## TRANSDEV AND LYNX EMBARK ON NEW PARTNERSHIP

**Chicago, May 24, 2023**

Starting June 1, 2023, Transdev will launch its new partnership with the Central Florida Regional Transportation Authority (LYNX) to operate its ACCESS LYNX paratransit service.

Currently, the ACCESS LYNX paratransit program provides approximately 2,100 scheduled passenger trips daily, across the three Counties of Seminole, Orange, and Osceola.

As part of their new partnership, Transdev will be responsible for the operations, maintenance, dispatch, scheduling, road supervision, and overall management of the contract on behalf of ACCESS LYNX. This includes 200 vehicles and 330 employees.

"Due to an accelerated start-up timeline of four weeks, our Transdev teams have mobilized quickly and have worked closely with the ACCESS LYNX team and our subcontracting partners to address community stakeholders, union, and current employees' needs in preparation for the June 1 launch," says WC Pihl, Transdev's senior vice president of business development. "I couldn't be more proud of our team and partners, and how they all came together under this tight transition timeline. We are excited to work with ACCESS LYNX to provide safe, reliable, and innovative solutions to the Central Florida communities and its paratransit customers," Pihl added.

"After an exhaustive competitive procurement process, we have awarded the operations and maintenance of the paratransit contract to Transdev. We are already building a strong relationship in our work with them to ensure a smooth transition for all of our customers. The good news is the majority of the new ACCESS LYNX team members will be transitioning and will be familiar faces to our customers. We look forward to this partnership while providing this valued service for our community," said Tiffany Homler Hawkins, CEO of LYNX.

"This is an outstanding opportunity for Transdev to partner with an industry leading transit agency. We are committed to bringing transparency, accountability, reliability, and efficiency to the ACCESS LYNX services and our passengers," said Bill Spraul, Transdev's regional vice president for their south central region. "Our operations approach will build a positive employee culture and be backed by our proven experience and resources. Through our commitment to safety, service, and sustainability, we look forward to elevating the

### Transportation & Economic Development: PASSED

#### **SB 106 – FLORIDA SHARED-USE NONMOTORIZED TRAIL NETWORK**

*The Governor signed the bill on April 11, effective July 1, 2023.*

The bill expands the existing Shared-Use Nonmotorized (SUN) Trail Network and enhances the coordination of the state's trail system with the Florida Wildlife Corridor. It prioritizes the development of "regionally significant trails," defined as trails crossing multiple counties; serving economic and ecotourism development; showcasing the state's wildlife areas, ecology, and natural resources; and serving as main corridors for trail connectedness across the state.

The bill authorizes the FDOT and local governments to enter into sponsorship agreements for trails and to use associated revenues for maintenance, signage, and related amenities.

The bill increases recurring funding for the SUN Trail Network from \$25 million to \$50 million and provides a non-recurring appropriation of \$200 million to plan, design, and construct the SUN Trail Network.

The bill does not disrupt the currently planned projects in the FDOT 5-Year Work Program for the SUN Trail Network but specifically directs the new funds to be used to add new projects to the Work Program or to move up work on projects currently planned.

#### **HB 155 – TAMPA BAY AREA REGIONAL TRANSIT AUTHORITY (TBARTA)**

*HB 155 passed the Legislature and enrolled on April 19.*

The bill repeals the statutes relating to TBARTA. The bill dissolves TBARTA effective June 30, 2024 and requires TBARTA to provide for the discharge of any liabilities, settle and close its affairs, transfer any pending activities such as its vanpool program, close and appropriately disburse any applicable federal or state funds, provide for the distribution of any remaining assets, notify the DEO and each entity represented on TBARTA's board that it is dissolved, and forward its records to the Department of State.

#### **HB 425 – TRANSPORTATION**

*HB 425 passed the Legislature and enrolled on May 4.*

This omnibus transportation bill addresses many issues (23 total sections) related to the FDOT and general issues surrounding Florida's corridors, including:

- Expanding the Move Over Law to include disabled motor vehicles.
- Requiring that construction aggregates (gravel, sand, etc.,) producers may not represent that an aggregate is certified unless it complies with FDOT rules.
- Requires a local government to accept electronic proof of delivery for construction materials.
- Authorizes FDOT to spend \$5 million for workforce development.

With regard to Metropolitan Planning Organizations (MPOs), the bill requires that:

- Any MPOs within the same urban area must coordinate plans and transportation improvements.
- MPOs are prohibited from performing capital improvements on the State Highway System.

- By December 31, 2023, the MPOs serving Hillsborough, Pasco, and Pinellas Counties must submit a feasibility report to the Governor, Senate President, and Speaker exploring the benefits, costs, and consolidation process into a single MPO.

