storage, emergency contingency, awaiting sales, etc.
Total Quality Management (TQM)	Management philosophy utilizing measurable goals and objectives to achieve qualify management practices.

Transportation Alternative	Those specific transportation services that are approved by rule to be acceptable transportation alternatives, as defined in s. 427.018, F.S.
Transportation Disadvantaged	Those persons, including children as defined in s. 411.202 F.S., who because of physical or cognitive disability, income status, or inability to drive due to age or disability are unable to transport themselves or to purchase transportation and have no other form of transportation available. These persons are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, or medically necessary or life-sustaining activities.

Transportation Disadvantaged Funds	Any local government, state, or federal funds that are used for transportation of transportation disadvantaged individuals. Such funds may include, but are not limited to, funds for planning, transportation provided pursuant to the ADA, administration of transportation disadvantaged service, operation, procurement and maintenance of vehicles or equipment, and capital investments. Transportation disadvantaged funds do not include funds expended by school districts for the transportation of children to public schools or to receive service as a part of their educational program.
Transportation Disadvantaged population	(Formerly referred to as TD Category II.) Persons, including children, who, because of disability, income status, or inability to drive to age or disability are unable to transport themselves.
Transportation Disadvantaged Service Plan (TDSP)	A three-year implementation plan, with annual updates developed by the CTC and the planning agency, which contain the provisions of service delivery in the coordinated transportation system. The plan is reviewed and recommended by the Local Coordinating Board.

Transportation Disadvantaged Trust Fund	A fund administered by the Commission for the Transportation Disadvantaged in which all fees
Trust i unu	collected for the transportation disadvantaged program shall be
	deposited. The funds deposited may be used to subsidize a portion of transportation-disadvantaged
	person's transportation costs that are not sponsored by an agency.
Transportation	A company that uses an online-
Network	enabled platform to connect
Company	passengers with drivers using their
(TNC)	personal, non-commercial, vehicles. Examples include LYFT and Uber.
Transportation	Public, private for-profit, or private
Operator	non-profit entity engaged by the
·	community transportation coordinator to provide service to the
	transportation disadvantaged
	pursuant to an approved coordinated
	transportation system transportation
	disadvantaged service plan.
Transportation	The Commission's standard
Operator	coordination/operator contract
Contract	between the community transportation
	coordinator and the transportation
	operator that outlines the terms and
	conditions for any services to be
	performed.

Trend Analysis	A common technique used to analyze						
	the performance of an organization						
	over a period of time.						
Trip Priorities	Various methods for restricting or rationing trips.						
Trip Sheet	A record kept of specific information required by ordinance, rule or operating procedure for a period of time worked by the driver of a public passenger vehicle in demand						
	response service. Also known as a driver log.						
Unduplicated Passenger Head Count (UPHC)	The actual number of people that were provided paratransit transportation services, not including personal care attendants, non-pay escorts, or persons provided fixed-schedule/fixed-route service.						
Unmet Demand	Trips desired but not provided because of insufficient service supply.						
Urbanized Area	An area that comprises one or more places ("central place") and the adjacent densely settled surrounding territory ("urban fringe") that together have a minimum of 50,000 persons.						

U.S. Department of Transportation	A federal cabinet department of the United States government concerned with transportation established in 1966. Its mission is to "Serve the United States by ensuring a fast, safe, efficient, accessible and convenient transportation system that meets our vital national interests and enhances the quality of life of the American people, today and into the future."
Van Pool	A prearranged ride-sharing service in which a number of people travel together on a regular basis in a van. Van pools are commonly companysponsored, with a regular volunteer driver.
Vehicle Inventory	An inventory of vehicles used by the CTC, transportation operators, and coordination contractors for the provision of transportation disadvantaged services.
Vehicle Miles	The total distance traveled by revenue vehicles, including both revenue miles and deadhead miles.
Vehicle Miles per Vehicle	A performance measure used to evaluate resource utilization and rate of vehicle depreciation, calculated by dividing the number of vehicle miles by the total number of vehicles.

Volunteers	Individuals who do selected tasks for the community transportation coordinator or its contracted operator, for little or no compensation.
Will-Calls	Trips that are requested on a demand response basis, usually for a return trip. The transportation provider generally expects a request for a will-call trip but cannot schedule the trip in advance because the provider does not know the exact time a passenger will call to request his/her trip.

