Meeting Date: November 10, 2021

Agenda Item: TBD

Roll Call Vote: Yes

Action Requested:

The Florida Department of Transportation (FDOT) requests approval of amendments to the 2045 Metropolitan Transportation Plan (MTP).

Reason:

FDOT is advancing interim elements of the I-4 “Beyond the Ultimate” project. The currently adopted 2045 MTP and Cost Feasible Plan identifies these projects by reference and includes the Ultimate Configuration of I-4 with General Use and Managed Lanes throughout Orange, Osceola, and Seminole Counties as documented in FDOT’s Strategic Intermodal System (SIS) Cost Feasible and Needs Plans.

As described in the letter found in the Supporting Information, FDOT has determined the projects listed below are consistent with the SIS Cost Feasible Plan. To ensure planning consistency, Table 6 (Interstate Highway/Strategic Intermodal System) of the 2045 MTP’s Cost Feasible Plan will be amended to include the new reasonably available revenue and associated project listing.

Summary/Key Information:

Requested amendments to be made exclusively to Table 6 found in the *Cost Feasible Plan* documentation of the adopted 2045 MTP. Items of particular significance for Committees and the Board are as follows:

Re: ARPA Planning Consistency for Projects FPID #444315-1 and FPID #441113-3

Dear Mr. Lepp:

The Florida Department of Transportation, Office of Policy Planning has completed planning consistency reviews for the **American Rescue Plan Act (ARPA) of 2021** projects. ARPA provides funding to the State of Florida from the US Treasury to provide immediate relief from revenue reductions and the continued economic impacts on individuals and businesses. ARPA directs US Treasury funds to Florida's State Highway System, seaports, airports, and transit programs. Documentation of Strategic Intermodal System (SIS) cost feasibility may be provided to avoid the need for a Modification or Amendment.

The SIS is Florida's high priority transportation network and facilities important to the state's economy and mobility. The Governor and Legislature established the SIS in 2003 to focus the state's limited transportation resources on the facilities most significant for interregional, interstate, and international travel. The SIS is the state's highest priority for transportation capacity investments and a primary focus for implementing the Florida Transportation Plan (FTP), the state's long-range transportation vision and policy plan.

We have determined that FPID #444315-1 - Interstate 4/SR 400 at Sand Lake Road Interchange from east of SR 528 to west of SR 435 is consistent with the SIS CFP. This interchange was included in the original I-4 Beyond the Ultimate project. As such, the Department has concluded that the Sand Lake Road Interchange project ultimate configuration meets the planning consistency requirement. This section of the I-4 Beyond the Ultimate is included in plan period #1 (2026 – 2030) and is consistent with the SIS.

We have determined that FPID #441113-3 - Interstate 4/SR 400 at Daryl Carter Parkway Interchange is consistent with the SIS CFP. This project will convert the Daryl Carter Parkway overpass into an interchange and was included in the original I-4 Beyond the Ultimate project. As such, the Department has concluded that the Daryl Carter Parkway Interchange project ultimate configuration meets the planning consistency requirement. This section of I-4 from Osceola Parkway to the Beachline (State Road 528) has been advanced from plan period #3 (2036 -2045) to plan period #1 (2026 – 2030) and is consistent with the SIS.

If the Department can be of further assistance in providing additional information, please contact me at Abra.Horne@dot.state.fl.us or 850-414-4901.

Abra Horne, Metropolitan Planning Administrator

Dear Mr. Huttman:

RE: Request to Amend Adopted Transportation Improvement Program (TIP) for Fiscal Years (FY) 2021/22 – 2025/26

The Florida Department of Transportation (FDOT) requests MetroPlan amend the Adopted TIP for Fiscal Years (FY) 2021/22–2025/26. The projects requiring an amendment are listed below with an explanation of the changes to the project. Please make sure that the amendment date is reflected on the cover page of the adopted TIP document and the amended information is reflected on page for the project.

ORANGE COUNTY

**1. FM#441113-3 I-4 (SR 400) at DARYL CARTER PARKWAY INTERCHANGE
EARLY WORK**

Current TIP status: Project is not listed in TIP.

Proposed Amendment:

Phase	Amended Funding Type	Amount	Fiscal Year
Construction	ACNP	\$3,000,000	2022
Construction	SA	\$150,000	2022
Construction/CEI	ACNP	\$300,000	2022
Construction/Post Design	ACNP	\$30,000	2022
	TOTAL	\$3,480,000	

Difference: New Construction (Phase 52/61/62) funds added in FY 2021/22. TIP must be updated to reflect new phases and added funding.

Explanation: New Interchange early work split out from 441113-1. This project will advance drainage work for the new Daryl Carter Parkway Interchange scheduled for construction and will include the Big Sandlake outfall improvements designed by Orange County.

2. FM#444315-1 I-4 (SR 400) AT SAND LAKE RD INTERCHANGE FROM W OF SR 528 TO W OF SR 435

Current TIP status: Project is in TIP for different funding amount.

Proposed Amendment:

Phase	Amended Funding Type	Amount	Fiscal Year
	DS		
Preliminary Engineering	ACNP	\$437,981	2022
Preliminary Engineering	ACNP	\$437,981	2022
Preliminary Engineering	ACNP	\$437,981	2022
Preliminary Engineering	ACNP	\$437,981	2022
	TOTAL	\$1,751,924	

Difference: New design phase (Phase 32) funds added in FY 2021/22. TIP must be updated to reflect new phase and added funding

Explanation: This project will convert the Sand Lake Road and I-4 interchange into a diverging diamond interchange. The Diverging Diamond Interchange (DDI) is a type of interchange in which the two directions of traffic at an interchange cross to the opposite side of the road on both sides of the bridge. A DDI eliminates several traffic conflict points by moving drivers to the side of the road where they can turn left without having to cross in front of oncoming traffic. These improvements will help to accommodate future projected traffic demand and improve driver safety and efficiency. In addition, improvements to I-4 will also be included with this project. The project will include two express lanes in the westbound direction connecting to the I-4 Ultimate express lanes. These two express lanes will merge into a single buffer separated express lane west of the Sand Lake and I-4 interchange.
