

Transportation Systems Management & Operations Advisory Committee AGENDA

April 28, 2017, 8:30 AM

Transportation Systems Management and Operations (TSMO) Advisory Committee

MEETING NOTICE

DATE: Friday, April 28, 2017

TIME: 8:30 a.m.

LOCATION: MetroPlan Orlando David L. Grovdahl Board Room 250 South Orange Avenue Suite 200 Orlando, Florida 32801

AGENDA

Chairman Joedel Zaballero, Presiding

(Wi-Fi network = MpoBoardRoom, password = mpoaccess)

- I. Call to Order Chairman Joedel Zaballero
- II. Confirmation of Quorum Ms. Lisa Smith
- III. Agenda Review/Staff Follow-Up Mr. Eric Hill
- IV. Public Comments on Action Items

Comments from the public will be heard pertaining to items on the agenda for this meeting. People wishing to speak must complete a "Speakers Introduction Card" at the reception desk. Each speaker is limited to two minutes.

V. Action Items

A. Approval of the February 24, 2017 TSMO Meeting Minutes

Approval is requested of the February 24, 2017 TSMOAC meeting minutes provided at Tab 1.

B. ITS Master Plan

Mr. Eric Hill, MetroPlan Orlando staff, is requesting approval of the ITS Master Plan. An attachment is provided at Tab 4.

C. FDOT Amendment to FY 2016/17-2020/21 TIP

Mr. Keith Caskey, MetroPlan Orlando staff, is requesting the TSMOAC to recommend that the FY 2016/17-2020/21 TIP be amended to advance the construction of a six-laning project on John Young Parkway from FY 2020/21 to FY 2017/18 and to include lighting projects and a railroad crossing project. A letter from FDOT explaining the amendments is provided in **Tab 2**, along with additional information on the lighting projects and railroad crossing assessment procedures. A fact sheet prepared by MetroPlan Orlando staff that provides more information on the projects is also included, as well as the draft resolution to be presented at the May 10th Board meeting.

D. 2040 LRTP Amendments

Mr. Nick Lepp, MetroPlan Orlando staff, is requesting the approval of amendments to the 2040 LRTP to include several new PD&E studies for Florida's Turnpike Enterprise projects. More information on these projects is provided at **Tab 3**.

E. Appointment of Bylaws Review Task Force

Ms. Virginia Whittington, MetroPlan Orlando staff, is requesting the appointment of a task force to review the TSMOAC bylaws and make updates as necessary.

VI. Presentation and Status Reports

There are no presentations.

VII. Common Presentations/Status Reports (Presentations will be made at the TAC meeting)

A. Presentation on Orange Avenue Corridor Study

Mr. J.P. Weesner, Kittelson & Associates, will give a presentation on the corridor study on Orange Avenue from Hoffner Avenue to Pineloch Avenue.

B. Presentation on Air Quality Status and Reporting Methodology

Mr. Nick Lepp, MetroPlan Orlando staff, will give a presentation on the current status of air quality in the MetroPlan Orlando region and the methodology used to compile air quality data.

(Tab 3)

(Tab 2)

VIII. General Information

A. FDOT Quarterly Variance Report

The latest FDOT Quarterly Variance Report for the Orlando area is enclosed for information purposes.

B. FDOT Monthly Construction Status Report

The latest FDOT Monthly Construction Status Report for the Orlando area is enclosed for information purposes.

C. reThink Transit Screens Fact Sheet

A copy of reThink's Transit Screen Fact Sheet is enclosed for information purposes.

D. Roundabouts Map

A map showing the location of roundabouts in the MetroPlan Orlando region will be provided at the meeting.

E. MetroPlan Orlando Board Highlights

A copy of the March 8, 2017 Board Meeting Highlights is enclosed for information purposes.

IX. Upcoming Meetings of Interest to TSMOAC Members

A. Next MPO Board Meeting

The next MetroPlan Orlando Board meeting will be held on May 10, 2017, at 9:00 a.m. in the MetroPlan Orlando Board Room, 250 South Orange Avenue, Suite 200, Orlando, FL 32801.

B. Next TSMOAC Meeting

The next TSMO meeting will be held on May 26, 2017, at 8:30 a.m. in the MetroPlan Orlando Board Room, 250 South Orange Avenue, Suite 200, Orlando, FL 32801.

X. Other Business

XI. Public Comments (General)

XII. Adjournment

In accordance with the Americans with Disabilities Act (ADA), if any person with a disability as defined by the ADA needs special accommodations to participate in this proceeding, he or she should contact Ms. Lisa Smith, MetroPlan Orlando, Park Building, 250 S. Orange Avenue, Suite 200, Orlando, Florida, 32801 or by telephone at (407) 481-5672 x307 at least three business days prior to the event.

Persons who require translation services, which are provided at no cost, should contact MetroPlan Orlando at (407) 481-5672 x307 or by email at lsmith@metroplanorlando.org at least three business days prior to the event.

As required by Section 286.0105, Florida Statutes, MetroPlan Orlando hereby notifies all interested parties that if a person decides to appeal any decision made by MetroPlan Orlando with respect to any matter considered at such meeting or hearing, he or she may need to ensure that a verbatim record is made to include the testimony and evidence upon which the appeal is to be based.

Transportation Systems Management and Operations (TSMO) Advisory Committee

MEETING MINUTES

DATE: Friday, February 24, 2017

TIME: 8:30 a.m.

LOCATION: MetroPlan Orlando David L. Grovdahl Board Room 250 South Orange Avenue Suite 200 Orlando, Florida 32801

Chairman Joedel Zaballero, Presiding

Voting Members Present:

Mr. Brett Blackadar, Altamonte Springs
Mr. Benton Bonney, City of Orlando
Mr. Kelly Brock, City of Casselberry
Mr. Michael Cash, City of Sanford
Ms. Krystal Clem for Mr. John Omana, City of Lake Mary
Mr. Noel Cooper, City of Maitland
Mr. Jay Davoll, City of Apopka
Mr. Hazem El-Assar, Orange County
Mr. Kevin Felblinger, City of St. Cloud
Mr. Brian Fields, City of Winter Springs
Mr. Brian Homayouni, Central Florida Expressway Authority
Mr. Frank Consoli, Seminole County
Mr. Steve Krug, City of Ocoee
Mr. Butch Margraf, City of Winter Park

MetroPlan Orlando TSMO Meeting Minutes February 24, 2017 Page 1 Mr. Robert McKinley, Town of Windermere Ms. Mary Moskowitz, Osceola County Mr. Nabil Muhaisen, City of Kissimmee Ms. Lee Pulham, Reedy Creek Improvement District Mr. Brian Sanders, Orange County Mr. Ramon Senorans, Kissimmee Gateway Airport Mr. Brad Friel, GOAA Mr. Shad Smith, City of Longwood Mr. Charlie Wetzel, Seminole County Ms. Joedel Zaballero, Osceola County

Voting Members Absent:

Ms. Susan Hutson, UCF Jean Jreij, Seminole County Mr. John Omana, City of Lake Mary

Non-Voting Members/Advisors Present:

Councilman Lee Chotas, City of Edgewood Councilman Robert McKinley, Town of Windermere

Non-Voting Members/Advisors Absent:

Ms. Heather Garcia, FDOT Mr. Eric Gordin, Florida Turnpike Enterprise Mr. Glen Hammer, Osceola County CTST Sgt. Smith, Seminole County CTST Vacant, Orange County CTST

Others in Attendance:

Mr. Jamil Gutierrez, FDOT Ms. Carol Scott, FTE Mr. Gary Huttmann, MetroPlan Orlando Mr. Eric Hill, MetroPlan Orlando Mr. Keith Caskey, MetroPlan Orlando Ms. Lisa Smith, MetroPlan Orlando Ms. Alexandra Quintero, MetroPlan Orlando Ms. Cathy Goldfarb, MetroPlan Orlando

I. Call to Order

Chairman Joedel Zaballero called the meeting to order at 8:30 a.m. and welcomed everyone. She asked that TSMO members introduce themselves.