Attachment 2: LYNX Eligibility Application

ACCESS LYNX TRANSPORTATION DISADVANTAGED (TD) PROGRAM

Thank you for your interest in the Transportation Disadvantaged (TD) program which is a shared-ride door to door service provided to eligible residents of Orange, Osceola, and Seminole counties.

Eligibility:

To be eligible for the TD program, the applicant must meet **two of the three** following criteria:

- 1. Have no access to a fixed route.
- 2. Have a disability.
- 3. Have an income level at or below 185% of Federal Poverty level.

(Pursuant to the 2020 Federal Poverty Guideline, 185% of the Federal Poverty Level is \$23,606.) The income level used for this criteria is the **individual** applicant's income - not the applicant's household income.

If the disability criteria is applicable, the Medical section of this application (Section 4) must be completed and signed by a Florida licensed physician. You may attach supporting documentation to this application.

You are required to provide identification and applicable financial supporting documents upon submission. Self-declaration of income is not accepted. Processing may take up to 21 days from receipt of completed application.

We will make every effort to verify your individual income and any medical information provided. If necessary, further information may be requested to determine eligibility.

Completed TD applications must contain all requested information. Please be sure to sign this application where appropriate, and attach a copy of your Florida ID or Driver's license along with all other required supporting documentation.

ACCESS LYNX AMERICANS WITH DISABILITIES ACT (ADA) PROGRAM

Thank you for your interest in the Americans with Disabilities Act (ADA) program which is a shared-ride door to door service provided to eligible residents of Orange, Osceola, and Seminole counties.

Please be sure to complete all information requested and sign where appropriate. The Medical section must be completed and signed by a Licensed Professional (familiar with your disability or health condition and your functional abilities). If necessary, further information may be requested to determine eligibility.

Recertification Requirements:

Permanent (continued) Eligibility – Automatic recertification will be considered for individuals who cannot use LYNX bus service under any circumstances and/or whose disability is unlikely to improve. Customers who have been provided permanent eligibility will receive a verification document to update/recertify their information and note any changes in their travel abilities or needs **every three years from date of the initial eligibility**.

Standard Eligibility - All customers granted approval under this category (unconditional/conditional) will be required to recertify **every two years from date of the initial eligibility.**

Temporary Eligibility - All customers granted approval under this category will be required to recertify based on the length of time granted in the approval.

Customers that are ADA eligible with another transit provider may use ACCESS LYNX by providing documentation of their eligibility status prior to needing to travel. This same right applies to ACCESS LYNX customers traveling to other communities that offer complimentary ADA paratransit services.

<u>Disclaimer:</u> Completing this application does not automatically certify you for paratransit services. Some applicants may be required to go through a functional assessment to assist us in determining your level of eligibility. All applicants will be notified by mail of the outcome of their application. Processing may take up to 21 days from receipt of a completed application to include completion of a Functional Assessment if required.

Attachment 3: ACCESS LYNX Appeal Process

Attn: Eligibility Coordinator 455. North Garland Ave. Orlando, FL 32801-1518 407-423-TRIP (8747), Option 6

ACCESS LYNX ADA APPEAL PROCESS

Pursuant to US Department of Transportation regulations implementing ADA paratransit requirements (USC 49 Part 37 Subpart F. Section 37.125) ACCESS LYNX service may appeal:

- A determination that an applicant is not eligible for ADA paratransit service
- Conditions placed upon eligibility for use of ACCESS LYNX service
- Denial of a particular trip request due to conditional eligibility to any particular trip request

ACCESS LYNX will also hear appeals on:

- Suspension of service
- No-shows
- Conduct

Filing An Appeal

- 1. All appeals must be filed in writing within 60 calendar days of the receipt of the original determination letter of ineligibility or conditional eligibility, suspension of service notification letter or denial of a specific trip request. If the 60th day after the original determination or trip denial is on a weekend or a legal holiday, an appeal will be accepted on the next subsequent business day.
- 2. The Authority will enclose an appeals form with the notification letter, time frame that the appeal is to be submitted, and who the appeal is to be submitted to. If, due to disability, the appellant is unable to send written notification of appeal, the Authority may designate a staff member to submit the appeal in the appellant's own words. The appellant also has the option of having the same source that filled out the original application write out the appeal.
- 3. The applicant shall identify in writing, their name, address, telephone number, and the facts in support of their appeal. In describing the appeal, the applicant shall clearly and concisely state why they believe determination does not accurately

reflect their ability to use fixed route, or why suspension is inappropriate. Copies of all supporting documents will accompany the appeal when mailing. An appellant may, however, request an appeal hearing without providing additional detail and without the submission of additional written materials or information. Having all materials mailed assists the Coordinator in the review process. All materials must be filed with the Eligibility Coordinator of Paratransit, ACCESS LYNX, 455 North Garland Avenue, Orlando, Florida, 32801.