**HB 1305 – DEPARTMENT OF TRANSPORTATION**

*The Governor signed the bill on May 11, effective July 1, 2023.*

The bill contains multiple provisions relating to the FDOT, as well as other transportation-related issues. The bill:

- Increases the maximum amount of debt service coverage that may be transferred from the State Transportation Trust Fund to the Right-of-Way Acquisition and Bridge Construction Trust Fund from \$35 million annually to \$425 annually, and increases the maximum term of state bonds using federal appropriations for federal aid highway construction, from 12 years to 18 years.
- Authorizes the FDOT to purchase promotional items for the promotion of electric vehicle use and charging stations, autonomous vehicles, and context design for electric and autonomous vehicles.
- Increases from \$120 million to \$200 million the FDOT's annual cap on the award of contracts using innovative techniques of highway and bridge design, construction, maintenance, and finance; and excludes low-bid design-build milling and resurfacing contracts from the annual cap.
- Requires the FDOT to adopt by rule minimum safety standards for certain fixed guideway transportation systems operating in this state which are located within an independent special district created by local act which have boundaries within two contiguous counties (See: district f/k/a Reedy Creek Improvement District) and to conduct structural safety inspections of such systems as specified.
- Effective upon becoming a law, reestablishes the Greater Miami Expressway Agency, subject to the revised powers, governance, jurisdiction, and duties contained in the bill.

**HB 1397 – REGIONAL TRANSPORTATION PLANNING**

*HB 1397 passed the Legislature and was enrolled on May 4. If signed, the bill is effective upon becoming law and would require the report from FDOT by January 1, 2024.*

The bill provides legislative intent to explore transformative changes to the policy management structure of the Hillsborough Area Regional Transit Authority (HART) to achieve organizational efficiencies with the goal of streamlining decision-making, improving transparency, and enhancing the effectiveness of local and regional public transit service delivery. The bill directs the FDOT, or its consultant, to conduct a study reviewing aspects of HART's organizational structure and operation.

**SB 1068 – DRONE DELIVERY SERVICES**

*The bill passed the Legislature and was enrolled on April 27.*

The bill prohibits political subdivisions from withholding the issuance of a business tax receipt, development permit, or other use approval to a drone delivery service and from enacting or enforcing an ordinance or resolution prohibiting a drone delivery service's operation based on the location of the delivery service's drone port. However, the bill does allow a political subdivision to enforce generally applicable minimum setback and landscaping regulations.

**HB 5 – ECONOMIC PROGRAMS**

*HB 5 passed the Legislature and was enrolled on May 8.*

The bill eliminates Enterprise Florida, Inc. (EFI) and provides that all duties and functions are transferred to the Department of Commerce (renamed by the bill from the formerly named Department of Economic Opportunity). The bill repeals the following programs: Entertainment Industry Tax Credit; Florida Space Business Incentives Act; qualified defense contractor and space flight business tax refund program; tax refund for qualified target industry (QTI) businesses; Brownfield Redevelopment Bonus Refunds relating to QTI; Economic Gardening Business Loan Pilot Program; Economic Gardening Technical Assistance Pilot Program; Quick Action Closing Fund; Innovation Incentive Program; New Markets Tax Credit; Microfinance Loan Program; Motorsports Entertainment Complex; Golf Hall of Fame; and International Game Fish Association World Center facility. Further, the bill requires the Florida Sports Foundation and VISIT Florida to contract with the department as direct-support organizations.

**HB 657- ENFORCEMENT OF SCHOOL ZONE SPEED LIMITS**

*HB 657 passed the Legislature and was enrolled on April 28.*

The bill authorizes counties and municipalities to use speed detection systems, which are similar to red light cameras, to enforce school zone speed limits for violations in excess of 10 miles per hour over the applicable speed limit when children are going to or from school and during the entirety of the school day.

## Transportation & Economic Development: **FAILED**

**SB 370 – ELECTRONIC MOTOR VEHICLE REGISTRATION CERTIFICATION**

*The bill passed two Senate committees but was never heard in its final committee Fiscal Policy.*

The bill would have authorized acceptance of an electronic certificate of motor vehicle registration as documentation required to be in the possession of a motor vehicle's operator or carried in the vehicle while the vehicle is being operated on the roads of this state. The bill provides that displaying an electronic registration certificate does not constitute consent for an officer or agent to access any other information on the electronic device, and the person who presents the device assumes liability for any resulting damage to the device.

**HB 7053 - TOURISM DEVELOPMENT**

*The bill passed one House committee but was never heard again.*

If passed, the bill would have required a percentage of each county's TDT revenue to be used to fully fund Visit Florida for a mandatory period of three (3) years. Also, Visit Florida would have been required to expend at least 75% of all funds toward rural counties. Further, the bill would have required that tourist development taxes expire after six years and must be renewed by a referendum. This bill was a proposed committee bill of the House's Regulatory Reform and Economic Development Subcommittee.