II. Confirmation of Quorum

Ms. Lisa Smith confirmed the presence of a quorum.

III. Agenda Review/Staff Follow-Up

Mr. Eric Hill, Director of Transportation System Management and Operations, reported that MetroPlan Orlando is seeking nominations for the Clean Air Awards. Mr. Hill stated that the Federal Highway Administration is looking to conduct a workshop in the Orlando area on the topic of using archived operations data sometime in March as a part of the TSMO consortium for District 5. Mr. Hill announced that MetroPlan Orlando was not awarded the Federal Highway Administration grant for the Advanced Transportation and Congestion Management Technologies Deployment Program (ATCMTD): however, explained that it is a recurring grant, and the conversation has already begun on putting together another application for this year. He stated that the ITS Master Plan is on schedule to be presented to the MetroPlan Orlando Board at its May meeting. He expressed his desire to allow the TSMOAC the opportunity to see the presentation in its entirety prior to it going to the other Committees and MPO Board. Mr. Hill said that he feels that there will not be enough time at the April meeting for a full presentation and to allow proper time for feedback from Committee members. He proposed having a special meeting of the TSMOAC only in March. Consensus of the Committee members was to hold a TSMOAC only meeting in March to view staff's presentation on the ITS Master Plan. Mr. Hill stated that staff will review the calendar for dates in an effort not to conflict with upcoming spring break schedules. Mr. Hill announced that Jamil Gutierrez with FDOT District 5 has resigned his position effective March 9th. Mr. Hill thanked him for his service to MetroPlan Orlando, and wished him well in his future endeavors.

IV. Public Comments on Action Items

None

V. Action Items

A. Approval of the January 27, 2016 TSMO Meeting Minutes

Approval was requested of the January 27, 2017, TSMO meeting minutes which were provided. Ms. Moskowitz pointed out that her name appeared twice as being present in the January meeting minutes. The correction was noted by staff.

MOTION: Mr. Davoll moved approval of the January 27, 2017 TSMO meeting minutes, as amended. Mr. Consoli seconded the motion, which passed unanimously.

VI. Presentation and Status Reports

A. Presentation on Autonomous Vehicles

Messrs. Santanu Roy and Ben Pierce, HDR, gave a presentation on Autonomous Vehicles. Their presentation provided a definition of connected vehicles versus autonomous vehicles, current technology, state statutes and regulations, auto industry perspectives and activities at the state and national level, and emerging trends.

B. Automated Vehicle Proving Ground – What It Means for Central Florida

Mr. Charles Ramdatt, City of Orlando staff, gave a presentation that provided an overview of how the Central Florida Automated Vehicle Partnership was formed; how the "Smart City" designation was achieved. He provided insight into the background and history of transportation and innovation in Central Florida, and acknowledged the entities that makeup the Central Florida Automated Vehicle Partnership. He explained that their areas of focus include four modes of travel and the interaction of those modes, safety and full range automation, and the difference between autonomous versus automated vehicles. He touched upon the responsibilities of each partner. He stated that the anticipated benefits for Central Florida would be US DOT Designation/Certification agreement & funding opportunities; coordinated research opportunities; safer and more livable communities; and independent pursuit of other opportunities. Mr. Ramdatt explained that the project received its unofficial designation in mid-January 2017 and that the initial team meeting was held in early February of 2017 with the US DOT convening of 10 winning teams sometime around February 27 & 28, 2017. They are currently in the phase of sharing of details and opportunities with local governments & other local interest groups.

Mr. Ramdatt discussed the next steps which include the development of Partnership Memorandum of Understanding; developing a process for engaging auto-makers; OEMs; and the Local Technology Community; dealing with the full range of procurement issues; harmonizing among partners; advocating for local, state and federal law/rule changes; facilitating un-invited/un-solicited suggestions for innovation,; developing protocols for media engagement and releasing of information; and spring-boarding to other innovative ideas that can improve access, mobility and quality of life in Greater Orlando. He entertained questions and comments from Committee members.

VII. Common Presentations/Status Reports (Presentations will be made at the TAC meeting)

A. Presentation on Florida Transportation Plan & Complete Streets Policy Implementation

Mr. David Cooke, FDOT, presented an update on the implementation of the Florida Transportation Plan and Complete Streets policy.

B. Presentation on Roundabouts in the MetroPlan Orlando Region

Mr. Mr. Chris Cairns, FDOT, gave a presentation on roundabouts in the MetroPlan Orlando region.

C. Presentation on Bicycle & Pedestrian Crash Analysis

Mr. Mighk Wilson, MetroPlan Orlando staff, gave a presentation on the analysis of bicycle and pedestrian crash statistics.

VIII. General Information

A. FDOT Monthly Construction Status Report

The latest FDOT Monthly Construction Status Report for the Orlando area was provided.

B. 2017 Preview/Approval Schedule for TIP & Prioritized Project List

The 2017 preview and approval schedule for the FY 2017/18-2021/22 TIP and FY 2022/23-2039/40 Prioritized Project List was provided.

C. MetroPlan Orlando Committee Highlights

A copy of the February 8, 2017 Committee Meeting Highlights was provided.

IX. Upcoming Meetings of Interest to TSMO Members

A. March Committee Meeting

The next MetroPlan Orlando Committee meeting will be held on March 8, 2017 at 9 a.m. at the <u>Second Harvest Food Bank</u>, 411 Mercy Drive, Orlando, FL 32805.

B. Next TSMO Meeting

The next TSMO meeting will be held on April 28, 2017 at 10 a.m. in the MetroPlan Orlando Committee Room, 250 South Orange Avenue, Suite 200, Orlando, FL 32801.

X. Other Business

None.

XI. Public Comments (General)

None

XII. Adjournment

Due to time being available, committee members were asked to report out on any news of interest to TSMO members in their local jurisdiction.

MetroPlan Orlando TSMO Meeting Minutes February 24, 2017 Page 5 There being no further business, Chairman Zaballero adjourned the meeting of the Transportation Systems Management & Operations Advisory Committee at 9:40 a.m. The meeting was recorded and transcribed by Ms. Lisa Smith.

Approved this 28th day of April, 2017

Ms. Joedel Zaballero, Chairman

Ms. Lisa Smith, Committee Services Coordinator

As required by Section 286.0105, Florida Statutes, MetroPlan Orlando hereby notifies all interested parties that if a person decides to appeal any decision made by MetroPlan Orlando with respect to any matter considered at such meeting or hearing, he or she may need to ensure that a verbatim record is made to include the testimony and evidence upon which the appeal is to be based.