4. Upon receipt, all appeals will be date-stamped and referred to the ADA Coordinator for initial review and consideration. The Coordinator will review the request. If a third-party (panel) review is required, the appeal hearing should normally be conducted within one week following the determination of the Coordinator. If necessary, arrangements will be made with LYNX to transport the appellant to and from the appeal meeting. The appellant may bring a second party to assist with the presentation.

5. Interim Service:

a. During the period between the receipt of an appeal of an initial determination regarding eligibility and the determination of the Review Panel, no ADA paratransit service will be provided to the applicant.

- b. If an appeal is taken based upon a determination of trip eligibility, service for the trip in question will be provided until an appeal hearing is concluded.
- c. If an appeal is taken based upon a suspension of service for any reason other than violent or threatening behavior, service will be provided until an appeal hearing is concluded.
- d. If an appeal is taken based upon a suspension of service for violent or threatening behavior, service will <u>not</u> be provided during the appeal process.
- 6. If no decision has been made within 30 days of the hearing, service will be provided on an interim basis pending final determination.
- 7. After the *completion of the appeal process*, the Review Panel will render its determination within thirty (30) days of its consideration of the appeal.
- 8. A panel will hear the appeal for the Authority. The panel will consist of people who have been chosen for objectivity, independent perspective, and added knowledge of ADA paratransit eligibility, fixed route service and policies, paratransit service and policies, the disability of the appellant. The ACCESS LYNX Eligibility Coordinator will serve as the Administrator of the hearings and will record all

- proceedings. No management, to include the Paratransit Eligibility Coordinator, will have voting rights. The chair of the panel will be elected by the appeal panel to serve on an annual basis.
- The panel will conduct the appeal meeting in an orderly and professional manner in accordance with Parliamentary Procedure (Robert's Rules). The Authority's staff will present information on why the determination of eligibility, suspension or no shows was made.
- 10. The panel will prepare a written determination that shall be delivered to the Authority. A simple majority ruling is required. The Authority's written determination will state the panel's reasons for confirming or overturning the original determination. The appellant will be notified via certified, returnreceipt mail of the final determination.
- 11. The panel shall complete all appropriate paper work associated with the appeal. The appeals files shall be forwarded to the Authority for safekeeping and storage.
- 12. All materials that are written will be provided in a format accessible by the appellant.
- 13. The appeals process is the final decision within the Authority.

All appellant's materials and documentations, to include but not limited to, application and supporting materials remain the property of ACCESS LYNX and will be returned to the Supervisor or Coordinator at the conclusion of the hearing.

Members of the Review Panel will in no way discuss the details of an appeal or regarding the name or other identifying characteristics of the appellant with any person not directly involved in the appeal. Members may discuss information of a general sort regarding a particular type of disability and its functional impact upon a person to access fixed route in preparation for a hearing, but are advised to take care that information is not shared.

All session are audio taped. Tapes along with supporting materials will remain the property of ACCESS LYNX for five (5) years at which time they will be destroyed. Copies of these tapes and materials will be made and released only through the process of legal discovery (fact-finding) undertaken in any subsequent legal action.

Other accessible formats available upon request.

Attachment 4: ACCESS LYNX Request for Appeal

PURPOSE: To apply for review of the decision to deny

individual ADA Paratransit eligibility whether

temporary or permanent.

To File An Appeal of Your Individual Eligibility for Paratransit Services:

Step 1. Complete the "Eligibility Determination Appeals Request Form". Completed forms must be submitted within sixty (60) calendar days of the date of denial stated on the "letter of denial". For example, if your denial date is March 1st, the deadline for submittal of the Eligibility Determination Appeals Request is May 1st.

