VII. ACTION ITEMS

A. Review and Recommendation of Draft TDSP Major Update

Ms. Trish Whitton, LYNX

Ms. Trish Whitton will review the proposed minor updates to the 2023 Major Update to the Transit Development Services Plan (TDSP) and request QATF recommend approval to the full TDLCB.

Due to the size of the document, a link is being provided to view the Draft TDSP Major Update online: Quality Assurance Task Force (QATF) (metroplanorlando.org)

B. Review and Recommendation of Annual Rate Calculation Worksheet (Tab 1)

Mr. Norm Hickling, LYNX

Mr. Norm Hickling will review the proposed Rate Calculation worksheet and request QATF recommendation to accept the rate calculations to the full TDLCB. The CTD forecasted rate decreased for FY2024 because the anticipated cost of providing purchased transportation trips using TransDev is at a discount to the current per trip rate charged by MV Transportation. The Rate Calculation Worksheet has been reviewed and approved by the Commission for Transportation Disadvantaged for TDLCB action.

Subject: [MACRO WARNING] OOS 2023-24 Approved Rate Model

Attachments: 2023-24 OOS County Rate Model Approved.xls

Selita,

I have reviewed the attached 2023-24 Rate Model Calculation Spreadsheet for some of the most common procedural and utilization errors. All questions have been addressed and it is approved for further review at the local level as appropriate.

By copy of this email, I am advising your planning agency on our completion of this effort and the readiness to advance the spreadsheet to the LCB for approval and inclusion in the TDSP update, if not already done.

When the time comes, I will produce your Trip and Equipment grant agreement with the passenger trip rates from this spreadsheet presuming no further changes by you or the LCB.

Let me know if you have any questions.

Thank You,

'Rate Base Adjustment Cell
If necessary and justified, this cell is where you
could optionally adjust proposed service rates
up or down to adjust for program revenue (or
unapproved profit), or losses from the Actual
period shown at the bottom of the
Comprehensive Budget Sheet. This is not the
only acceptable location or method of
reconciling for excess gains or losses. If
allowed by the respective funding sources,
excess gains may also be adjusted by providing
system subsidy revenue or by the purchase of
additional trips in a period following the Actual
period. If such an adjustment has been made,
provide notation in the respective exlanation
area of the Comprehensive Budget tab.