RESOLUTION NO. 17-03

SUBJECT:

Amendment to the FY 2016/17-2020/21 Transportation Improvement Program

WHEREAS, the Orlando Urbanized Area Metropolitan Planning Organization (MPO), d.b.a. MetroPlan Orlando, is the duly designated and constituted body responsible for carrying out the urban transportation planning and programming process for the Orlando Urbanized Area, including the Transportation Improvement Program; and

WHEREAS, the Florida Department of Transportation (FDOT) is requesting to amend the FY 2016/17-2020/21 Transportation Improvement Program (TIP) in accordance with the MetroPlan Orlando Internal Operating Procedures; and

WHEREAS, the requested amendment is described as follows:

Orange County

- FM #2394963 SR 423 (John Young Parkway) from SR 50 to Shader Road Widen to 6 Lanes - Funding consists of \$19,536,752 in ACSU (Advanced Construction Urban Attributable) funds, \$757,596 in DDR (District Dedicated Revenue) funds and \$10,940,064 in SU (Urban Attributable) funds for construction being advanced from FY 2020/21 to FY 2017/18;
- FM #4398802 Orange County Pedestrian Lighting Bundle "B" Funding consists of \$870,000 in HSP (Highway Safety Program) funds and \$385,000 in DDR (District Dedicate Revenue) funds for design in FY 2017/18;
- FM#4408551 CR 424 (Edgewater Drive) Railroad Crossing Upgrade Signal Funding consists of \$353,840 in RHH (Rail/Highway Crossing – Hazard Elimination) funds in FY 2017/18;

Osceola County

• FM #4398852 - Osceola County Pedestrian Lighting Bundle "B" - Funding consists of \$385,000 in HSP (Highway Safety Program) funds for design in FY 2017/18;

WHEREAS, the requested amendment described above is consistent with MetroPlan Orlando's project priorities and currently adopted Long Range Transportation Plan.

NOW, THEREFORE, BE IT RESOLVED by the MetroPlan Orlando Board that the Florida Department of Transportation's amendment to the FY 2016/17-2020/21 Transportation Improvement Program be approved as requested.

Resolution No. 17-03 Page 2 of 2

Passed and duly adopted at a regular meeting of the MetroPlan Orlando Board on the $10^{\rm th}$ day of May, 2017.

Certificate

The undersigned duly qualified as Chairman of the MetroPlan Orlando Board certifies that the foregoing is a true and correct copy of a Resolution adopted at a legally convened meeting of the MetroPlan Orlando Board.

Honorable Bob Dallari, Chairman

Attest:

Cathy Goldfarb, Sr. Board Services Coordinator and Recording Secretary

Florida Department of Transportation

RICK SCOTT GOVERNOR 719 S. Woodland Boulevard DeLand, Florida 32720-6834 RACHEL D. CONE INTERIM SECRETARY

April 10, 2017

Mr. Gary Huttmann Deputy Executive Director MetroPlan Orlando 250 South Orange Ave. Suite 200 Orlando, FL 32801

Dear Mr. Huttmann:

Subject: REQUEST FOR TRANSPORTATION IMPROVEMENT PROGRAM CHANGES

The Florida Department of Transportation requests the following changes to be made to MetroPlan Orlando's Transportation Planning Organization's Adopted Fiscal Years 2016/17 – 2020/21 Transportation Improvement Program (TIP) in coordination with the corresponding changes to the Department's Work Program. Please make sure that you put the amendment date on your cover page of the TIP and on the TIP page of the project.

ORANGE COUNTY

Project

FM#239496-3 State Road 423 (John Young Parkway) Widening From State Road 50 to Shader Road.

Current TIP Status:

Project is currently in the TIP for Fiscal Years 2016/2017 – 2020/2021

Proposed Amendment:

Advancing Phase 52 (Construction Consultant/Contractor) \$19,023,252 with ACSU (Advanced Construction Urban Attributable) Funding, from Fiscal Year 2021 to Fiscal Year 2018.

Advancing Phase 52 (Construction Consultant/Contractor) \$757,596 with DDR (District Dedicated Revenue) Funding, from Fiscal Year 2021 to Fiscal Year 2018.

Advancing Phase 52 (Construction Consultant/Contractor) \$8,762,824 with SU (Urban Attributable) Funding, from Fiscal Year 2021 to Fiscal Year 2018.

Advancing Phase 61 (Construction In-House Timesheet Charges) \$20,540 with SU (Urban Attributable) Funding, from Fiscal Year 2021 to Fiscal Year 2018.

Advancing Phase 62 (Construction Engineering Inspection) \$2,156,700 with SU (Urban Attributable) Funding, From Fiscal Year 2021 to Fiscal Year 2018.

Advancing Phase 62 (Construction Engineering Inspection) \$513,500 with ACSU (Advance Construction Urban Attributable) Funding, From Fiscal year 2021 to Fiscal Year 2018.

Explanation:

Due to Urban Attributable funding availability the Department in coordination with MetroPlan Orlando Metropolitan Planning Organization advanced this project from Fiscal Year 2021 to Fiscal Year 2018. This transaction was made possible due to the project being in the ready to go status.

Project

FM#439880-2 Orange County Pedestrian Lighting Bundle "B"

Current TIP Status:

Project is currently not in the TIP for Fiscal Years 2016/2017 - 2020/2021

Proposed Amendment:

Adding Phase 31 (Design In-House Timesheet Charges) \$10,000 in Fiscal Year 2018 with HSP (Highway Safety Program) Funding.

Adding Phase 32 (Design Consultant) \$860,000 in Fiscal Year 2018 with HSP (Highway Safety Program) Funding.

Adding Phase 32 (Design Consultant) \$385,000 in Fiscal Year 2018 with DDR (District Dedicate Revenue) Funding.

Explanation:

The District received additional Highway Safety Program Funding from Central Office to do safety intersection improvements. The Department looked at corridors where fatalities and crashes were happening within the state. There was data collected that showed that a majority of the crashes and accidents were happening at night (about 80%) at intersections within certain corridors. The Department has placed Highway Safety Program Funds on some of the intersections in Orange County to address some of the much needed safety improvements.

Project

FM#440855-1 County Road 424 (Edgewater Drive) Crossing #622396Y

Current TIP Status:

Project is currently not in the TIP for Fiscal Years 2016/2017 - 2020/2021

Proposed Amendment:

Adding Phase 57 (Construction Railroad) \$353,840 in Fiscal Year 2018 with RHH (Rail/Highway Crossing – Hazard Elimination) Funding.

Explanation:

The District received additional Rail/ Highway Crossing funds and this project was selected to receive funding to do design, flagging, labor, materials and related costs to upgrade the signal.

OSCEOLA COUNTY

Project

FM#439885-2 Osceola County Pedestrian Lighting Bundle "B"

Current TIP Status:

Project is currently not in the TIP for Fiscal Years 2016/2017 - 2020/2021

Proposed Amendment:

Adding Phase 31 (Design In-House Timesheet Charges) \$10,000 in Fiscal Year 2018 with HSP (Highway Safety Program) Funding.

Adding Phase 32 (Design Consultant) \$375,000 in Fiscal Year 2018 with HSP (Highway Safety Program) Funding.

Explanation:

The District received additional Highway Safety Program Funding from Central Office to do safety intersection improvements. The Department looked at corridors where fatalities and crashes were happening within the state. There was data collected that showed that a majority of the crashes and accidents were happening at night (about 80%) at intersections within certain corridors. The Department has placed Highway Safety Program Funds on some of the intersections in Osceola County to address some of the much needed safety improvements.

If you should have any additional questions please contact me at 386-943-5427.

Sincerely,

KStA

Kellie Smith Government Liaison Administrator

PROCEDURE FOR AT-GRADE RAIL CROSSING ASSESSMENTS

Crossing Assessments

There are numerous considerations to be taken into account when assessing an at-grade crossing for safety improvements, including public necessity, convenience, safety, and economics. There are 4 steps FDOT's Central Rail Office follows in order to determine which at-grade crossings throughout the state will receive funding for safety improvements.