Appeals Request

The appeal request must include a complete form and any additional information documenting the individuals individual eligibility for Paratransit services.

Step 2. The Appeals Request Form and any additional information must be submitted to the Manager of the Paratransit Intake Department or to an appointed representative. It must be submitted in an envelope, addressed to:

Paratransit Eligibility Appeals
Paratransit Operations, Intake Dept.
Manager
455 North Garland
Orlando, Florida 32801

Upon receipt by Manager, the Appeals Request Form is immediately date-stamped

- Step 3. Upon receipt, the intake Manager reviews the Appeal Form for completeness and notes any additional information submitted. The Request Manager then completes and returns Response Letter to the appellant.
- Step 4. If an appeal is not submitted within 60 days, no hearing will be held the appellant has missed the opportunity to appeal.
 - A. The Appeals Panel Representatives Pool is as follows:
 - One representative of a Transit Operator
 - One representative of the medical profession
 - · One representative user of:
 - 。a. Fixed Route
 - b. Lift-Van /Ramped Taxi
 - c. Taxi
 - d. Agency Receiving Services

There will be three to five total Panel Members

- B.Panel Members have an opportunity to review the Appeal Request Form and any accompanying material prior to the hearing date. All information is treated as confidential by the Panel Members and staff.
- C.The applicant will be notified of the hearing date, time and location. They are strongly encouraged to attend the hearing although it is not required. If the applicant chooses, he/she may be accompanied by on representative and/or one attendant, and the applicant may provide an interpreter or may request that an interpreter be provided.
- D.An appeal hearing is confidential and is not a public meeting. The location of the hearing will be held at a neutral site.

E.On the day of the hearing:

- 1. The staff introduces appellant to panel members and reviews determination of eligibility for paratransit.
- 2. The appellant and staff each have equal time (10 minutes) to present information specific to eligibility before Appeals Panel.
- 3. The panel members may ask questions after the presentations by the staff and

appellant at their discretion.

- 4. Upon completion of questions, the appellant is informed:
 - a. A decision on eligibility status will be made within thirty days.
 - b. If a panel decision is not made by the 31st day, appellant may request use of Paratransit services until decision is made.
- 5. Panel members discuss applicant's case and all other information provided as part of the hearings after applicant and staff are excused.
- 6. Panel members may:
 - a. Come to a common conclusion on eligibility;
 - b. Vote on determination of eligibility; or
 - c. State reasons for decision, special conditions for eligibility or denial of service.

Attachment 5: Grievance Procedure

ORANGE, OSCEOLA, AND SEMINOLE COUNTIES LOCAL COORDINATING BOARD

GRIEVANCE PROCEDURE FOR TRANSPORTATION DISADVANTAGED SERVICES

February 10, 2022

GRIEVANCE PROCEDURE

I.CREATION OF A GRIEVANCE PROCEDURE

- A. This is hereby created and established as a Grievance Procedure.
- B. The Transportation Disadvantaged Local Coordinating Board (TDLCB) Grievance Committee is hereinafter created and referred to as the Grievance Committee.

II.DEFINITIONS

As used in this procedure, the following words and terms shall have the meanings assigned herein:

A. Community Transportation Coordinator (CTC)

A transportation entity appointed to ensure that coordinated transportation services are provided to the transportation disadvantaged population in a designated service area.

B. Transportation Disadvantaged (Customer)

Those persons who, because of physical or mental disability, income status, or age or who for other reasons are unable to transport themselves or to purchase transportation, and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or other life sustaining activities, or children who are high-risk.

C. Funding Agency

Those agencies, which have a funding agreement with the CTC for transportation services for their transportation disadvantaged customers.

D. Transportation Operator (Carrier)

The entity providing transportation services for the transportation disadvantaged, whether it be private non-profit, private for profit, or public operator.

III. OBJECTIVE

- A. The objective of the Grievance Process shall be to process, investigate and make recommendations, in a timely manner on formal written complaints/grievances that are not resolved between individual agencies/entities, including the CTC and the contract service provider and/or the contract service provider and the customer.
- B. The implementation of these rules and procedures will ensure quality control and the ability to provide participating customers, funding agencies and others with an impartial body to hear complaints and submit recommendations regarding the grievance as indicated.