**HB 1591/SB 1176- ELECTRIC VEHICLE INFRASTRUCTURE**

*The bills were never heard in committee.*

If passed, the bill would have prohibited public (investor-owned) utilities from using rate-based investments in EV charging stations. It further required the PSC to adopt rules to facilitate the widespread deployment of EV charging stations and infrastructure through consumer choice and competition and the use of reasonable and affordable cost-based electric rates for non-utility providers of public EV charging service. The bill provided that such rules must be competitively neutral and apply to public utilities offering EV charging services to the public.

**SB 1070- LICENSE TAXES**

*The bill passed the Senate but died in messages to the House.*

The bill would have imposed additional registration fees on certain electric vehicles. The additional taxes imposed would have applied to an initial or renewal registration that has a renewal period beginning on or after October 1, 2023. The bill provided for the distribution of proceeds of such fees to the State Transportation Trust Fund and to the county where such a vehicle is registered. Additionally, the bill restricted the use of the proceeds to transportation expenditures, as defined in current law; exempted certain electric and plug-in hybrid electric vehicles from the additional tax; and provided that the additional fees expire on December 31, 2031.

**HB 235 – ALTERNATIVE MOBILITY FUNDING SYSTEMS**

*The bill passed two House committees but was never heard in its final committee.*

HB 235 revised provisions concerning impact fees and concurrency and would have provided additional guidance concerning mobility fees. The bill provided definitions for “mobility fee” and “mobility plan” to be used within the Community Planning Act. Additionally, the bill provided that local governments adopting and collecting impact fees by ordinance or resolution must use localized data available within the previous 12 months of adoption for the local government’s calculation of impact fees.

**SB 698/HB 731 – LOCAL TAX REFERENDA REQUIREMENTS**

*SB 698 died in its last committee of reference. HB 731 died on the calendar.*

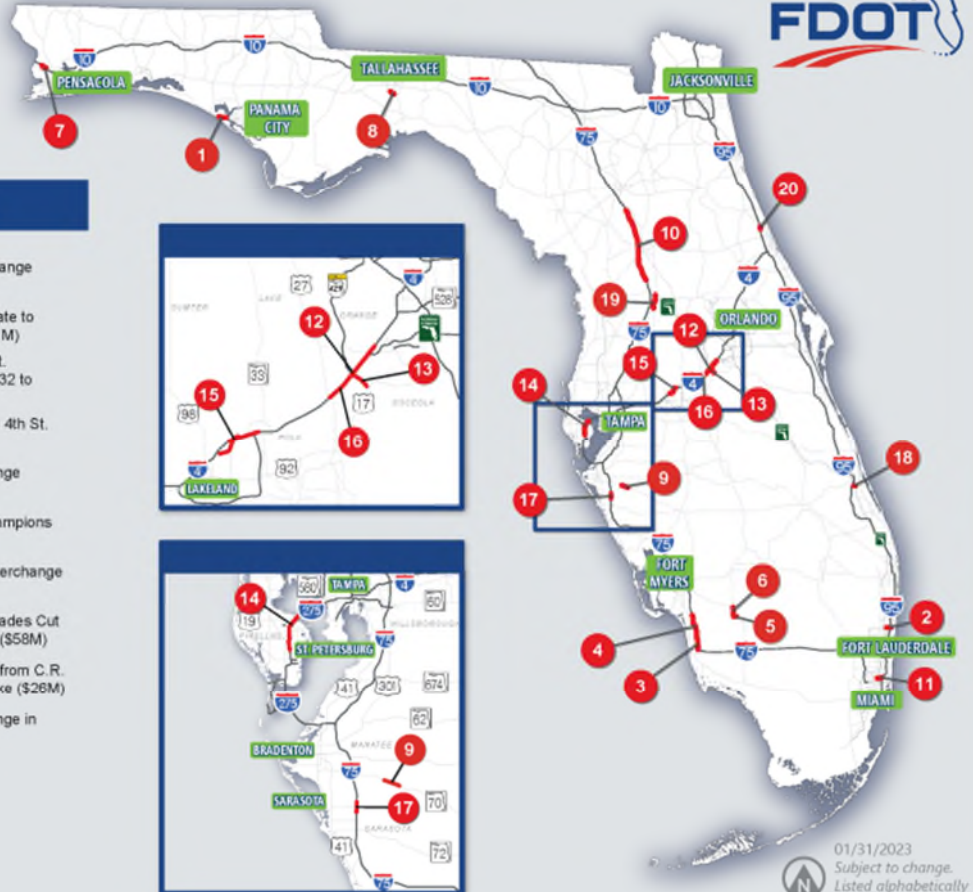

The bills would have amended provisions related to several taxes approved by referendum. The bills required a referendum to reenact or increase such taxes to be placed on the ballot at a general election occurring within the 48-month period immediately preceding the effective date of the tax. Furthermore, such referendums would have been required to appear on the ballot only once within 48 months of the effective date of the tax.