- Step 1 FDOT gathers data on each grade crossing throughout the state for the preceding year. The data
 includes (but is not limited to) the number of school busses crossing the track, crashes, and fatalities. A Safety
 Index is calculated for each at-grade crossing (statewide) and they are ranked in order of priority with the lowest
 ranking number being the highest priority. The District Rail Coordinator will run a Safety Index report to
 determine the priority list within their District.
- Step 2 Includes the evaluation of each grade crossing. <u>A diagnostic team is formed to review crossings and includes FDOT representatives from the local district, Central Office and the railroad company that crosses the road</u>. Diagnostic field reviews are typically conducted during the summer, from May to August. The diagnostic team will evaluate each crossing to determine if additional signal only related devices would lower the priority of the grade crossing from the data in Step 1. The railroad owner will provide a cost estimate to add any signal equipment to complete the work agreed to by the three parties involved in the review. The diagnostic team does not recommend improvements for sidewalks, road profile adjustments and\or track panel rehabilitation.
- Step 3 After the diagnostic review is complete, Central Office will take the evaluations, compare them to the data in step 1 and determine which grade crossings will receive the most benefit from the proposed improvements, and updates the priority list based on this information.
- Step 4 Once the improvements are decided, they are funded with a budget (historically approximately \$11 million) to be constructed the next fiscal year. This funding which is allocated statewide, comes from the Federal –Aid Section 130 Railway-Highway Crossing Program and can only be used for signal safety improvements. After the funds are distributed, the District Rail Coordinator completes agreements with the railroad companies and the local municipalities in preparation for the work to begin.

The FDOT Rail Handbook lists the current crossing safety program priorities:

- Addressing crossings that warrant interconnection with highway traffic signals
- Improving pedestrian crossing safety
- Mitigating road profile deficient crossings
- Updating crossings with existing gates and warning signals (active crossing control)
- Updating public crossings that only have signage and no gates or signals (passive crossing control)
- Closing or eliminating at-grade crossings

Crossing treatment is determined from a variety of data collected through the diagnostic field review. Some of the data that is considered includes the following:

- Vehicle and pedestrian volumes
- The number of trains and train speed
- The width and geometry of the crossing
- Nearby land uses and sight distance at the grade crossing

The field review by the diagnostic team will recommend safety improvements required by both the railroad company and the public government for each crossing location. These improvements are necessary to create awareness of the crossing to trains as well as vehicular and pedestrian traffic. The level of treatment installed at each location is dependent on the volume of train traffic and number of vehicles crossing the track.

Passive Controls consist of roadside signage and/or pavement markings and are used to provide awareness of a railroad crossing to drivers and pedestrians, regardless of the presence of a train. These are static features placed in advance of a crossing and/or immediately in front of a crossing. Such passive controls may include:

• Crossbuck/STOP sign assembly

- Crossbuck/YIELD sign assembly
- Railroad STOP sign (fixed rectangular sign)
- Painted Stop Bar

Active Controls consist of gates and signals that are only activated to warn drivers when a train is approaching the crossing. An audible warning, provided by a train's horn, is required on the train's approach to crossings with both active and passive warning devices. Active crossing controls are installed closest to the crossing location and may include:

- Flashing light signal with audible warning device
- Cantilevered flashing light with audible warning device
- Pedestrian flashing light with audible warning device
- Automatic gate
- Traffic signal preemption control

Quiet Zone Safety Requirements

Quiet Zones (QZ) are sections of a railroad corridor where the train crew does not have to sound the horn at crossings. In order for an area to qualify as a QZ the crossings must meet minimum safety requirements that have been identified by the Federal Railroad Administration (FRA). The FRA requires a diagnostic team to review the crossings as one of the first steps in the QZ application process. This diagnostic team is not the same team that was mentioned previously. Typical participating agencies in this diagnostic team include: Central Office, FDOT District office, and County and/or City representatives. The QZ diagnostic team makes their recommendations for crossings based upon an analysis of the corridor's risk indices, which are established by the FRA QZ calculator referencing supplemental safety measures (SSMs) provided by FRA. The team evaluates each type of SSM against the individual characteristics of the crossings along with the input from all stakeholders. Approved SSMs include the following:

- Four quadrant gate system (gates on the entry and exit point of the crossing and used to prohibit cars from traveling around the gate)
- Gates with medians or channelization devices (approved medians must be from 60 to 100 feet long)
- One way street with gates
- And permanent closure

Section 130 funding cannot be used to meet the FRA's requirements for a QZ project. Reimbursement is completed by each individual Metropolitan Planning Organization (MPO). The respective MPO is responsible for submitting the QZ application, coordinating with all affected municipalities, developing the SSM strategy (which crossings should receive treatment and what type), and obtain separate funding. These activities are achieved through collaborative working sessions with the FRA and the municipalities.

The Point of Contact Below is for the FDOT District Five Coordinator:

TAB 3

	Board Actio	on Fact Sheet
	Meeting Date:	May 10, 2017
	Agenda Item:	IX.A (Tab 3)
metroplan orlando	Roll Call Vote:	Yes
A REGIONAL TRANSPORTATION PARTNERSHIP		

Action Requested:	Florida's Turnpike Enterprise (FTE) requests approval of an amendment to the 2040 Long Range Transportation Plan to include the removal of one project previously assumed to be committed for funding, addition of an unfunded need to the funded list, a new corridor PD&E Study in East Orlando and three (3) interchange modifications.
Reason:	FTE has incorporated the projects into their planning and programming documents, the amendments are proposed to ensure consistency with the Long Range Transportation Plan. This amendment request provides an opportunity for public review of these projects.
Summary/Key Information:	Items of particular significance for our Committees and the Board are as follows:
	 SR 417 – Widen to 8 lanes between Interstate 4 in Seminole County to the Seminole County / Orange County Line [REMOVE PROJECT].
	 Florida's Turnpike – Widen to eight (8) lanes between Kissimmee Park Road interchange and US 192 interchange in Osceola County [ADD PROJECT].
	 Colonial Parkway (SR 504) between SR 408 and SR 520 along the SR 50 corridor [ADD PD&E STUDY].
	 Interchange Modifications [ADD PROJECTS] Florida Turnpike @ Kissimmee Park Road Florida Turnpike @ Interstate 4 Florida Turnpike @ SR 528 / US
MetroPlan Budget Impact:	None
Local Funding Impact:	None
Committee Action:	CAC:to be determinedTSMO:to be determinedTAC:to be determinedMAC:to be determined
Staff Recommendation:	Recommends approval
Supporting Information:	These documents are provided at Tab 3:

2040 Long Range Transportation Plan Proposed Amendment May 2017

How to Submit a Comment

The MetroPlan Orlando Board will consider the proposed amendment(s) during its meeting on May 10, 2017. Parties can submit written comments to MetroPlan Orlando, 250 S Orange Avenue, Ste. 200, Orlando, FL 32801 or by emailing LRTP@metroplanorlando.org. The deadline to submit comments is May 9, 2017.

Accommodations

In accordance with the Americans with Disabilities Act (ADA), if any person with a disability defined by the ADA needs special accommodations to participate, he or she should contact MetroPlan Orlando at least three business days prior to a proceeding. Persons who require alternative language services, which are provided at no cost, should contact MetroPlan Orlando at least three business days prior to a proceeding. To request accommodations, please contact Ms. Cathy Goldfarb at (407) 481-5672 x315 or email cgoldfarb@metroplanorlando.org.

BACKGROUND INFORMATION

In order to meet federal requirements, the year 2040 Long Range Transportation Plan (LRTP) contains a Cost Feasible Plan and a Needs Plan.