C. Apart from this grievance process, aggrieved parties with proper standing may also have recourse through Chapter 120, Florida Statutes Administrative Hearing Process, or the judicial court system.

IV.MEMBERS

- A. Members of the Grievance Committee shall be appointed by the Transportation Disadvantaged Local Coordinating Board Chair and shall consist of at least five (5) voting members of the TDLCB and may include other appointed volunteers.
- B. Grievance Committee members will be appointed annually, however, the committee will only meet should a grievance be elevated to the level of STEP TWO Appeal, as outlined in Section V. Grievance Procedures.

C. Term of Members

- 1. The members of the Grievance Committee shall serve a term of one year, with allowances for multiple terms.
- 2. The Grievance Committee shall elect a Chairperson and Vice-Chairperson.
- 3. A simple majority shall be present for any official action. The meetings shall be held at such times as the Grievance Committee may determine.
- 4. No voting member will have a vote on an issue that is deemed a conflict of interest.

V. GRIEVANCE PROCEDURES

- A. A Grievance is defined as any ongoing service problem that interferes with accessing a major life activity, such as work, healthcare, employment, education, shopping, social activities, or other life sustaining activities.
 - 1. A service problem must be documented as ongoing for a 30-day period.
 - 2. The customer must demonstrate that they have unsuccessfully attempted to resolve the issue with the CTC on multiple occasions.
 - The customer must demonstrate a level of service that has been provided which is below locally accepted service standards.
 - 4. The Grievance Committee may hear other issues at their discretion, such as issues related to carriers and/or sponsors of service.
- B. Every effort will be made by the CTC to resolve service problems. However, if unable to resolve the problem and/or the grievant wishes to take further action, then the CTC will provide the grievant with assistance with the official grievance process.

C. STEP ONE

2 | Page

When the CTC is advised that the customer wishes to file a grievance, the CTC will send the customer the Grievance Form and a copy of the current ORANGE, OSCEOLA AND SEMINOLE COUNTIES LOCAL COORDINATING BOARD GRIEVANCE PROCEDURE FOR TRANSPORTATION DISADVANTAGED SERVICES. Notification of the intent to file a Grievance must be made in writing to the CTC's Director of Mobility Services.

All documents pertaining to the grievance process will be made available, upon request, in a format accessible to persons with disabilities.

2. Upon receipt of the completed Grievance Form, the CTC will assign a CTC File Number and initiate a Grievance Log Tracking Form. The CTC Designee will review the Grievance Form and all support documentation and then prepare a written response. The response shall be completed and mailed (Certified and Return Receipt Requested) within ten (10) business days after receiving the grievance. A copy of the response should also be provided to MetroPlan Orlando (MPO).

A file folder should be established for the grievance. This folder should have the name of the grievant and CTC File Number. The folder should contain the original support documentation, the CTC's response, and any other data about the case.

The CTC will respond to Grievance and issue a judgment based on:

- "Resolved" The CTC feels that the customer's concerns, as stated in the Grievance Form, have been addressed to the best of their ability and the case is resolved.
- "Unresolved" The CTC feels that the issues stated in the Grievance Form have not been resolved due to existing policy, procedure, service standards, lack of evidence or a lack of resolve.
- 3. If the customer feels that the concern has not been properly addressed, they will have the option to appeal as stated in Step Two of the Grievance Process. As part of the Step One Response, the customer will be notified of their right to appeal, as well as the process for appeal. Appeals must be submitted to MetroPlan Orlando (MPO) within ten (10) business days of the Step One Response (based on postmark).

STEP TWO

- Upon responding to the customer's Step One Grievance, the CTC will forward all original documentation to the MPO.
- 2. Once notified of the customer's desire to appeal the decision, MPO staff will notify the Grievance Committee of the date of the Step Two Grievance Hearing. Upon receipt of the Appeal, the MPO shall have ten (10) working days to contact Grievance Committee members and set a grievance hearing date. The grievant

and all parties involved shall be notified at least seven (7) business days before the hearing date by Certified Mail, Return Receipt Requested. The hearing will take place within thirty (30) days of the notice of appeal.