Projects in the Cost Feasible Plan are based on reasonably available funding. In other words, the region expects to complete these projects through funding mechanisms currently in place, already allowed by the state legislature, or needing additional action by the state legislature. The Needs Plan contains unfunded projects deemed important for the development of Central Florida's transportation system.

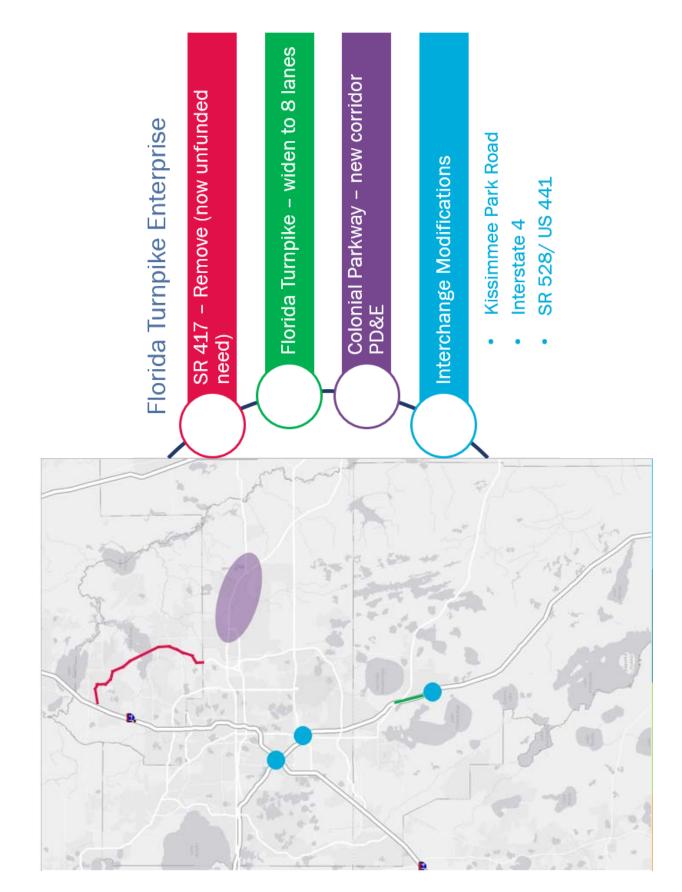

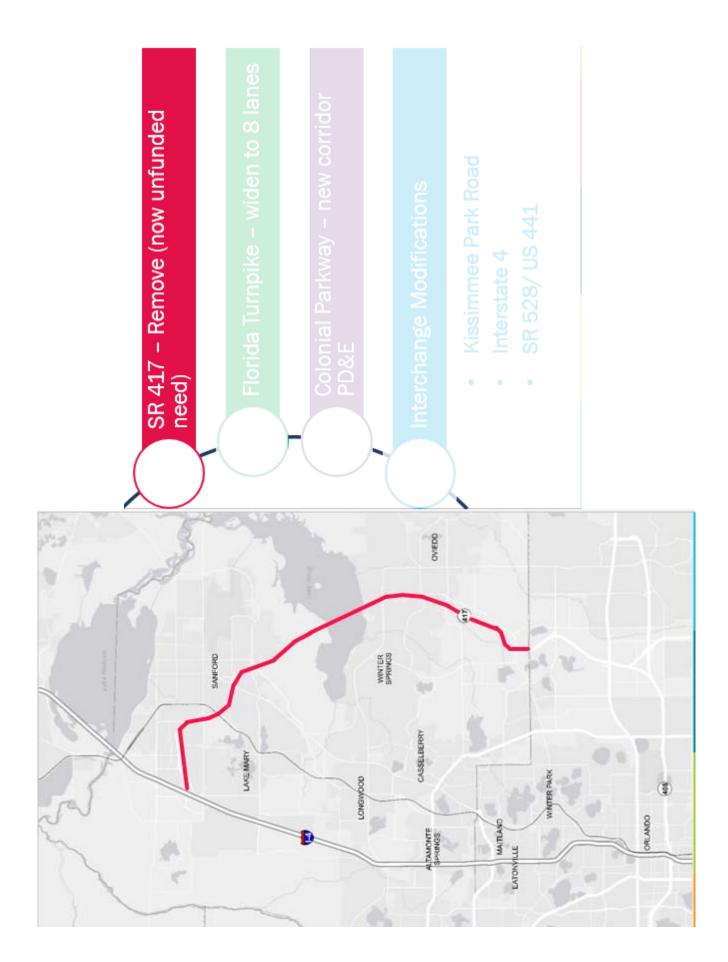

The Florida's Turnpike Enterprise (FTE) has requested an amendment to MetroPlan Orlando's 2040 Long Range Transportation Plan to add and remove projects from the cost-feasible portion of the 2040 LRTP. Florida's Turnpike Enterprise is funded by toll revenues, so the amendments do not impact any projects currently forcasted to use federal or state funding in the 2040 Long Range Transportation Plan. The amendment includes:

- SR 417 Widen to 8 lanes between Interstate 4 in Seminole County to the Seminole County / Orange County Line [REMOVE PROJECT]. Project has been removed from Cost Feasible Plan and added to the Unfunded Needs plan due to lack of local support.
- Florida's Turnpike Widen to eight (8) lanes between Kissimmee Park Road interchange and US 192 interchange in Osceola County [ADD PROJECT]. Project was an unfunded Need and has been added to Cost Feasible List to coincide with the improvement to the interchange modification in item 4.
- 3. Colonial Parkway (SR 504) between SR 408 and SR 520 along the SR 50 corridor [ADD STUDY]. The Florida Turnpike Enterprise will lead the Project Development & Engineering Study to examine all alternatives along State Road 50 between State Road 408 and State Road 520.

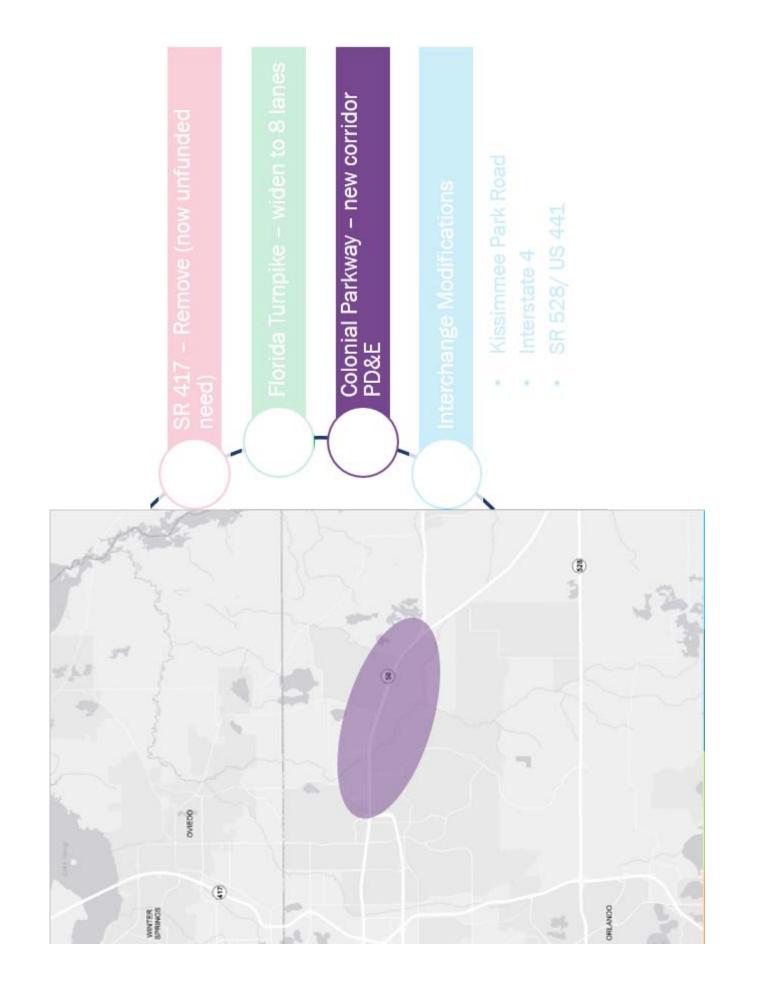

4. Interchange Modifications [ADD PROJECTS]

- a. Florida Turnpike @ Kissimmee Park Road Add Southbound On & Northbound off ramps to create full interchange
- **b.** Florida Turnpike @ Interstate 4 Interchange modification to improve connectivity between I-4 Ultimate and the Turnpike
- c. Florida Turnpike @ SR 528 / US 441 Interchange modification to improve connectivity between the Turnpike, SR 528 and US 441

Vision Statement: Maximize the transportation system performance by continually improving safety, efficiency, and reliability for all systems users through the application of technology.

GOALS	OBJECTIVES	MEASURES
	A1: Reduce system-wide delay	Improve travel time and reliability
	and travel time for automobiles, commercial vehicles, and transit.	Increased trip options/choices by mode for travelers
	commercial venicles, and transit.	Reduction in vehicle hours of delay on the system per person per day
	A2: Reduce delay and travel time on	Identification of priority corridors
	selected corridors for automobiles, commercial vehicles, transit and	Percentage of corridors managed or monitored
	bicycle/pedestrian facilities using	Improve travel time reliability on corridors during peak hours
	TSM&O.	Reduce delay duration during peak hours
A: Maximize the		Increased person throughput (point A to point B)
performance, efficiency, and reliability of the	A3: Reduce vehicle delay from	Travel times and speeds
multi-modal transportation system.	incidents by implementing incident response and special event traffic management programs.	Reduction in response and clearance times
	A4: Monitor the service life and time in service of ITS devices used in the transportation system in order to reduce costs.	ITS devices are monitored and evaluated on a scheduled basis
	A5: Conduct on-going research regarding future ITS technologies	Research is routinely conducted on new ITS technologies that takes into account capital equipment, staffing and resource needs
	in order to "see" into the future as to what new ITS strategies and equipment are "around the corner".	Pricing information, including variable pricing, is routinely evaluated
	B1: Improve the reliability and predictability of travel by monitoring	Conduct traffic counts in real-time for vehicles, transit, bicycles, and pedestrians
	the use of the transportation system and through the collection of pertinent data.	Number and percentage of roadway miles under video surveillance and monitoring
		Identification of locations in need of real-time dynamic travel and delay information
	B2: Provide real-time dynamic travel time and delay information	Reduction in percent of locations and transit routes in need of real- time dynamic traveler information
	(suggested routes, dynamically	Increase in percent of transit routes with real-time monitoring
B: Integrate information,	updated) to users.	Increase in percent of motorists and transit users having access to real- time travel and delay information
communication, and technology to empower		Delivery of traveler information by the private sector using information developed by the public sector
systems users to make informed choices.		Emergency responders have access to real-time travel and delay information
	B3: Improve tourist access and	Number and nature of 5-1-1 calls
	mobility through the use of specialized traveler information	Number of www511 visits
	systems.	Comments to Convention and Visitor Bureau
		Increased access to GPS and other commercial traveler information real-time data sources
	B4: Improve service for special traveler needs through the use of ITS	Diversity of ITS services for special populations, pedestrians, cyclists, and students is readily available
	applications.	Expanded economic opportunity and socioeconomic mobility for underserved populations (i.e., Ladders of Opportunity)

GOALS	OBJECTIVES	MEASURES
	B5: Enhance safe and efficient freight transport and delivery.	Research role and value of real-time parking information availability and truck reservation systems
		Promote responsible use of wireless inspection practices to streamline trucking operations
	B6: Promote and encourage interagency, interjurisdictional	Development of regional interagency operational and communications plans and agreements (ITS regional architecture)
	coordination and communications.	Development of regional set of transportation management plans for planned major events that can be applied to planned events
		Development of list of potential ITS projects each agency could consider when developing their project priorities
B: Integrate information, communication, and		Development of detailed ITS strategies to reduce agency efforts in creating System Engineering (SE) documents
technology to empower systems users to make informed choices.		Creation of incident response and special event Traffic Incident Management (TIM) team meetings and programs for event review and debriefing
	B7: Conduct annual surveys on customer service and seek feedback on system needs through newsletters, websites and other innovative techniques.	Development and evaluation of customer surveys and survey results
	B8: Develop a business model to demonstrate to transportation	Development of a business case for MPO Board members and other officials
	officials and elected agency leadership the benefits of continued use of ITS.	Convey to elected officials and the general public the roles and benefits of video surveillance in the everyday operation and maintenance of the transportation system
	C1: Improve safety and security of the transportation system through	Reduction in severity of vehicle crashes (fatalities, injuries and expenditures)
	ITS strategies and investments.	Reduction in bicycle and pedestrian accidents
		Reduction in red light violations
		Reduction in speed limit violations
C: Enhance the safety		Reduction in average response and clearance times for aggressive driving crashes, intersection crashes, vulnerable road user (bicycle and pedestrian) crashes, and lane departure crashes
and security of the transportation system.		Reduction in evacuation clearance times during emergency events
	C2: Monitor crash records as it relates to infrastructure improvements to quantify the benefits.	Crash rate and severity data considered during ITS procurement
	C3: Support data sharing between transit agencies and law enforcement to ensure passenger safety and security.	Share video feeds and transit vehicle location data using ITS infrastructure
	D1: Improve air quality and reduce greenhouse gas emissions.	Reduction in per capita greenhouse gas emissions from mobile sources
D: Protect the environment and enhance the quality	D2: Reduce fuel consumption by balancing traffic volumes across the transportation network.	Reduced fuel consumption per capita
of life.	D3: Increase in estimated number of passengers per vehicle per mode.	Increase in vehicle occupancy rates
	D4: Implement Goal 4: Quality of Life in the MetroPlan Orlando 2040 Long Range Transportation Plan.	ITS contributes to the performance of the transportation system and supports the adopted regional growth vision including context- sensitive, pedestrian scale, and community enhancing design features

MetroPlan Orlando Intelligent Transportation Systems Master Plan

Prepared for:

MetroPlan Orlando 250 S. Orange Ave., Suite 200 Orlando, Florida 32801

Orange County

Kimley » Horn

EXECUTIVE SUMMARY

MetroPlan Orlando is the metropolitan planning organization for Orange, Osceola, and Seminole Counties and is responsible for the transportation planning process in the tri-county area. According to the *Tracking the Trends* report, the Orlando Metropolitan Area is the 26th most populated Metropolitan Statistical Area (MSA) in the country with 2 million residents and had 66 million visitors in 2015.

The Intelligent Transportation System (ITS) Master Plan will evaluate current systems in the MetroPlan Orlando Area, determine future needs, and outline future ITS projects to improve traffic flow. The purpose of the Master Plan is to propose a system that improves efficiency, reliability and safety of the region's multi-modal transportation system.

A series of Tasks were completed during the past 11 months that provided a deep understanding of the Stakeholders' goals, objectives, needs, and strategies. The Regional ITS Architecture (RITSA) was evaluated and the Concept of Operations was prepared as part of this document. The draft task reports were previously submitted for review and are included in this document as the various sections were completed.