- a) The Grievance Committee shall have the power to hold hearings and conduct investigations in all matters relating to grievances brought before the committee.
- b) The Grievance Committee shall review the material presented and issue a recommendation or recommendations to all parties involved within ten (10) working days of the date of the hearing. Said notice shall be sent to all parties by Certified Mail, Return Receipt Requested.
- c) All meetings and hearings will be open to the public.
- d) Minutes shall be kept at each hearing and filed with the TDLCB and shall be public record.
- 3. The MPO will complete the Grievance Tracking Form for this and subsequent steps of the process.

D. STEP THREE

- 1. Both the CTC and the grievant will have the right of appeal of any recommendation(s) of the Grievance Committee to the full TDLCB.
- 2. Upon notification of the desire to appeal the Step Two recommendation(s), the MPO will notify all parties of the date, time and location of the next scheduled TDLCB meeting via Certified Mail, Return Receipt Requested.
- 3. The MPO will update the file and the Grievance Log Tracking Form.
- 4. It is important to note that during the entire process, the CTC and/or MPO should keep the Commission for the Transportation Disadvantaged informed of the recommendation(s) made at the various steps of the process. Further, all files and documentation associated with the case must be kept updated by the CTC at all times during this process.

CERTIFICATION

The undersigned hereby certifies, as Chairperson of the Transportation Disadvantaged Local Coordinating Board for Orange, Osceola and Seminole Counties that the foregoing is a true and correct copy of the Grievance Procedure of the TDLCB as adopted the 10th day of February, 2022.

Honorable Mayra Uribe, Chairperson, for the Orange, Osceola, and Seminole Counties Transportation Disadvantaged Local

YELLOW cells are <u>NEVER</u> Generated by Applying Authorized Rates

BLUE cells
Should be funds generated by rates in this spreadsheet

GREEN cells

MAY BE Revenue Generated by Applying Authorized Rate per Mile/Trip Charges

Fill in that portion of budgeted revenue in Column 2 that will be <u>GENERATED</u> through the application of authorized per mile, per trip, or combination per trip plus per mile rates. Also, include the amount of funds that are Earmarked as local match for Transportation Services and <u>NOT</u> Capital Equipment purchases.

If the Farebox Revenues are used as a source of Local Match Dollars, then identify the appropriate amount of Farebox Revenue that represents the portion of Local Match required on any state or federal grants. This does not mean that Farebox is the only source for Local Match.

Please review all Grant Applications and Agreements containing State and/or Federal funds for the proper Match Requirement levels and allowed sources.

GOLD cells

Fill in that portion of Budgeted Rate Subsidy Revenue in Column 4 that will come from Funds Earmarked by the Funding Source for Purchasing Capital Equipment. Also include the portion of Local Funds earmarked as Match related to the Purchase of Capital Equipment if a match amount is required by the Funding Source.

Budgeted Rate Base Worksheet

CTC: CFRTA/LYNX

County: Orange, Seminole and Osceola

- 1. Complete applicable GREEN cells in column 3; YELLOW and BLUE cells are automatically completed in column 3
- 2. Complete applicable GOLD cells in column and 5

Amount of <u>Budgeted</u> Operating Rate Subsidy Revenue

Total Expenditures = \$ 35,845,352 minus EXCLUDED Subsidy Revenue = \$ 31,512,798

Budgeted Total Expenditures INCLUDED in Rate Base = \$ 4,332,554 Rate Base Adjustment¹ = \$ 29,244,519 Adjusted Expenditures Included in Rate
Base = \$ 33,577,073

¹ Rate Base Adjustment Cell

If necessary and justified, this cell is where you could optionally adjust proposed service rates up or down to adjust for program revenue (or unapproved profit), or losses from the Actual period shown at the bottom of the Comprehensive Budget Sheet. This is not the only acceptable location or method of reconciling for excess gains or losses. If allowed by the respective funding sources, excess gains may also be adjusted by providing system subsidy revenue or by the purchase of additional trips in a period following the Actual period. If such an adjustment has been made, provide notation in the respective extanation area of the Comprehensive Budget tab.

¹ The Difference between Expenses and Revenues for Fiscal Year:

2020 - 2021

Once Completed, Proceed to the Worksheet entitled "Program-wide Rates"

Worksheet for Program-wide Rates

CTC: CFRTA/LYNX Version 1.4

County: Orange, Seminole and Osceola

1. Complete Total Projected Passenger Miles and ONE-WAY Passenger Trips (GREEN cells) below

Do NOT include trips or miles related to Coordination Contractors!