- Section 1-Task 1: ITS Vision, Goals and Objectives
- Section 2-Task 2: Existing Conditions/Infrastructure/Inventory
- Section 3-Task 3: Needs Assessment
- Section 4-Task 4: Identification of Applicable ITS Strategies
- Section 5-Task 5: Regional ITS Architecture (RITSA)
- Section 6-Task 6: Concept of Operations

In addition to the tasks, two workshops were organized to include input from MetroPlan Orlando's Transportation Systems Management & Operations (TSM&O) Advisory Committee. The first workshop was used to establish a vision, goals, and objectives for the ITS Master Plan and to complete an inventory of existing ITS devices in the MetroPlan Orlando area. The second workshop was organized to discuss and develop needs and applicable strategies that were then used to develop the proposed projects for future deployment.

The ITS technologies currently applied in the MetroPlan Orlando area include Closed Circuit Television Cameras (CCTV) cameras, Dynamic Message Signs (DMS), Bluetooth readers, Microwave Vehicle Detectors (MVDS), Automatic Vehicle Identification (AVI) readers, Transit Signal Priority (TSP), Adaptive Traffic Signal Control (ATSC), fiber optic cable, and communications equipment. The existing devices per County are summarized in Section 2.

Sections 3 and 4 described the various stakeholder needs and applicable strategies to meet those needs. Section 5 reviewed the RITSA based on the information gathered and summarized in Sections 2, 3 and 4. Section 6, the Concept of Operations, then built upon all the previous sections and provides an overview of the project/system to be deployed, details about the current system, identification of desired changes, operational issues of the existing and proposed devices and system components, as well as the relationships and responsibilities of the various agencies.

METROPLAN ORLANDO - INTELLIGENT TRANSPORTATION SYSTEM (ITS) MASTER PLAN

Section 7 includes the ITS project scoring criteria and the ranking of future ITS projects. The future ITS projects were identified by matching the Stakeholder Survey results, the ITS strategies, needs, and goals with potential ITS and communications technologies addressing specific transportation, mobility, and safety-related issues within the MetroPlan Orlando area. All potential ITS projects identified in Section 7 were scored and ranked (prioritized) through the application of the methodology described in Section 7. One or more strategies may be included or addressed in one ITS project. In addition to the projects programmed in the Long Range Transportation Plan (LRTP), 34 potential ITS projects were identified. Each project also indicates the implementation timeline of 0 to 5 years or 6 to 10 years. The ITS Master Plan will serve as a guide for the development of future regional ITS projects.

Table 1: Timeframe for Implementation of Future ITS Projects

Priority Number/Project ID	Suggested Priority Number	Jurisdiction	Project Name	Segment	Work Description	ITS Project Score	Remaining Unfunded	Remaining Cost (Present- Day)	Implementation Priority
N1	1	Orange County Osceola County Seminole County	Active Arterial Management for US 17/92	US 192 to SR 46	Active Arterial Management for the number 1 most congested corridor in the MetroPlan Orlando. The US 441 ITS Deployment was identified in the RITSA as a future project.	73	CST	\$1,300,000 (Assuming 10 miles of FOC, 30 CCTVs, 10 Bluetooth readers, 4 ADMs, and 8 MVDs. Cost estimate will be revised after the exact elements and locations are identified)	0 to 5 years
N2	2	Orange County Seminole County Orlando	Active Arterial Management for SR 436/ Semoran Blvd	MCO to I-4	Active Arterial Management for one of the most congested corridor in the MetroPlan Orlando	73	CST	\$1,000,000 (Assuming 7 miles of FOC, 17 CCTVs, 5 Bluetooth readers, 3 ADMs, and 5 MVDs. Cost estimate will be revised after the exact elements and locations are identified)	0 to 5 years
N3	3	Orange County Osceola County	US 192 Adaptive Signal System Phase 2	Avalon Rd. to Columbia Ave.	Install an Adaptive Signal System. Identified as priority by Orange County.	64	CST	\$2,499,000	0 to 5 years
N4	4	Orange County Seminole County	SR 436/ Semoran Blvd Adaptive Signal System	SR 50 to Red Bug Lake Rd	Install an Adaptive Signal System. Identified as priority by Orange County.	62	CST	\$816,000	0 to 5 years
N5	5	Seminole County	CCTV Expansion	Countywide	Install CCTV at several Intersections. Expand CCTV coverage on county roads	60	CST	\$300,000 (Assuming 50 CCTV Cameras will be installed)	0 to 5 years
N6	6	Orange County	CCTV Expansion	Orange County	Install 100 CCTV Cameras. Identified as priority by Orange County.	60	CST	\$600,000	0 to 5 years
N7	7	Osceola County	Osceola Parkway Adaptive Signal System	Dyer Blvd to FTE	Adaptive signal system deployment. Identified as need from interviews	57	CST	\$612,000	0 to 5 years
6	8	Osceola County	Osceola County ATMS Phase 4	Osceola County	Expansion of ATMS and addition of Bluetooth readers	56	PE CST	\$220,000 \$2,263,700	0 to 5 years

Transit PPL, Category A, Ranked List

Transit PPL, Unranked List

Priority Number/Project ID	Suggested Priority Number	Jurisdiction	Project Name	Segment	Work Description	ITS Project Score	Remaining Unfunded	Remaining Cost (Present- Day)	Implementation Priority
8	9	Orange County	Orange County ATMS Phase 4	Orange County	Expansion of ATMS	56	Design/Build	\$3,691,000	0 to 5 years
9	10	Seminole County	Seminole County ATMS	Seminole County	Expansion of ATMS	56	Design/Build	\$3,119,000	0 to 5 years
19	11	Kissimmee	City of Kissimmee ATMS Phase 1	City of Kissimmee	15 ATMS traffic signals	56	CST	\$200,000	0 to 5 years
34	12	Kissimmee	City of Kissimmee ATMS Phase 2	City of Kissimmee	Expansion of ATMS	56	CST	\$1,800,000	0 to 5 years
U16	13	Orlando	SR 436	Frontage Rd./TG Lee Blvd.	Replace Fiber Optic Cable	55	CST	\$336,000 (Assuming a cost of \$60,000/mile)	0 to 5 years
N8	14	Orange County	Signal Upgrades	Orange County	Upgrade 100 signal controllers to Siemens ATC with communication switches. Identified as priority by Orange County.	54	CST	\$3,100,000 (Assuming a cost of \$28,000 per controller+cabinet and \$3,000 per switch)	0 to 5 years
N9	15	Orange County	Signal Cabinet Upgrades	Orange County	Upgrade 20 signal cabinets with UPS cabinets. Identified as priority by Orange County.	54	CST	\$680,000 (Assuming a cost of \$28,000 per controller+cabinet and \$6,000 per UPS)	0 to 5 years
12	16	Orlando	Kirkman Rd.	Conroy Rd. to Old Winter Garden Rd.	Replace Fiber Optic Cable	53	CST	\$70,000	0 to 5 years
2	17	Orlando	CCTV Expansion Phase 1	City of Orlando	Install CCTV at 28 Intersections	52	CST	\$168,000	0 to 5 years
10	18	Orlando	CCTV Replacement Phase 1	City of Orlando	Replace CCTV at 15 Intersections	52	CST	\$60,000	0 to 5 years
11	19	Orlando	CCTV Expansion Phase 2	City of Orlando	Install CCTV at 31 Intersections	52	CST	\$194,000	0 to 5 years

Florida Department of Transportation

RICK SCOTT GOVERNOR 605 Suwannee Street Tallahassee, FL 32399-0450 RACHEL D. CONE INTERIM SECRETARY

April 10, 2017

Mr. Harold W. Barley Executive Director MetroPlan Orlando MPO 250 South Orange Avenue Suite 200 Orlando, Florida 32801

RE: Third Quarter Variance Report (January 2017 – March 2017)

Dear Mr. Barley:

Thank you for your inquiry of the third quarter variance report for the period of January 2017 through March 2017. After running the Department's Variance Report and reviewing the information I would like to inform you that there have been no significant changes that meet the criteria that MetroPlan Orlando has requested the Department to report.

As always, we appreciate all the opportunities that we get to work with MetroPlan Orlando staff and if you should have any additional questions or concerns please do not hesitate to contact me at 386-943-5427.

Sincerely,

Kellie Smith Government Liaison Administrator

cc: Gary Huttmann, Deputy Executive Director, MetroPlan Orlando Keith Caskey, Manager of Planning Services, MetroPlan Orlando

NOTES						

What is TransitScreen?

• TransitScreen provides real-time displays of transportation options at locations that are convenient and accessible to current and potential transit riders.

TRANSIT

metroplan orlando

 Launched in 2013 from a civic technology project at Mobility Lab in Arlington, VA, TransitScreen is focused on urban mobility solutions.

Why TransitScreen?

- Presenting information about transit options in a relevant, easy-to-understand format is an important first step to create measurable mode shift.
- TransitScreen provides an affordable, subscription service and has successfully provided this type of service throughout the U.S.

Why MetroPlan Orlando?

- MetroPlan Orlando's office location is a perfect location for the first TransitScreen in Downtown Orlando thanks to the frequency of public meetings and the large number of decision-makers and other "influencers" who visit the office.
- In addition, MetroPlan Orlando has expressed an interest in decreasing the number of meeting attendees that drive to their office. We hope to encourage mode shift by displaying how well-served the office is by transit.

What is featured on the TransitScreen?

- Scheduled arrival times of SunRail and LYNX routes are featured on the left side of the TransitScreen. The train and local bus times are *not* real-time arrival times.
- Real-time arrival times of LYMMO, the Downtown Orlando fare-free circulator, are featured on the right side.
- Real-time availability of bikes at the closest Juice Bike stations is featured at the bottom of the left panel.
- Real-time availability of the closest Zipcar, located in the City of Orlando parking garage, is at the bottom of the right panel.

Why not just tell people to find the information for themselves on their smart phones?

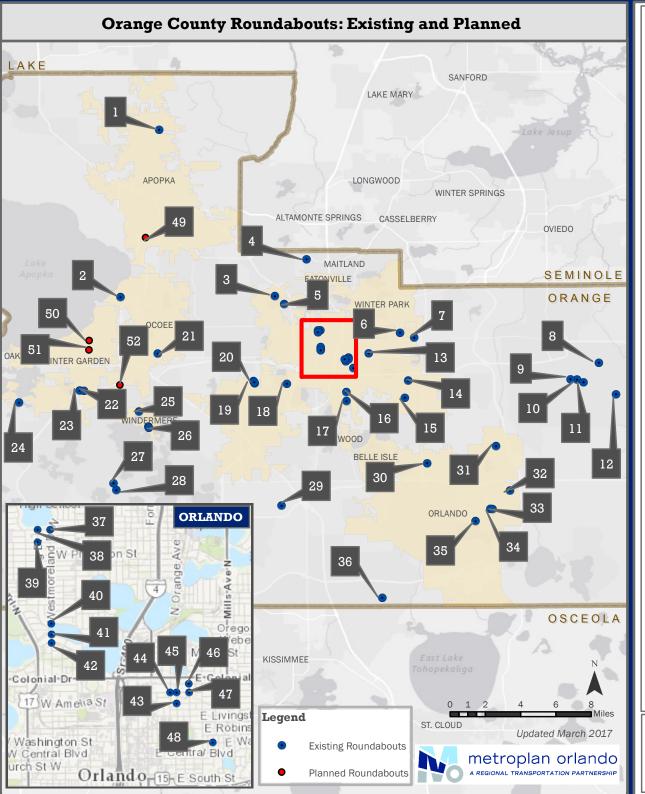

- Without a doubt, the smart phone has enhanced people's ability to quickly and easily consume information. But these apps are typically used by people who know what they are looking for.
- TransitScreen is a way to get transit information directly to people who don't know how many transportation options are available.

Who is paying for the TransitScreen in MetroPlan Orlando's office?

• reThink Your Commute, a program of the Florida Department of Transportation, is sponsoring the MetroPlan Orlando TransitScreen for one year as a pilot program.

How can a visitor to the MetroPlan Orlando office use the TransitScreen?

- The information on the TransitScreen helps you see transportation options beyond your personal vehicle.
- With information on transit times and the closest carshare or bikeshare, you may decide to try a different way of traveling – if not on this trip, perhaps a future one.

Board Meeting Highlights - March 8, 2017

- <u>Chairman's Announcements:</u> Commissioner Bob Dallari opened the meeting at 9:00 a.m. and welcomed everyone. Commissioner VanderLey led the Pledge of Allegiance. Commissioner Dallari thanked Second Harvest Food Bank for hosting the meeting and introduced Mr. Greg Higgerson who spoke briefly about Second Harvest's operations. Commissioner Dallari called attention to a productive recent meeting with Congresswoman Stephanie Murphy that he and Mr. Barley attended. Commissioner Clarke reported on the February 9, 2017 TDLCB meeting. Mayor Dyer gave a report on the February 23, 2017 Commuter Rail Commission meeting.
- MetroPlan Orlando Executive Director's Announcements: Mr. Harry Barley thanked Second Harvest for hosting the meeting. He welcomed Commissioner Jim Fisher in attendance for Mayor Alvarez and guests Ms. Emiko Atherton and Ms. Erica Young, Smart Growth America, Ms. Lisa Portelli, Winter Park Health Foundation, and Mr. Kyle Thorp, Aide to Congresswoman Murphy. Mr. Barley reported that signage issues at the I-95/I-4 interchange in Daytona Beach and the south exit from Orlando International Airport, which were called attention to at the February Board meeting, were being addressed by the respective agencies. He called attention to a letter from Mayor Dyer to Governor Scott that was included in the supplemental folders, asking the Governor to look at readdressing negotiations on the sale of sections of SR 417, SR 528, and SR 429.
- <u>Agenda Review</u>: Mr. Barley reported that Mayor Jacobs was ill and unable to attend. He requested that Consent Agenda item VIII.G., which Mayor Jacobs had requested at the February meeting, be deferred to the next meeting when she would be able to attend. Board members agreed to defer Consent Agenda Item VIII.G.
- Public Comments: None
- Unanimously **Approved** Consent Items: A-F and H. Consent Agenda item VIII.G. was deferred.
- Other Business: Roundabouts (Mr. Chris Cairns), Florida Transportation Plan/FDOT Complete Streets Policy (Mr. David Cooke), Central Florida Complete Streets Report (Ms. Emiko Atherton), Trends in Pedestrian, Bicycle and Motorist Behaviors (Mr. Mighk Wilson), Automated Vehicle Proving Grounds and What it Means for Central Florida (Mr. Charles Ramdatt), and SunTrax Program (Mr. Mike Shannon)

• Public Comments:

Ms. Joanne Counelis expressed the need for 24 hour bus and train service seven days a week.

Mr. David Bottomley called attention to collaborative planning efforts being conducted in Hillsborough County.

• Next Board Meeting – <u>May 10, 2017 at MetroPlan Orlando</u>