Do NOT include School Board trips or miles UNLESS......

INCLUDE all ONE-WAY passenger trips and passenger miles related to services you purchased from your transportation operators!

Do NOT include trips or miles for services provided to the general public/private pay UNLESS..

Do NOT include escort activity as passenger trips or passenger miles unless charged the full rate for service!

Do **NOT** include fixed route bus program trips or passenger miles!

Fiscal Year 2022 - 2023

Avg. Passenger Trip Length = 14.3 Miles

Rates If No Revenue Funds Were Identified As Subsidy Funds

Rate Per Passenger Mile = \$ 6.63

Rate Per Passenger Trip = \$ 94.85

Once Completed, Proceed to the Worksheet entitled "Multiple Service Rates"

Vehicle Miles

The miles that a vehicle is scheduled to or actually travels from the time it pulls out from its garage to go into revenue service to the time it pulls in from revenue service.

Vehicle Revenue Miles (VRM)

The miles that vehicles are scheduled to or actually travel while in revenue service. Vehicle revenue miles exclude:

Deadhead

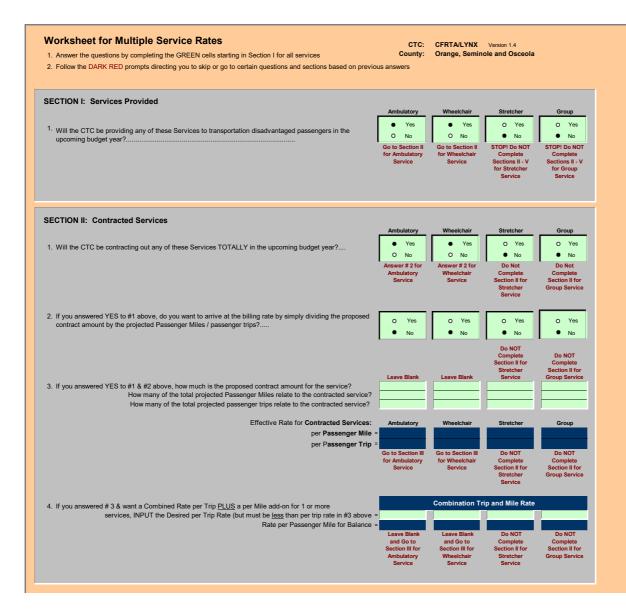

Operator training, and

Vehicle maintenance testing, as well as

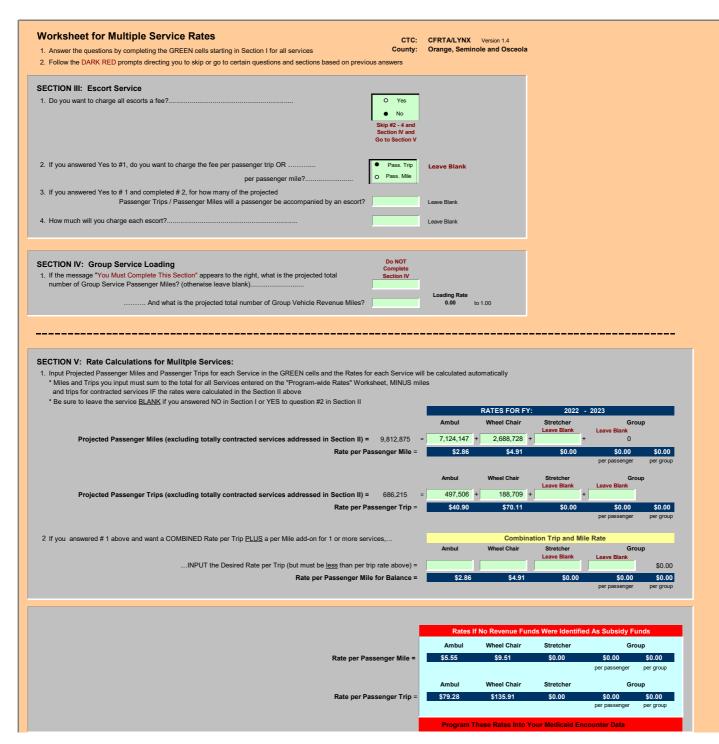

School bus and charter services.

Passenger Miles (PM)

The cumulative sum of the distances ridden by each passenger.
